**Opera, Sex and Other Vital Matters** - Paul Robinson 2002-06-08

Opera, Sex, and Other Vital Matters gathers both classic and never-before-published essays from one of the leading stylists in contemporary American letters, and one of our more revered public intellectuals, Paul Robinson. Diverse and elegant, the essays in this new collection showcase the sly wit and lightly worn erudition of their author. Each celebrates art and the flesh, directing us to the twin ecstasies of music

and eros. The essays on opera gathered here explore how masterpieces like Fidelio and The Magic Flute reflect the intellectual currents of their day. Be it the work of Verdi or Mozart, Wagner or Strauss, Robinson compels us to search for meaning not just in the lyrics of opera but also in the music. In melody, not libretto, we are more likely to discern key historical complexities and appreciate the way opera transcends language and time. The essays on sexuality, meanwhile, are ruminative, funny, and

even moving. At one moment, Robinson measures whether homosexuality is the result of destiny or free choice. In another, he shares a touching exchange of letters with a gay student in the process of coming out. The final essays that encompass "other vital matters" find Robinson at his most incisive. Whether defending Freud as the most influential thinker of the twentieth century, attacking the dreaded use of semicolons, reflecting on his own mortality, or even meditating on the nature of cats, *Sex, Opera, and Other Vital Matters* is an eclectic work that will appeal to any reader interested in the continuing relevance of ideas to life.

**Enjoying the Operatic Voice: A Neuropsychanalytic Exploration of the Operatic Reception Experience** - Carlo Zuccarini 2019-03-30

There has been a long-standing and mutually-informing association between psychoanalysis, literature and the arts. Surprisingly, given the

oral/aural basis of the 'talking cure', music has largely been overlooked by psychoanalysis. Notably, neuroscientific research investigating music reception and production has been steadily increasing in range and scope over the years. However, in order to avoid confounding factors, empirical studies have focused primarily on non-vocal music. Remarkably, operatic vocal music has not featured prominently in either field. Yet the multi-dimensional, multi-layered nature of opera, which fuses together a number of different arts, would appear to provide fertile soil for both disciplines. This book aims to fill that gap, providing a stepping stone for further research. It leverages the individual strengths of psychoanalysis and neuroscience both separately and jointly as the inter-discipline of neuropsychanalysis. By combining various theories of mind with knowledge about music processing in the brain, this book comprehensively examines the operatic reception experience, providing an account in

subjective as well as objective terms. It explores the bittersweet enjoyment of operatic vocal music, which can literally move an operaphile to tears. The explanation for this may be found in a number of subjective dynamics that are unique to the reception of opera, rather than in any distinct objective neural processes, which are common to the reception of all music. These subjective dynamics, which are recruited during neural processing, are triggered by the equally unique features of the operatic voice, in combination with a number of auxiliary elements that are specific to opera. This book will be of interest to academics in a broad range of science and arts disciplines related to music perception and performance, such as music psychology and operatic performance. It may also appeal to passionate operaphiles who wish to understand what drives their addiction!

**Pagodas in Play** - Adrienne Ward 2010

*Pagodas in Play* analyzes the treatment of China in the imaginative and spectacular world of

eighteenth-century Italian opera. It shows how Italians used perceptions of Chinese culture to address local and transnational developments, particularly Enlightenment and secular reform initiatives. Its focus on the texts and performance practices of opera, an entertainment form accessible to a wide public, reveals cultural operations and identities harder to detect in non-fictional reformist writings, the texts traditionally privileged to explain Italian mediations of Enlightenment ideas. In its close reading of nine libretti of the most salient Settecento operas treating China (*opere serie* and *opere buffe* by authors including Metastasio, Zeno, Goldoni and Lorenzi), *Pagodas in Play* differentiates Italian iterations of Chinese culture from French and English counterparts. It further challenges certain tenets of orientalism, showing how it operates when nationalist and/or colonialist projects are absent, and how orientalist practices in eighteenth-century Italy exhibit early on the complexity some scholars

**Visible Learning** - John Hattie 2008-11-19

This unique and ground-breaking book is the result of 15 years research and syntheses over 800 meta-analyses on the influences on achievement in school-aged students. It builds a story about the power of teachers, feedback, and a model of learning and understanding. The research involves many millions of students and represents the largest ever evidence based research into what actually works in schools to improve learning. Areas covered include the influence of the student, home, school, curricula, teacher, and teaching strategies. A model of teaching and learning is developed based on the notion of visible teaching and visible learning. A major message is that what works best for students is similar to what works best for teachers – an attention to setting challenging learning intentions, being clear about what

success means, and an attention to learning strategies for developing conceptual understanding about what teachers and students know and understand. Although the current evidence based fad has turned into a debate about test scores, this book is about using evidence to build and defend a model of teaching and learning. A major contribution is a fascinating benchmark/dashboard for comparing many innovations in teaching and schools.

