A Designer's Decade of Contemporary Art in China - He Hao
2014-12-30

Almost a Hundred Design Projects: Ai Weiwei, Xu Bing, Araki Nobuyoshi, Lin Tianmiao, Wang Gongxin, RongRong & inri, Liu Zheng, Yue Minjun, Miao Xiaochun, Xu Weixin, Zhang Dali, Yang Fudong, Tim Yip, Chen Wenji, Zhan Wang, Yu Hong... An Asian Trend in Contemporary Graphic Design. An independent printmedia practitioner, He Hao has been working with distinctive and representative artists in the Chinese contemporary art world, including Ai Weiwei, Xu Bing, etc., and designed more than 100 highquality books and catalogs since 2003. Recording the current state of art development in China, his works have become an archive of significance. He Hao's practice shows an Asian trend in today's graphic design: the replacement of transplanted Modernism with a contemporaneity informed by the culture and lifestyle of contemporary Ch"a and the East. An independent printmedia practitioner, He Hao has been working with distinctive and representative artists in the Chinese contemporary art world, including Ai Weiwei, Xu Bing, etc., and designed more than 100 highquality books and catalogs since 2003. Recording the current state of art development in China, his works have become an archive of significance. "He Hao's practice shows an Asian trend in today's graphic design: the replacement of transplanted Modernism with

a contemporaneity informed by the culture and lifestyle of contemporary China and the East. He Hao's designs grow organically from the content. His sole concern is the discovery and presentation of the content, and his designs show no trace of his hand. This approach might best be called 'essential design'."— Xu Bing

Dialogue - Shaun Cole 2005-11

The last 30 years have seen a revolution in the production of graphics. Computers have had a profound effect on an industry which previously relied on working by hand. Focusing on the collaboration between graphic designers and their clients, this forward-looking book takes account of the many different applications for graphic design: brand identity; retail; film; architecture; civic identity; fashion; art; exhibitions; magazines and books; and the web. Through interviews with the designers, the clients, commissioning bodies, consumers and critics, it will offer an insight into the practice of graphic design in today's global culture.

Design Issues - 2013

Design Dialogues - Steven Heller 1998

The stories are woven from experiences in media, theory, history, politics, and the blurry realm of interactivity. Both an oral history of

graphic design and a living record of where we are today, these engaging and evocative dialogues provide anyone interested in design or popular culture with a means of understanding, as well as ideas for working in, the visual world around them.

Design Studies - Audrey Bennett 2006-08-31

In an age of globalization and connectivity, the idea of "mainstream culture" has become quaint. Websites, magazines, books, and television have all honed in on ever-diversifying subcultures, hoping to carve out niche audiences that grow savvier and more narrowly sliced by the day. Consequently, the discipline of graphic design has undergone a sea change. Where visual communication was once informed by a designer's creative intuition, the proliferation of specialized audiences now calls for more research-based design processes. Designers who ignore research run the risk of becoming mere tools for communication rather than bold voices. *Design Studies*, a collection of 27 essays from an international cast of top design researchers, sets out to mend this schism between research and practice. The texts presented here make a strong argument for performing rigorous experimentation and analysis. Each author outlines methods in which research has aided their design whether by investigating how senior citizens react to design aesthetics, how hip hop culture can influence design, or how design for Third World nations is affected by cultural differences. Contributors also outline inspired ways in which design educators can teach research methods to their students. Finally, *Design Studies* is rounded out by five annotated bibliographies to further aid designers in their research. This comprehensive reader is the definitive reference for this new direction in graphic design, and an essential resource for both students and practitioners.

