Subject to Identity - Susan Talburt

Challenges the ways "lesbian academics" have been socially constructed.

Standing Out, Standing Together - Melinda Miceli 2013-01-11

Just a decade ago, requests by students to establish groups to support gay and lesbian students were rare and generally met with shock and confusion by school administrators and local communities. Today there are more than 1600 gay straight alliances (GSAs) across the country. Standing Out, Standing Together

documents the emergence of gay straight alliances in public schools across America - from factors that have contributed to the relatively rapid spread of GSA to those that stirred controversy and posed roadblocks. Using over 10 years of interviews with students, teachers, administrators and political activists; case studies; and local and national media reports, Miceli explores the personal and political stakes involved in the battles over GSAs. Although the book acknowledges and documents the harassment, abuse and problems suffered by many gay, lesbian, transgendered, and bisexual students, its primary focus is on these students as political activists, rather than as passive victims, making it a unique contribution to sociologists, educators, political activists and LGBTreaders alike.

*Revisiting Sexualities in the 21st Century* - Constantinos N. Phellas 2015-04-01

Sexual interactions are socially constructed within a historical, social and cultural milieu, and are continually defined and redefined accordingly depending on the surrounding economic, political, moral, and religious social forces. Although the human capacity for sexual expression spans a wide range of variations and permutations, it is nonetheless seriously confined, limited and restricted to only a few "acceptable" forms. Western style "sexual acceptability" is, in turn, determined by the prevailing white, heterosexual standards of patriarchy perpetuated through childhood masculine socialization and adolescent and adult machismo practices. *Revisiting Sexualities in the 21st Century* examines a whole set of explanatory and definitional issues from the very outset, particularly regarding what may be rightly included and excluded from its provenance and coverage. The contributors to this book are brought together from three different methodological spheres: qualitative, quantitative, and historical/comparative. Each author lays out the traditional parameters of the methodology used in their perspectives of social science research, and openly discusses how they have been applied to the study of hetero sexuality/non-heterosexuality and the ways in which their theory and methodology may be improved. Their contributions outline some of the major theoretical and methodological problems that still confront the study of modern sexualities, while also presenting a selection of theoretical and methodological issues of interest to both new and experienced researchers. This anthology identifies the need in contemporary social and cultural studies for more elaborate understandings of the relations of various masculinities and femininities to power, nation, empire, violence, race, class, and embodiment, and, in doing so, brings together an eclectic, multidisciplinary, and wide-ranging collection of essays. The various contributions to this book will appeal to social scientists (especially sociologists, psychologists and sexologists), biomedical scientists, health professionals and other academic and professional audiences, and students, researchers and instructors of sexuality studies.

Undoubtedly, with this collection, sexuality studies comes of age as an academic field.

*A Radical Rethinking of Sexuality and Schooling* - Eric Rofes 2005-03-09

A Radical Rethinking of Sexuality and Schooling offers a startling and original critique of unexamined assumptions and liberal notions about sexuality and education in the United States. Tackling issues ranging from anti-gay harassment in school to children's literature on gay themes, gender performances of teachers to HIV education, graduate school programs in education to gay men's sexual cultures, Eric Rofes presents a compelling argument for the creation of a second generation of activism focused on queers, schools, and education.

**Tritiya-Prakriti: People of the Third Sex** - Amara Das Wilhelm 2010-05-18

Tritiya-Prakriti: People of the Third Sex is a collection of years of research into a topic seldom discussed or easily found within the Hindu/Vedic scriptural canon. Based entirely upon authentic Sanskrit references and modern concurring facts, the book guides us through the original Hindu concept of a "third sex" (defined as homosexuals, transgenders and the intersexed), how such people were constructively

incorporated into ancient Indian society, and how foreign influences eventually eroded away that noble system. It discusses how this concept can be practically applied in today's modern world, the importance of all-inclusiveness in human society, and the spiritual principle of learning to transcend material designations altogether. Tritiya-Prakriti: People of the Third Sex will be a valuable source of reference for anyone interested in Hindu/LGBTI studies whether they are newcomers to the field or seasoned veterans of Vedic knowledge. It offers a veritable treasure trove of fresh information and ideas that will likely challenge the reader to rediscover and rethink Hinduism's traditional understanding and treatment of gay, lesbian, and other gender-variant people within its culture. "The recognition of a third sex in ancient India and Hinduism is highly relevant in many ways. Our own modern-day society has only recently begun to understand sexual orientation, transgender identity, and intersex conditions, and our legal and social systems are just beginning to catch up with and accommodate such people in a fair and realistic way . . . yet ancient India had already addressed and previously resolved this issue many thousands of years ago in the course of its own civilizations development. Indeed, there is much we can learn from ancient India's knowledge regarding the recognition and accommodation of a 'third sex' within society." -Amara Das Wilhelm "In India there is a system where such people (the third sex) have their own society, and whenever there is some good occasion like marriage or childbirth, they go there and pray to God that this child may be very long living." -A.C. Bhaktivedanta Swami Prabhupada "Gay and lesbian people have always been a part of society from Vedic times to our postmodern times. They should be accepted for what they are in terms of their sexual orientation and encouraged like everyone else to pursue spiritual life." -B.V. Tripurari Swami "Initially, I did not really allow myself to go deep in trying to understand the third sex. I figured that this was necessary only for those who are insensitive, arrogant and fundamentalist . . . who think that they are compassionate and tolerant while basically being superficial and even condescending. It is quite amazing how most of us can be so prejudiced about so many things and not even know it . . . I thank you and several others for your compassion and for your tolerance in making efforts to educate your Godfamily, so that we can be more authentic servants of the servant." -H.H. Bhakti Tirtha Swami