The Cambridge Companion to Opera Studies - Nicholas Till 2012-10-18

With its powerful combination of music and theatre, opera is one of the most complex and yet immediate of all art forms. Once opera was studied only as 'a stepchild of musicology', but in the past two decades opera studies have experienced an explosion of energy with the introduction of new approaches drawn from disciplines such as social anthropology and performance studies to media theory, genre theory, gender studies and reception history.

Written by leading scholars in opera studies today, this Companion offers a wide-ranging guide to a rapidly expanding field of study and new ways of thinking about a rich and intriguing art form, placing opera back at the centre of our understanding of Western culture over the past 400 years. This book gives lovers of opera as well as those studying the subject a comprehensive approach to the many facets of opera in the past and today.

**Not Without Madness** - Fabrizio Della Seta  
2013

In these 12 essays, the author explores the concept of opera as a dramatic event and an essential moment in the history of theatre. Examining the meaning of opera and the devices that produce and transmit this meaning, he looks at the complex verbal, musical and scenic mechanisms in parts of 'La Sonnambula', 'Ernani', 'Aida', 'Le Nozze di Figaro', 'Macbeth' and 'Il Trovatore'. He argues that approaches to the study of opera must address performance,

interpretation, composition, reception, and cultural ramifications.

Fashions and Legacies of Nineteenth-Century Italian Opera - Roberta Montemorra Marvin  
2010-02-11

Leading scholars investigate the ways in which operas by nineteenth-century Italian composers have been reshaped and revived over time.

*Africalogical Perspectives* - Katherine Bankole  
2007-02

**Just Beyond Listening** - Michael C. Heller  
2023-11-14

*Just Beyond Listening* asks how we might think about encounters with sound that complicate standard accounts of aurality. In a series of essays, Michael C. Heller considers how sound functions in dialogue with a range of sensory and affective modalities, including physical co-presence, textual interference, and spectral haunting. The text investigates sound that is experienced in other parts of the body, altered by cross-wirings of the senses, weaponized by the military, or mediated and changed by cultural practices and memory. Building on recent scholarship in sound studies and affect theory, Heller questions not only how sound propagates acoustically but how sonic presences temper our total experience of the world around

us.

*Diverse Voices in Photographic Albums* - Mary Trent 2022-07-29

Through a variety of case studies by global scholars from diverse academic fields, this book explores photographic-album practices of historically marginalized figures from a range of time periods, geographic locations, and socio-cultural contexts. Their albums' stories span various racial, ethnic, gender and sexual identities; nationalities; religions; and dis/abilities. The vernacular albums featured in this volume present narratives that move beyond those reflected in our existing histories. Essays examine the visual, material, and aural strategies that album-makers have used to assert control over the presentation of their histories and identities, and to direct what those narratives have to say, a point of special relevance as these albums move out of private domestic space and into public archives, institutions, and digital formats. This book does

not consider photographic albums and scrapbooks as separate genres, but as a continuum of modern creative practices of photographic and mass-print collage aimed at self-expression and narrative-building that co-evolved and were readily accessible. The book will be of interest to scholars working in art history, history of photography, visual culture, material culture, media studies, and cultural studies.

**Queer Wars** - Paul Robinson 2005-02

The first extended consideration of gay conservatism and its more trenchant critics is offered in this detailed examination of three features of this new political movement--the rejection of a commitment to the causes of other marginalized people, the embrace of traditional gender ideals, and a condemnation of sexual promiscuity.

Feminism brings unique literary, critical, and historical perspectives to the relationship between women's writing and women's rights in British contexts from the late eighteenth century to the present. Thematically organised around five central concepts—Rights, Networks, Bodies, Production, and Activism—the Companion tracks vital questions and debates, offering fresh perspectives on changing priorities and enduring continuities in relation to women's ongoing struggle for liberty and equality. This groundbreaking collection brings into focus the historical and cultural conditions which have shaped the formation of British literary feminisms, including the legacies of slavery, colonialism, and Empire. From the political novel of the 1790s to early twentieth-century suffrage theatre and contemporary ecofeminism, and from the mid-Victorian antislavery movement to anti-fascist activism in the 1930s and working-class women's writing groups in the 1980s, this book testifies to the diverse and dynamic

character of the relationship between literature and feminism. Featuring contributions from leading feminist scholars, the Companion offers new insights into the crucial role played by women's literary production in the evolving history of women's rights discourses, feminist activism, and movements for gender equality. It will appeal to students and scholars in the fields of women's writing, British literature, cultural history, and gender and feminist studies.

