

Sex How To Do Everything Documentary

Intercourse in Television and Film - Lindsay Coleman 2018-03-12

As many critics and theorists have noted, non-pornographic films, documentaries, and quality television series have increasingly included explicit sex scenes since the 1990s, some of such scenes featuring the performance of actual sex acts. The incidence of sex in narratively powerful, resonant visual media can no longer be dismissed as a trend. What was once an aesthetic weapon in the arsenal of provocateurs is now frequently integrated seamlessly into the mise-en-scène and exposition of widely viewed and culturally significant films and television series. *Intercourse in Television and Film: The Presentation of Explicit Sex Acts* analyzes the aesthetic and narrative contexts for the visual media presentation of the sexual act, both those which are non-simulated and those which are explicit to that point that their simulation is brought into question by the viewer. In this book, questions involving the performance choices of actors, the framing and editing of the sex act, and the director's attempts at integrating sexuality into the overall narrative structure as well as their effects are explored.

Sexography - Nicholas De Villiers 2017

The turn of the twenty-first century has witnessed an eruption of nonfiction films on sex work. The first book to examine a cross-section of this diverse and transnational body of work, *Sexography* confronts the ethical questions raised by ethnographic documentary and interviews with sexually marginalized subjects. Nicholas de Villiers argues that carnal and cultural knowledge are inextricably entangled in ethnographic sex work documentaries. De Villiers offers a reading of cinema as a technology of truth and advances a theory of confessional

and counterconfessional performance by the interviewed subject who must negotiate both loaded questions and stigma. He pays special attention to the tactical negotiation of power in these films and how cultural and geopolitical shifts have affected sex work and sex workers. Throughout, *Sexography* analyzes the films of a range of non-sex-worker filmmakers, including Jennie Livingston, Pier Paolo Pasolini, Shohini Ghosh, and Cui Zi'en, as well as films produced by sex workers. In addition, it identifies important parallels and intersections between queer and sex worker rights activist movements and their documentary historiography. De Villiers ultimately demonstrates how commercial sex is intertwined with culture and power. He advocates shifting our approach from scrutinizing the motives of those who sell sex to examining the motives and roles of the filmmakers and transnational audiences creating and consuming films about sex work.

Resisting Rape Culture through Pop Culture - Kelly Wilz 2019-12-15
Resisting Rape Culture through Pop Culture: Sex After #MeToo provides audiences with constructive models of affirmative consent, tender masculinity, and pleasure in popular culture that work to challenge toxic dominant and hegemonic constructions. While numerous scholars have illustrated the many ways mediated culture shape social understandings of sexual violence, this book analyzes texts that might serve to resist rape culture. This project locates how these texts manufacture cinematic or televisual narratives and in turn work to create new realities that encourage cultural and social change. Kelly Wilz analyzes the ways in which we, as a culture, tend to understand sex through visual media and dominant cultural myths, while highlighting productive texts which might serve as a possible corrective to the ways in which sex is ritualized by rules that legitimize violence. Through the lens of productive criticism,

Wilz examines how language and dominant ideologies around rape culture and rape myths reinforce systemic violence, and how visual texts might work to reimagine how we might disrupt those ideologies and create new ways to engage in conversations around intimacy and violence. By centering the voices within the #MeToo movement, who actively work to de-normalize sexual assault and abuse, these models provide a useful counter to the deluge of dehumanizing narratives about survivors and sexualized violence. Scholars of pop culture, women's studies, media studies, and social justice will find this book particularly useful.

It's Every Monkey For Themselves - Vanessa Woods 2014-05-28

Aiming to put as much distance as she could between herself and a dysfunctional relationship, Vanessa Woods left her Pleasantville life in the leafy but safe suburbs of Canberra and headed for the remote, wild and distinctly unsafe jungles of Costa Rica. She had a research job, a contract with Disney Channel and would spend the year working with a small community of dedicated like-minded scientific souls researching the behaviour of capuchin monkeys while making a documentary about Costa Rican wildlife. Or so she thought. As it turned out, Vanessa's housemates in the monkey house didn't appreciate her Australian sense of humour, she was stung so often by wasps and killer bees she developed a lethal allergy, and the monkeys were evasive, mean and aggressive - with the only difference between them and her housemates being that at least she could tell her housemates apart. Over the course of a wild, bruising and tumultuous year that can most accurately be characterized as Dian Fossey meets Big Brother, Vanessa learned that not all monkeys - or people - are alike, that friendship can be more important than sex, and that sometimes it takes a brush with death and an abscess the size of a melon on your head to make you realise that being pretty isn't always enough. This is a story of love, loss, bitter rivalry and vicious battles - and that's just the monkeys.

