Recruiting Young Love - Mark D. Jordan 2011-04-15

"Explores more than a half century of American church debate about homosexuality to show that even as the main lesson--homosexuality is bad, teens are vulnerable--has remained constant, the arguments and assumptions have changed remarkably. The story is told through a wide variety of sources, including oral histories, interviews, memoirs, and even pulp novels; the result is a fascinating window onto the never-

ending battle for the teenage soul."--from publisher's description.

Same-Sex Unions in Premodern Europe - John Boswell 1995-05-30

Both highly praised and intensely controversial, this brilliant book produces dramatic evidence that at one time the Catholic and Eastern Orthodox churches not only sanctioned unions between partners of the same sex, but sanctified them--in ceremonies strikingly similar to heterosexual marriage ceremonies.

The Church and the Homosexual - John J. McNeill 2015-11-03

In this "brave and good book which shatters bad myths" (Commonweal), McNeill shows that the Bible does not condemn homosexuality, and argues that the Church must not continue its homophobic practices. From the Trade Paperback edition.

Taking a Chance on God - John J. McNeill 2015-10-27

Taking a Chance on God explores how lesbians and gay men can claim both a positive gay identity and a fulfilling life of Christian faith. From the Trade Paperback edition.

God vs. Gay? - Jay Michaelson 2011-10-25

Does the Bible prohibit homosexuality? No, says Bible scholar and activist Jay Michaelson. But not only that: Michaelson also shows that the vast majority of our shared religious traditions support the full equality and dignity of LGBT people. In this accessible, passionate, and provocative book, Michaelson argues for equality, not despite religion but because of it. From the Hardcover edition.

Reforming Sodom - Heather R. White 2015-07-24

With a focus on mainline Protestants and gay rights activists in the twentieth century, Heather R. White challenges the usual picture of perennial adversaries with a new narrative about America's religious and sexual past. White argues that today's antigay Christian traditions originated in the 1920s when a group of liberal Protestants began to incorporate psychiatry and psychotherapy into Christian teaching. A new therapeutic orthodoxy, influenced by modern medicine, celebrated heterosexuality as God-given and advocated a compassionate "cure" for homosexuality. White traces the unanticipated consequences as the therapeutic model, gaining popularity after World War II, spurred mainline church leaders to take a critical stance toward rampant antihomosexual discrimination. By the 1960s, a vanguard of clergy began to advocate for homosexual rights. White highlights the continued importance of this religious support to the consolidating gay and lesbian movement. However, the ultimate irony of the therapeutic orthodoxy's legacy was its adoption, beginning in the 1970s, by the Christian Right, which embraced it as an age-old tradition to which Americans should

return. On a broader level, White challenges the assumed secularization narrative in LGBT progress by recovering the forgotten history of liberal Protestants' role on both sides of the debates over orthodoxy and sexual identity.

Christianity, Social Tolerance, and Homosexuality - John Boswell 2009-02-15

"Truly groundbreaking work. Boswell reveals unexplored phenomena with an unfailing erudition."—Michel Foucault John Boswell's National Book Award-winning study of the history of attitudes toward homosexuality in the early Christian West was a groundbreaking work that challenged preconceptions about the Church's past relationship to its gay members—among them priests, bishops, and even saints—when it was first published twenty-five years ago. The historical breadth of Boswell's research (from the Greeks to Aquinas) and the variety of sources consulted make this one of the most extensive treatments of any single aspect of Western social history. Christianity, Social Tolerance, and Homosexuality, still fiercely relevant today, helped form the disciplines of gay and gender studies, and it continues to illuminate the origins and operations of intolerance as a social force.

Companion to Sexuality Studies - Nancy A. Naples 2020-06-29

An inclusive and accessible resource on the interdisciplinary study of gender and sexuality Companion to Sexuality Studies explores the significant theories, concepts, themes, events, and debates of the interdisciplinary study of sexuality in a broad range of cultural, social, and political contexts. Bringing together essays by an international team of experts from diverse academic backgrounds, this comprehensive volume provides original insights and fresh perspectives on the history and institutional regulatory processes that socially construct sex and sexuality and examines the movements for social justice that advance sexual citizenship and reproductive rights. Detailed yet accessible chapters explore the intersection of sexuality studies and fields such as science, health, psychology, economics, environmental studies, and social movements over different periods of time and in different social and national contexts. Divided into five parts, the Companion first

discusses the theoretical and methodological diversity of sexuality studies. Subsequent chapters address the fields of health, science and psychology, religion, education and the economy. They also include attention to sexuality as constructed in popular culture, as well as global activism, sexual citizenship, policy, and law. An essential overview and an important addition to scholarship in the field, this book: Draws on international, postcolonial, intersectional, and interdisciplinary insights from scholars working on sexuality studies around the world Provides a comprehensive overview of the field of sexuality studies Offers a diverse range of topics, themes, and perspectives from leading authorities Focuses on the study of sexuality from the late nineteenth century to the present Includes an overview of the history and academic institutionalization of sexuality studies The Companion to Sexuality Studies is an indispensable resource for scholars, researchers, instructors, and students in gender, sexuality, and feminist studies, interdisciplinary programs in cultural studies, international studies, and human rights, as well as disciplines such as anthropology, psychology, history, education, human geography, political science, and sociology.

