They used to joke about it. Like many brilliant scientists, Josh sometimes had trouble remembering things that needed doing in the "real" world—like buying groceries, eating regular meals, and talking to people. But he was happy to have his beloved wife, Lauren, remind him with her "honey do" lists. He just never realized how much he would need one when she was gone. Being a widower is not something Joshua Park ever expected. Given his solitary job, small circle of friends and family, and the social awkwardness he's always suffered from, Josh has no idea how to negotiate this new, unwanted phase of life. But Lauren had a plan to keep him moving forward. A plan hidden in the letters she leaves him, giving him a task for every month in the year after her death. A plan that leads Joshua with a loving hand on a journey through grief, anger, and denial. It's a journey that will take Joshua from his first outing as a widower to buy groceries...to an attempt at a dinner party where his lack of experience hosting creates a comic disaster...to finding a new best friend while weeping in the dressing room of a clothing store. As his grief makes room for new friendships and experiences, Joshua learns Lauren's most valuable lesson: The path to happiness doesn't follow a straight line. Funny, sometimes heart-wrenching, and always uplifting, this novel from New York Times bestselling author Kristan Higgins illuminates how life's greatest joys are often hiding in plain sight.

Blood Moon - Lucy Cuthew 2020-09

This powerful, timely novel in verse exposes provocative truths about periods, sex, shame, and going viral for all the wrong reasons. After school one day, Frankie, a lover of physics and astronomy, has her first sexual experience with quiet and gorgeous Benjamin—and gets her period. It's only blood, they agree. But soon a gruesome meme goes viral, turning an intimate, affectionate afternoon into something sordid, mortifying, and damaging. In the time it takes to swipe a screen, Frankie's universe implodes. Who can she trust? Not Harriet, her suddenly cruel best friend, and certainly not Benjamin, the only one who knows about the incident. As the online shaming takes on a horrifying life of its own, Frankie begins to wonder: is her real life over? Author Lucy Cuthew vividly portrays what it is to be a teen today with this fearless and ultimately uplifting novel in verse. Brimming with emotion, the story

captures the intensity of friendships, first love, and female desire, while unflinchingly exploring the culture of online and menstrual shaming. Sure to be a conversation starter, Blood Moon is the unforgettable portrait of one girl's fight to reclaim her reputation and to stand up against a culture that says periods are dirty.

The Tallgrass Prairie Reader - John T Price 2014-06

The tallgrass prairie of the early 1800s, a beautiful and seemingly endless landscape of wildflowers and grasses, is now a tiny remnant of its former expanse. As a literary landscape, with much of the American environmental imagination focused on a mainstream notion of more spectacular examples of wild beauty, tallgrass is even more neglected. Prairie author and advocate John T. Price wondered what it would take to restore tallgrass prairie to its rightful place at the center of our collective identity. The answer to that question is his Tallgrass Prairie Reader, a first-of-its-kind collection of literature from and about the tallgrass bioregion. Focusing on autobiographical nonfiction in a wide variety of forms, voices, and approaches—including adventure narrative, spiritual reflection, childhood memoir, Native American perspectives, literary natural history, humor, travel writing and reportage—he honors the ecological diversity of tallgrass itself and provides a range of models for nature writers and students. The chronological arrangement allows readers to experience tallgrass through the eyes and imaginations of forty-two authors from the nineteenth to the twenty-first centuries. Writings by very early explorers are followed by works of nineteenth-century authors that reflect the fear, awe, reverence, and thrill of adventure rampant at the time. After 1900, following the destruction of the majority of tallgrass, much of the writing became nostalgic, elegiac, and mythic. A new environmental consciousness asserted itself midcentury, as personal responses to tallgrass were increasingly influenced by larger ecological perspectives. Preservation and restoration—informed by hard science—emerged as major themes. Early twenty-first-century writings demonstrate an awareness of tallgrass environmental history and the need for citizens, including writers, to remember and to help save our once magnificent prairies.

Gardens of the Moon - Steven Erikson 2004-06-01

Vast legions of gods, mages, humans, dragons and all manner of creatures play out the fate of the Malazan Empire in this first book in a major epic fantasy series from Steven Erikson. The Malazan Empire simmers with discontent, bled dry by interminable warfare, bitter infighting and bloody confrontations with the formidable Anomander Rake and his Tiste Andii, ancient and implacable sorcerers. Even the imperial legions, long inured to the bloodshed, yearn for some respite. Yet Empress Laseen's rule remains absolute, enforced by her dread Claw assassins. For Sergeant Whiskeyjack and his squad of Bridgeburners, and for Tattersail, surviving cadre mage of the Second Legion, the aftermath of the siege of Pale should have been a time to mourn the many dead. But Darujhistan, last of the Free Cities of Genabackis, yet holds out. It is to this ancient citadel that Laseen turns her predatory gaze. However, it would appear that the Empire is not alone in this great game. Sinister, shadowbound forces are gathering as the gods themselves prepare to play their hand... Conceived and written on a panoramic scale, *Gardens of the Moon* is epic fantasy of the highest order--an enthralling adventure by an outstanding new voice.