Stravinsky and Balanchine - Charles M. Joseph  
2008-10-01

divdivIgor Stravinsky and George Balanchine, among the most influential artists of the twentieth century, together created the music and movement for many ballet masterpieces. This engrossing book is the first full-length study of one of the greatest artistic collaborations in history. Drawing on extensive new research, Charles M. Joseph discusses the Stravinsky-Balanchine ballets against a rich contextual backdrop. He explores the background and

psychology of the two men, the dynamics of their interactions, their personal and professional similarities and differences, and the political and historical circumstances that conditioned their work. He describes the dancers, designers, and sponsors with whom they worked. He explains the two men's approach to the creative process and the genesis of each of the collaborative ballets, demolishing much received wisdom on the subject. And he analyzes selected sections of music and dance, providing examples of Stravinsky's working sketches and other helpful illustrative materials. Engagingly written, the book will be of great interest not only to music and dance historians but also to ballet lovers everywhere. /DIV/DIV

*On Opera* - Bernard Williams 2008-10-01  
A lifelong opera lover, Bernard Williams's articles and essays, talks for the BBC, contributions to the Grove Dictionary of Opera, and program notes for the Royal Opera House, Covent Garden, and the English National Opera,

generated a devoted following. This volume brings together these widely scattered and largely unobtainable pieces, including two that have not been previously published. It covers an engaging range of topics from Mozart to Wagner, including essays on specific operas by those composers as well as Verdi, Puccini, Strauss, Debussy, Janacek, and Tippett. --From publisher's description.

*Queer Wars* - Dennis Altman 2016-03-21

The claim that 'LGBT rights are human rights' encounters fierce opposition in many parts of the world, as governments and religious leaders have used resistance to 'LGBT rights' to cast themselves as defenders of traditional values against neo-colonial interference and western decadence. *Queer Wars* explores the growing international polarization over sexual rights, and the creative responses from social movements and activists, some of whom face murder, imprisonment or rape because of their perceived sexuality or gender expression. This book asks

why sexuality and gender identity have become so vexed an issue between and within nations, and how we can best advocate for change.

**From Obstacle to Ally** - Judith M. Hughes 2004  
From Obstacle to Ally explores the evolution of the theory and practice of psychoanalysis through an investigation of historical examples of clinical practice. Beginning with Freud's experience of the problem of transference, this book is shaped around a series of encounters in which psychoanalysts have managed effectively to negotiate such obstacles and on occasion, convert them into allies. Judith Hughes succeeds in bringing alive the ideas, clinical struggles and evolving practices of some of the most influential psychoanalysts of the last century including Sandor Ferenczi, Anna Freud, Melanie Klein, Wilfred Bion, Betty Joseph and Heinz Kohut. Through an examination of the specific obstacles

posed by particular diagnostic categories, it becomes evident that it is often when treatment fails or encounters problems that major advances in psychoanalytic practice are prompted. As well as providing an excellent introduction to the history of fundamental psychoanalytic concepts, From Obstacle to Ally offers an original approach to the study of the processes that have shaped psychoanalytic practice as we know it today and will fascinate practising psychoanalysts and psychotherapists.

Inscribing Jingju/Peking Opera - David Rolston  
2021-08-09

What was the most influential mass medium in China before the internet reaching both literate and illiterate audiences? The answer may surprise you...it's Jingju (Peking opera). This book traces the tradition's increasing textualization and the changes in authorship, copyright, performance rights, and textual fixation that accompanied those changes.

"In these engaging, challenging and beguiling dialogues, Pamela Cohn expertly draws from her subjects, personal biography and conceptual intent, process and nearly subconscious motivation, personal revelation and political mission. The result is a work that not only provides a road map to the furthest regions of cinematic possibility in the early 21st century but one whose spirited back-and-forth inspires the reader to think anew about artistic possibility." —Scott Macaulay, editor-in-chief of Filmmaker Magazine "Pamela Cohn has curated and conducted a series of interviews that simultaneously invite you to turn the page, and pause for a moment of reverie. Her interviews furrow the grounds where sensibilities become cinema, and attitudes become forms." —Luke Moody Lucid Dreaming is an unprecedented global collection of discussions with documentary and experimental filmmakers, giving film and video its rightful place alongside the written word as an essential medium for

conveying the most urgent concerns in contemporary arts and politics. In these long-form conversations, film curator and arts journalist Cohn draws out the thinking of some of the most intriguing creators behind the rapidly developing movement of moving-image nonfiction. The collection features individuals from a variety of backgrounds who encounter the world, as Cohn says, "through a creative lens based in documentary practice." Their inspirations encompass queer politics, racism, identity politics, and activism. The featured artists come from a multiplicity of countries and cultures including the U.S., Finland, Serbia, Syria, Kosovo, China, Iran, and Australia. Among those Cohn profiles and converses with are Karim Aïnouz, Khalik Allah, Maja Borg, Ramona Diaz, Samira Elagoz, Sara Fattahi, Dónal Foreman, Ja'Tovia Gary, Ognjen Glavonic, Barbara Hammer, Sky Hopinka, Gürcan Keltek, Adam and Zack Khalil, Khavn, Kaltrina Krasniqi, Roberto Minervini, Terence Nance, Orwa

Can nonfiction film be defined? How close to reality can or should documentary storytelling be, and is film and video in its less restrictive

iterations “truer” than traditional narratives? How can a story be effectively conveyed? As they consider these and many other questions, these passionate, highly articulate filmmakers will inspire not only cinema enthusiasts, but activists and artists of all stripes.
