Crisis Intervention in Criminal Justice/social Service - James Earnest Hendricks 2002

This collection of works is intended for pre-service and in-service criminal justice and social service crisis interveners, this book provides theoretical, analytical, and practical knowledge for those who first respond to crisis in a professional capacity. Face-to-face interaction with

the client/victim is part of the comprehensive approach advocated by this book, which requires interveners to assess the nature of a crisis and the condition of the victim in order to determine the appropriate course of action. Each chapter offers a theoretical overview of a particular facet of intervention, as well as models and methods for applying crisis theory to crisis situations faced by interveners. Although crisis situations are composed of similar elements, each crisis is unique within the personal domain due to individual diversity. Chapters are devoted to crisis intervention for each of the following crises: domestic violence/spouse abuse, child abuse and neglect, elder abuse and neglect, rape and sexual assault, the death of a loved one, and suicide.

Cold Flashes - Michael Engelhard 2010-07-15

As the old adage goes, "if you can't say it in a few pages, you won't in a hundred." The selections in *Cold Flashes*—very short prose and black-and-white photographs—embody perfectly this transparency, thrift, and restraint. Found here are highly polished micro-narratives, both fiction and nonfiction, and a series of eloquent and artistic halftones that capture their sizeable subjects in a nutshell. By minimizing the exposition, the selections stimulate the imagination to reflect on the rich diversity of people and places that make up Alaska. To be savored piecemeal at coffee shops, on the bus, or while waiting in line, the

images and text in Cold Flashes will resonate with both the reader and each other, fusing into something profound yet elusive.

Surviving and Moving On - Kim McGregor 2014-01-21

This book is essential reading for any survivor of child sexual abuse, female or male. Many survivors of sexual abuse have not always been

believed or supported through their developmental years. They have had to cope on their own, dealing with the aftermath of the abuse in whatever ways they could. This book offers ideas and techniques for understanding and healing which adult survivors in particular may find useful. It tends to be written with women in mind, but much of the information and many of the exercises may be useful for male survivors as well. This book will also be useful for the partners, families and friends giving support and encouragement to survivors who are healing themselves from the effects of abuse. Many survivors want those around them to understand what they've survived and its effects on their life. Part 1 provides information about child sexual abuse - what it is, why children remain silent about it, some of the effects abuse can have on a survivor's life and how these can be minimised, and who the offenders are. Part 2 is for survivors, helping them to understand and to cope with their unique experience of child sexual abuse. Part 3 is specifically for supporters and caregivers of survivors.

Supporting and Educating Traumatized Students - Eric Rossen 2020

"Traumatic or adverse experiences are pervasive among school-aged children and youth. These experiences undermine students' ability to learn, form relationships, and manage their feelings and behaviour. Meanwhile, educators and school-based professionals often remain unaware of the complex needs of their students or how to meet them within the hours of the typical school day, all while possibly dealing with their own stressors. Supporting and Educating Traumatized Students: A Guide for School-Based Professionals provides a practically oriented tool for understanding and assisting students with a history of trauma. Designed specifically for professionals in mental health and education settings, this volume combines content and expertise from practitioners, researchers, and other experts with backgrounds in education, school psychology, school social work, school administration, resilience, school policy, and trauma. The book provides a thorough background on current research in trauma and its impact on school functioning; administrative and policy considerations; and a broad set of practical and implementable strategies and resources for adapting and differentiating instruction, modifying the classroom and school environments, and building competency for students and staff impacted by trauma. Rather than provide complex treatment protocols, the chapters in this book offer simple techniques and strategies designed for all types of educational environments within the context of multiple potential sources of trauma. Supporting and Educating Traumatized Students is an essential resource for classroom teachers, administrators, and school-based professionals, as well as courses that address crisis, trauma, and education across a broad spectrum of specializations."--