What the Bible Really Says about Homosexuality - Daniel A. Helminiak 1994

Top scholars--such as Yale history professor John Boswell and New Testament professors L. William Countryman of Berkeley and Robin Scroggs of Union Theological Seminary--show that those who perceive Bible passages as condemning homosexuality are being misled by faulty translation and poor interpretation.

The Boswell Thesis - Mathew Kuefler 2006-03

Few books have had the social, cultural, and scholarly impact of John Boswell's *Christianity, Social Tolerance, and Homosexuality*. Arguing that neither the Bible nor the Christian tradition was nearly as hostile to homoeroticism as was generally thought, its initial publication sent shock waves through university classrooms, gay communities, and religious congregations. Twenty-five years later, the aftershocks still reverberate. The *Boswell Thesis* brings together fifteen leading scholars at the intersection of religious and sexuality studies to comment on this book's

immense impact, the endless debates it generated, and the many contributions it has made to our culture. The essays in this magnificent volume examine a variety of aspects of Boswell's interpretation of events in the development of sexuality from Classical Antiquity through the Middle Ages, including a Roman emperor's love letters to another man; suspicions of sodomy among medieval monks, knights, and crusaders; and the gender-bending visions of Christian saints and mystics. Also included are discussions of Boswell's career, including his influence among gay and lesbian Christians and his role in academic debates between essentialists and social constructionists. Elegant and thought-provoking, this collection provides a fitting twenty-fifth anniversary tribute to the incalculable influence of Christianity, Social Tolerance, and Homosexuality and its author.

Sodomy in Reformation Germany and Switzerland, 1400-1600 - Helmut Puff 2003-06

During the late Middle Ages, a considerable number of men in Germany and Switzerland were executed for committing sodomy. Even in the seventeenth century, simply speaking of the act was cause for censorship. Here, in the first history of sodomy in these countries, Helmut Puff argues that accusations of sodomy during this era were actually crucial to the success of the Protestant Reformation. Drawing on both literary and historical evidence, Puff shows that speakers of German associated sodomy with Italy and, increasingly, Catholicism. As the Reformation gained momentum, the formerly unspeakable crime of sodomy gained a voice, as Martin Luther and others deployed accusations of sodomy to discredit the upper ranks of the Church and to create a sense of community among Protestant believers. During the sixteenth century, reactions against this defamatory rhetoric, and fear that mere mention of sodomy would incite sinful acts, combined to repress even court cases of sodomy. Written with precision and meticulously researched, this revealing study will interest historians of gender, sexuality, and religion, as well as scholars of medieval and early modern history and culture.

Hidden from History - Martin Bauml Duberman 1990-11-01

Winner of two Lambda Rising Awards This richly revealing anthology brings together for the first time the vital new scholarly studies now lifting the veil from the gay and lesbian past. Such notable researchers as John Boswell, Shari Benstock, Carroll Smith-Rosenberg, Jeffrey Weeks and John D'Emilio illuminate gay and lesbian life as it evolved in places as diverse as the Athens of Plato, Renaissance Italy, Victorian London, jazz Age Harlem, Revolutionary Russia, Nazi Germany, Castro's Cuba, post-World War II San Francisco—and peoples as varied as South African black miners, American Indians, Chinese courtiers, Japanese samurai, English schoolboys and girls, and urban working women. Gender and sexuality, repression and resistance, deviance and acceptance, identity and community—all are given a context in this fascinating work. "A landmark of a book and a landmark of ideas that will shatter ignorance and delusion."—Catharine Stimpson, University Professor and Dean Emerita of the Graduate School of Arts and Science at New York University "Ground-breaking."—Publishers Weekly "The juxtaposition of diverse perspectives and research crossing boundaries of race, gender, culture, and time encourages a lively dialogue. Highly recommended for history collections, and especially gay studies."—Library Journal

Same-Sex Unions in Premodern Europe - John Boswell 1995-05-30

The distinguished Yale historian's treatise on his sensational discovery of a same-sex marriage ceremony--sanctioned and routinely performed by the Church throughout the Early Christian and Middle Ages. In debating the "gay marriage ceremony", he provides an odyssey through history and societal attitudes. 8-page photo insert.