AIC 2004 Color and Paints, Proceedings, Interim Meeting of the International Color Association -

The Language of Graphic Design Revised and Updated - Richard Poulin 2018-10-02

The *Language of Graphic Design* provides design students and practitioners with an in-depth understanding of the fundamental elements and principles of their language, graphic design: what they are, why they are important, and how to use them effectively. To communicate in a new language, you first have to gain a complete understanding of its fundamentals; the ABC's of that language—definitions, functions, and usage. This book provides just these fundamentals for the language of graphic design, including chapters on symmetry, asymmetry, tone, contrast, proportion, and typography. Organized by the building blocks of the graphic design language, this reference includes work by some of the most successful and renowned practitioners from around the world and explains how they have applied these fundamental principles to their work. By examining both student and professional work, this comprehensive handbook is a more meaningful, memorable, and inspiring reference tool for novice design students, as well as young designers starting their careers.

The Language of Graphic Design - Richard Poulin 2012-10

'The *Language of Graphic Design*' provides graphic design students and practitioners with an in-depth understanding of the fundamental elements and principles of their language, what they are, why they are important and how to use them effectively.

Reading Graphic Design in Cultural Context - Grace Lees-Maffei 2019-02-07

Reading Graphic Design in Cultural Context explains key ways of understanding and interpreting the graphic designs we see all around us, in advertising, branding, packaging and fashion. It situates these designs in their cultural and social contexts. Drawing examples from a range of design genres, leading design historians Grace Lees-Maffei and Nicolas P. Maffei explain theories of semiotics, postmodernism and globalisation, and consider issues and debates within visual communication theory such as legibility, the relationship of word and image, gender and identity, and the impact of digital forms on design. Their discussion takes in well-known brands like Alessi, Nike, Unilever and Tate, and everyday designed things including slogan t-shirts, car advertising, ebooks, corporate logos, posters and music packaging.

Paul Rand - Michael Kroeger 2012-08-10

As one of the most influential and inspirational graphic designers of the twentieth century, Paul Rand defined modern American graphic design. His iconic logo designs for IBM, UPS, and the ABC television network distilled the essences of modernity for his corporate patrons. His body of work includes advertising, poster, magazine, and book designs—characterized by simplicity and a wit uniquely his own. His

ability to discuss design with insight and humor made him one of the most revered design educators of our time. This latest volume of the popular *Conversations with Students* series presents Rand's last interview, recorded at Arizona State University one year before his death in 1996. Beginners and seasoned design professionals alike will be informed by Rand's words and thoughts on varied topics ranging from design philosophy to design education.

Fresh Dialogue 8 - AIGA 2008-03-20

"Each year, the New York Chapter of the AIGA brings together emerging designers for 'Fresh Dialogue,' a panel discussion that provides a forum to talk about their work, thoughts, and ideas ... Playing with the notion of designer as visual interlocutor, these designers craft conversations wherein their viewers become participants and the relationship between design and its consumers is radically redefined."--Page 4 of cover

Dialogue - Shaun Cole 2005

Graphic Design Rules - Peter Dawson 2017-09-05

365 daily design mantras from four leading industry experts, providing you with valuable design dos and don'ts for every day of year. Packed with practical advice presented in a fun, lighthearted fashion, this is the perfect book for the ever-growing group of non-designers who want some graphic design guidance. And for more experienced designers, individual entries will either bring forth knowing nods of agreement or hoots of derision, depending on whether or not the reader loves or hates hyphenation, has a pathological fear of beige, or thinks that baseline grids are boring. In the style of a classical almanac, 365 entries combine a specific rule with a commentary from a variety of experienced designers from all fields of the graphic design industry. Covering topics such as typography, colour, layout, imagery, production, and creative thinking, you can either dip in at random or use the book as the source of a daily lesson in how to produce great graphic design.