Everything You Need to Know About the Menopause (but were too afraid to ask) - Kate Muir 2022-01-20

An eye-opening, no-holds-barred guide to the perimenopause and menopause written by campaigner, journalist and documentary-maker Kate Muir. *Everything You Need to Know About the Menopause (and were too afraid to ask)* is the thinking woman's guide to the menopause, bringing you answers to all those questions that have been hidden behind a veneer of misplaced shame, bad science and centuries of patriarchy. · What's the perimenopause and when will it strike? (It's

sooner than you think) · What's happening to my body - and my mind? · Why can't I stop thinking about sex in perimenopause? · How do I get my sex drive back after menopause? · How do I look after my body and brain when my hormones disappear? Muir draws on interviews with the leading medical experts in the field, interlaced with her own tumultuous journey through the menopause and the personal stories of women from all walks of life, sharing their varied experiences and hard-earned wisdom. Muir also questions why the current medical establishment is getting the menopause so wrong, as she debunks the myths that surround hormone replacement therapy and exposes the sloppy science and hysterical headlines that have had a negative impact on women's health for the last twenty years. It's essential that we understand the biology of our own bodies during this critical period that will define the latter half of our lives. With the help of a panel of doctors, scientists and health experts, Muir unpacks the science behind hormones and ageing, and takes a close look at the different options available for treating both body and mind during the profound changes that take us into midlife and beyond. What she discovers is that both symptoms and treatment are far more extensive and diverse than we might expect. The menopause is the whole package, and the treatment needs to be too, with impacts as wide ranging as preventing Alzheimer's, boosting sex drive and protecting mental health. This ground-breaking guide is a social, cultural and scientific exploration into a criminally overlooked and under-discussed phenomenon that will affect one billion of us by 2025. And it is a manifesto for change, calling for equality in healthcare and an entirely new approach to women's health.

Abstinence Cinema - Casey Ryan Kelly 2016-03-08

From the perspective of cultural conservatives, Hollywood movies are cesspools of vice, exposing impressionable viewers to pernicious sexually-permissive messages. Offering a groundbreaking study of Hollywood films produced since 2000, Abstinence Cinema comes to a very different conclusion, finding echoes of the evangelical movement's abstinence-only rhetoric in everything from Easy A to Taken. Casey Ryan Kelly tracks the surprising sex-negative turn that Hollywood films have taken, associating premarital sex with shame and degradation, while romanticizing traditional nuclear families, courtship rituals, and gender roles. As he demonstrates, these movies are particularly disempowering for young women, concocting plots in which the decision to refrain from sex until marriage is the young woman's primary source of agency and arbiter of moral worth. Locating these regressive sexual politics not only in expected sites, like the Twilight films, but surprising ones, like the raunchy comedies of Judd Apatow, Kelly makes a compelling case that Hollywood films have taken a significant step backward in recent years. Abstinence Cinema offers close readings of movies from a wide spectrum of genres, and it puts these films into conversation with rhetoric that has emerged in other arenas of American culture. Challenging assumptions that we are living in a more liberated era, the book sounds a warning bell about the powerful cultural forces that seek to demonize sexuality and curtail female sexual agency.

The Cultural Politics of Female Sexuality in South Africa -

Henriette Gunkel 2010-01-21

Sexual identity has emerged into the national discourse of post-apartheid South Africa, bringing the subject of rights and the question of gender relations into the nation's politics. This book is a reflection on the effects of these discourses on non-normative modes of sexuality and on the country more generally.

Sex In The Head - Linda R. Williams 2016-07-01

In *Sex in the Head*, Linda Ruth Williams uses psychoanalysis and recent feminist film theory to analyze a network of ideas which link looking with sexuality and difference, in the work of a writer who disavowed, yet covertly enjoyed, the pleasures and power of vision. The book is a departure from the long history of feminist readings of Lawrence, in that it discusses his engagement with theories of the gaze and its cultural forms - cinema, photography, painting and the visual dynamics and metaphors of literary texts - as a way of thinking through gender. It shows him arguing, on the one hand, against the evils of cinema and visual sex, while relishing, through the eyes of women, the moving spectacle of those male bodies which populate the pages of his books. It also questions what it is about the work of such an adamant cinephobe which has made it so thoroughly adaptable for film and television.