How to Do the History of Homosexuality - David M. Halperin 2002

In this long-awaited book, David M. Halperin revisits and refines the argument he put forward in his classic *One Hundred Years of Homosexuality*: that hetero- and homosexuality are not biologically constituted but are, instead, historically and culturally produced. *How to Do the History of Homosexuality* expands on this view, updates it, answers its critics, and makes greater allowance for continuities in the history of sexuality. Above all, Halperin offers a vigorous defense of the historicist approach to the construction of sexuality, an approach that

sets a premium on the description of other societies in all their irreducible specificity and does not force them to fit our own conceptions of what sexuality is or ought to be. Dealing both with male homosexuality and with lesbianism, this study imparts to the history of sexuality a renewed sense of adventure and daring. It recovers the radical design of Michel Foucault's epochal work, salvaging Foucault's insights from common misapprehensions and making them newly available to historians, so that they can once again provide a powerful impetus for innovation in the field. Far from having exhausted Foucault's revolutionary ideas, Halperin maintains that we have yet to come to terms with their startling implications. Exploring the broader significance of historicizing desire, Halperin questions the tendency among scholars to reduce the history of sexuality to a mere history of sexual classifications instead of a history of human subjectivity itself. Finally, in a theoretical tour de force, Halperin offers an altogether new strategy for approaching the history of homosexuality—one that can accommodate both ruptures and continuities, both identity and difference in sexual experiences across time and space. Impassioned but judicious, controversial but deeply informed, *How to Do the History of Homosexuality* is a book rich in suggestive propositions as well as eye-opening details. It will prove to be essential reading for anyone interested in the history of sexuality.

Christianity, social tolerance, and homosexuality; gay people in western Europe from the beginning of the christian era to the fourteenth century - 1980

The Invention of Sodomy in Christian Theology - Mark D. Jordan 1998-10-15

In this reexamination of what it means to have a tradition, Catholic and otherwise, Mark D. Jordan offers a powerful and provocative study of the sin of erotic love between men. *The Invention of Sodomy* reveals the theological fabrication of arguments for categorizing genital acts between members of the same sex.

Christianity, Social Tolerance and Homosexuality - John Boswell

1980

Social Perspectives in Lesbian and Gay Studies - Peter M. Nardi
1998

In this book students will be able to follow the story of how sociology has come to engage with lesbian and gay issues from the 1950s to the present.

Homosexuality and Civilization - Louis Crompton 2003

How have major civilizations of the last two millennia treated people who were attracted to their own sex? In a narrative tour de force, Louis Crompton chronicles the lives and achievements of homosexual men and women alongside a darker history of persecution, as he compares the Christian West with the cultures of ancient Greece and Rome, Arab Spain, imperial China, and pre-Meiji Japan. Ancient Greek culture celebrated same-sex love in history, literature, and art, making high claims for its moral influence. By contrast, Jewish religious leaders in the sixth century B.C.E. branded male homosexuality as a capital offense and, later, blamed it for the destruction of the biblical city of Sodom. When these two traditions collided in Christian Rome during the late empire, the tragic repercussions were felt throughout Europe and the New World. Louis Crompton traces Church-inspired mutilation, torture,

and burning of sodomites in sixth-century Byzantium, medieval France, Renaissance Italy, and in Spain under the Inquisition. But Protestant authorities were equally committed to the execution of homosexuals in the Netherlands, Calvin's Geneva, and Georgian England. The root cause was religious superstition, abetted by political ambition and sheer greed. Yet from this cauldron of fears and desires, homoerotic themes surfaced in the art of the Renaissance masters--Donatello, Leonardo, Michelangelo, Sodoma, Cellini, and Caravaggio--often intertwined with Christian motifs. Homosexuality also flourished in the court intrigues of Henry III of France, Queen Christina of Sweden, James I and William III of England, Queen Anne, and Frederick the Great. Anti-homosexual atrocities committed in the West contrast starkly with the more tolerant traditions of pre-modern China and Japan, as revealed in poetry, fiction, and art and in the lives of emperors, shoguns, Buddhist priests, scholars, and actors. In the samurai tradition of Japan, Crompton makes clear, the celebration of same-sex love rivaled that of ancient Greece. Sweeping in scope, elegantly crafted, and lavishly illustrated, *Homosexuality and Civilization* is a stunning exploration of a rich and terrible past.

Homosexuality and the Western Christian Tradition - Derrick Sherwin Bailey 1975

The author explores what the Bible and other early religious texts have to say about homosexuality.