The Elements of Graphic Design - Alex W. White 2011-03-15

This very popular design book has been wholly revised and expanded to feature a new dimension of inspiring and counterintuitive ideas to thinking about graphic design relationships. *The Elements of Graphic Design, Second Edition* is now in full color in a larger, 8 x 10-inch trim size, and contains 40 percent more content and over 750 images to enhance and better clarify the concepts in this thought-provoking resource. The second edition also includes a new section on Web design; new discussions of modularity, framing, motion and time, rules of randomness, and numerous quotes supported by images and biographies. This pioneering work provides designers, art directors, and students--regardless of experience--with a unique approach to successful design. Veteran designer and educator Alex. W. White has assembled a wealth of information and examples in his exploration of what makes visual design stunning and easy to read. Readers will discover White's four elements of graphic design, including how to: define and reveal dominant images, words, and concepts; use scale, color, and position to guide the viewer through levels of importance; employ white space as a significant component of design and not merely as background; and use display and text type for maximum comprehension and value to the reader. Offering a new way to think about and use the four design elements, this book is certain to inspire better design. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

AIC 2004 Color and Paints, Interim Meeting of the International Color Association, Proceedings -

Design Dialogue: Jews, Culture and Viennese Modernism - Elana Shapira 2018-10-01

In *Design Dialogue* historians and curators carefully reconstruct the intercultural exchanges between Jews and gentiles in modernist Vienna. Their research examines forms and transformations of Jewish identification within multiple cultural networks, and explores images of "Jewishness" as positioned in public discourse. The novel discussions contribute to our understanding of Viennese modernism as well as its relevance to today's global community. *Die Anthologie Design Dialog*

zielt darauf ab, die bedeutende Rolle jüdischer Mäzene, Fachleute, Architekten, Designer und Autoren bei der Gestaltung der modernen Wiener Architektur, Design und materialen Kultur herauszuarbeiten. Führende Kulturhistoriker, Museumskuratoren, Kunsthistoriker und Architekten präsentieren modernste Forschung, in der untersucht wird, wie berühmte und weniger bekannte Protagonisten neue Kultursprachen, Identifikationsformen und Netzwerke geschaffen haben, die sich in öffentlichen Debatten engagierten und zur kulturellen Erneuerung Wiens beigetragen haben – eine der bedeutendsten Städte Mitteleuropas zwischen 1800 und 1938.

Design Dialogue - Jack D. Stoops 1983

Design School: Layout - Richard Poulin 2018-01-16

Design School: Layout is an instructive guide for students, recent graduates, and self-taught designers. It provides a comprehensive introduction to creating and changing layouts: a crucially important skill that underpins practically every aspect of graphic design. You'll get in-depth analysis of all the major areas of theory and practice used by experienced professional designers. Each section provides explanation and visual examples of grid systems and in-depth discussion of compositional principles and strategies. The text is interspersed with tests designed to help you retain key points you've covered in the preceding spreads, and includes illustrations sections with real world

scenarios. This in-depth guide avoids the temptation to stray into other areas of design technique, preferring to cover the essential, detailed skills of the professional graphic designer to arm you with the knowledge needed for a successful start to your chosen career.

Dialogues with Creative Legends and Aha Moments in a Designer's Career - David Calvin Laufer 2012-12-14

In Dialogues with Creative Legends, you will find answers to some of the perplexing questions talented people confront. From these dialogues emerge a startling range of ideas, from beginning a creative career to developing client relationships, mentoring, and the role of design thinking in society. The author's gradual revelations about the intertwined contributions of creator and patron will resonate with students and practitioners in all the creative professions. This remarkable book explores the role of creativity in commerce and culture. It's a quest for livelihood and meaning that is at once highly personal- and strikingly universal. Come along as the author interviews many of the creative luminaries of the late 20th century, including: Saul Bass, Buckminster Fuller, Paul Rand, Lou Dorfsman, Herb Lubalin, Don Trousdell, Charles & Ray Eames, George Nelson, Massimo Vignelli, Heinz Edelman, Victor Papanek, and Hermann Zapf.

Media, Spiritualities and Social Change - Stewart M. Hoover 2011-01-13
Groundbreaking study into the relationship between forms of spirituality, media and its effect on social reform.