**Resources in Education** - 1999Reconsidering Religion, Law, and Democracy - Anna-Sara Lind 2016-01-05

How are Western, mostly secular, societies handling religion in its increasingly pluralistic and complex forms? What different forms of interactions between and negotiations of religion and religious beliefs can we see in contemporary society? What are the primary contenders in these interactions and negotiations? The authors of Religion, Law and Democracy give ample examples of a variety of interaction processes between different expressions of religion and different spheres of society, such as the media, the judicial systems and state administration and policy. The authors primarily approach these questions from a North European but also to some extent a global perspective. A common denominator is a dynamic perspective on the relation between religious organizations, society and the individual actors - in other words how all of these levels are interconnected and transformed in these processes.

**Rethinking Sexual Identity in Education** - Susan Birden 2005

Responding to wide-spread abuse of lesbian, gay, bisexual, transgender, and questioning persons (LGBTQs) in education, Rethinking Sexual Identity in Education examines the heterosexism inherent in both educational theory and practice, conceptualizing as mis-educative compulsory heterosexuality's stigmatization of 'out' LGBTQs as outsiders. Reflecting upon the Outsiders' Society Virginia Woolf envisioned in Three Guineas (1938) for daughters of educated men, this work re-names and re-conceives as Out-Siders those people who 'side' with the 'out' in order to mitigate compulsory heterosexuality's mis-educative effects. Examining how Out-Siders already bring theory and action to bear on sexual identity, Birden names and explicates six praxes used to educate about sexual identity. These Praxes in re Sexual Identity range from ignoring or denigrating non-heterosexuality to 'queering discourse' by de-centering the normative gender roles. The author utilizes autobiographical and qualitative-research narratives of LGBTQs' experiences in schooling, higher education, and community education to challenge the theoretical and practical weaknesses of these Praxes in re Sexual Identity. Finding each to be lacking to test the practicality of each praxis. Finding each to be lacking, Birden constructs an Out-Siders' Praxis. The significance of this proposed Out-Siders' Praxis lies in its educative resistance against cynicism and powerlessness that silence oppressed LGBTQ voices and in its theoretical soundness as a guide for developing curricula that Out-Siders can teach and learn in order to transform heterosexist practices and environments. Birden's Out-Siders' Praxis affirms ethical values of liberty, experimentation, and discourse across difference, while advocating that Out-Siders invent and intervene with the attitude of artists.

*Homophobic Bullying in Irish Secondary Education* - James O'Higgins-Norman 2008

his research monograph is an exploration of students, parents and teachers experiences regarding sexuality and homophobic bullying in National (ie public) as well as private secondary institutions. The work discusses settings that run the gamut of tough inner city schools to historical entities with distinguished graduates and first rate instruction and provides solid research statistics as well as an historical overview of pedagogies that have been heavily influenced by religious and sectarian agendas. Gender based schools and co-ed facilities are also contrasted in relation to bullying and efforts to suppress and re direct class and playground behaviors. European Union approached to this problem also discussed. A robust bibliography and index are included. "This timely work is of great importance to schools. It uncovers the frightening extent of homophobic bullying as a serious national problem and poses a major challenge to schools in the context of the Equality Act." Dr. Jim Gleeson, Department of Education and Professional Studies, University of Limerick "Dr. O'Higgins-Norman's work has made a significant contribution to the research field through his work on homophobia in schools. His research has highlighted the scope and extent of homophobic bullying in Ireland for the first time; it has helped greatly to bring the issue to public and policy attention."

Prof. Kathleen Lynch, School of Social Justice, University College Dublin. "I applaud this work as the issue Dr. O'Higgins-Norman has investigated is a difficult and sensitive one and, consequently, has not always been given the attention it deserves. This makes his research all the more important and it will help to inform future agendas and policies on young people's education and wellbeing". Dr. Marian de Souza, School of Religious Education, Australian Catholic University "I cannot emphasise enough the importance of Dr. O'Higgins-Norman's work on homophobic bullying in Irish schools. While significant empirical studies of this nature have emerged in Britain, nothing on this scale or level of complexity has come out of Ireland to date. This work represents a huge contribution to scholarly work in the field of education studies, and has secured an important foothold for research into gender and sexuality within the area of sociology of education in Ireland." Dr. Debbie Ging, School of Communications, Dublin City University Dr. James Norman-O'Higgins is a lecturer at the School of Education Studies in Dublin City University, Ireland where he is also Chair of the post-graduate teacher education programme. For many years he has been engaged in research and teaching on issues related to equality, wellbeing and young people in schools.

Troubling the Teaching and Learning of Gender and Sexuality Diversity in South African Education - Dennis A. Francis 2016-11-18

In this book, Francis highlights the tension between inclusion and sexual orientation, using this tension as an entry to explore how LGB youth experience schooling. Drawing on research with teachers and LGB youth, this book troubles the teaching and learning of sexuality diversity and, by doing so, provides a

critical exploration and analysis of how curriculum, pedagogy, and policy reproduces compulsory heterosexuality in schools. The book makes visible the challenges of teaching sexuality diversity in South African schools while highlighting its potential for rethinking conceptions of the social and cultural representations thereof. Francis links questions of policy and practice to wider issues of society, sexuality, social justice and highlights its implications for teaching and learning. The author encourages policy makers, teachers, and scholars of sexualities and education to develop further questions and informed action to challenge heteronormativity and heterosexism.