Many Splendored Things - Susanna Paasonen 2018-11-27

Exploring sex—bodily capacities, appetites, orientations, and connections—in terms of play and playfulness. We all know that sex involves a quest for pleasure, that sexual palates vary across people's lifespans, and that playful experimentations play a key role in how people discover their diverse sexual turn-ons and turn-offs. Yet little attention has been paid to thinking through the interconnections of sex and play, sexuality and playfulness. In *Many Splendored Things* from Goldsmiths Press, Susanna Paasonen considers these interconnections. Paasonen examines the notions of playfulness and play as they shed light on the urgency of sexual pleasures, the engrossing appeal of sex, and the elasticity of sexual desires, and considers their connection to categories of identity. Drawing on a broad range of scholarship on sexuality, play, and the media, Paasonen moves from the conceptual to the concrete, examining advice literature on sexual play, the vernacular aesthetics of the *Fifty Shades* series, girls' experiences of online sexual role-playing, popular media coverage of age-play, and Jan Soldat's documentary films on BDSM culture. Paasonen argues that play in the realm of sexuality involves experimentation with what bodies can feel and do and what people may imagine themselves as doing, liking, and preferring. Play involves the exploration of different bodily capacities, appetites,

orientations, and connections. Occasionally strained, dark, and even hurtful in the forms that it takes and the sensory intensities that it engenders, sex presses against previously perceived and imagined horizons of embodied potentiality. Play pushes sexual identifications into motion.

Still Doing it - Deirdre Fishel 2009

"An informed, honest, joyous book. Younger women may well envy us."-- Suzanne Braun Levine, author of *Inventing the Rest of Our Lives* and "Sex, love, and life can grow even richer as we grow older, and the stereotype-busting women in this book show us scores of ways. These women are not going downhill, they're on a roll. They are women of juice and wisdom-and living proof that the best is yet to come."--Gina Ogden, PhD, author of *Women Who Love Sex, The Heart and Soul of Sex*, and *The Return of Desire* When Deirdre Fishel and Diana Holtzberg began work on their documentary *Still Doing It*, they knew they were catching a wave. The women of the baby-boom generation who had been so outspoken about sexuality and freedom were about to turn sixty, yet no one was talking about the revolution in aging. Nor was anyone letting on about the big dark secret that women born before the boomers, even way before, were a hell of a lot more vital than the images we were getting, and many were still having sex-and loving it! In *Still Doing It*, Fishel, Holtzberg, and the incredible women in their documentary broke the silence. Now they are back, with a stimulating and eye-opening book that offers a deeper look at women who break every stereotype we have about sex and intimacy. These women are dynamic, confident, opinionated, and wise. They're also having the kind of intense sexual experiences and fantasies we never associate with grandmothers. You'll meet Betty, who met her live-in boyfriend in an online chat room when she was sixty-nine and he was twenty-two; Joani, age seventy, who shares her boyfriend with another woman; and Frances, who encountered the intellectual and sexual love of her life at eighty. Today's women are living longer, healthier lives, and their appetite for sex and adventure isn't fading. Aware of their mortality, they understand just how precious life really is, and are willing to take risks to go after what they want.

Challenging stereotypes about older women, *Still Doing It* lets everyone know that sex and adventure do not need to end when you hit sixty (or seventy ... or ninety!). In fact, the good stuff is often just beginning.

Prostitution and Sex Work in Global Cinema - Danielle Hipkins

2017-10-30

This volume brings together international scholars to engage in the question of how film has represented a figure that for many is simply labelled 'prostitute'. The prostitute is one of the most enduring female figures. She has global historical resonance and stories, images and

narratives surrounding her, and her experiences, circulate transnationally. As this book will explore, the broad term prostitute can cover a variety of experiences and representations that are both repressive and also have the potential to empower women and disrupt cultural expectations. The contributors aim to consider how frequently 19th-century narratives of female prostitution—hence the label 'fallen women'—are still recycled in contemporary visual contexts, and to understand how widespread, and in what contexts, the destigmatization of female sex work is underway on screen.
