*Period Power* - Nadya Okamoto 2018-10-16

PERIOD founder and Harvard College student Nadya Okamoto offers a manifesto on menstruation and why we can no longer silence those who bleed—and how to engage in youth activism. Throughout history, periods have been hidden from the public. They're taboo. They're embarrassing. They're gross. And due to a crumbling or nonexistent national sex ed program, they are misunderstood. Because of these stigmas, a status quo has been established to exclude people who menstruate from the seat at the decision-making table, creating discriminations like the tampon tax, medicines that favor male biology, and more. Period Power aims to explain what menstruation is, shed light on the stigmas and resulting biases, and create a strategy to end the silence and prompt conversation about periods.

**The Palgrave Handbook of Critical Menstruation Studies** - Chris Bobel 2020-07-24

This open access handbook, the first of its kind, provides a comprehensive and carefully curated multidisciplinary and genre-spanning view of the state of the field of Critical Menstruation Studies, opening up new directions in research and advocacy. It is animated by the central question: "what new lines of inquiry are possible when we center our attention on menstrual health and politics across the life course?" The chapters—diverse in content, form and perspective—establish Critical Menstruation Studies as a potent lens that reveals, complicates and unpacks inequalities across biological, social, cultural and historical dimensions. This handbook is an unmatched resource for researchers, policy makers, practitioners, and activists new to and already familiar with the field as it rapidly develops and expands.

*The Girl in Her Teens* - Margaret Slattery 2016-01-07

THE TEEN PERIOD She was a beautiful, well-developed girl of thirteen. Her bright, eager face, with its changing expression, was a fascination at all times. It seemed unusually earnest and serious that particular morning as she stood waiting the opportunity to speak to me. She had asked to wait until the others had gone, and her manner as she hesitated even then to speak made me ask, "Are you in trouble, Edith?" "No, not exactly trouble,—I don't know whether we ought to ask you, but all of us girls think,—well, we wish we could have a mirror in the locker-room. Couldn't we? It's dreadful to go into school without knowing how your hair looks or anything!" I couldn't help laughing. Her manner was so tragic that the mirror seemed the most important thing in the educational system just then. I said I would see what could be done about it, and felt sure that what "all the girls" wanted could be supplied. She thanked me heartily, and when she entered her own room nodded her head in answer to inquiring glances from the other girls. As I made a note of the request, I remembered the Edith of a year or more ago. Edith, whose mother found her a great trial; she didn't "care how she looked." It was true. She wore her hat hanging down over her black braids, held on by the elastic band around her neck; she lost hair ribbons continually, and never seemed to miss them. She was a good scholar, wide-awake, alert, always ready for the next thing. She loved to recite, and volunteered information generously. In games she was the leader, and on the playground always the unanimous choice for the coveted "it" of the game. She was never in the least self-conscious, and, as her mother had said, how she looked never seemed to occur to her.

[Good Trouble](#) - Joe Biel 2016-03-15

In 1996, everything about Joe Biel's life seemed like a mistake. He was 18, he lived in Cleveland, he got

drunk every day, and he had mystery health problems and weird social tics. All his friends' lives were as bad or worse. To escape a nihilistic, apocalyptic worldview and to bring reading and documentation into a communal punk scene, he started assembling zines and bringing them in milk crates to underground punk shows. Eventually this became Microcosm Publishing. But Biel's head for math was stronger than his ability to relate to people, and it wasn't until he was diagnosed with Asperger's Syndrome that it all began to fall into place. This is the story of how, over 20 years, one person turned a litany of continuing mistakes and seeming wrong turns into a happy, fulfilled life and a thriving publishing business that defies all odds.
