Managing a Long Distance Relationship Joy Deborah Adewuyi 2020-12-30 Many people repel long-distance love relationships for several reasons, one of which emanates from the popular cliché 'out of sight is out of mind'. The fears of uncertainties and concerns about the low likelihood of success long-distance relationships are further amplified by tales of heartbreaks or unpleasant experiences shared by couples in long-distance relationships. Although it is advisable that couples guide against long-distance separation in their relationship, the demands of life sometimes present situations where temporal geographical separations become inevitable for couples. Hence, there is a need to help couples overcome setbacks and other challenges associated with long distance, and equip them with pragmatic principles and strategies to grow in love and intimacy while going through such phases. Having personally encountered the highs and lows of long-distance relationship, our goal is to help other long-distance relationship couples to 'stay in mind while they are temporarily out of sight'. the hurdles and challenges peculiar to the journey. Many people think that love is all that matters. We thought so too, but realized along the path that although love is important, love is helpless when it lacks the requisite knowledge. Love without knowledge is helpless. Just like a plant obtains its nourishment for survival and sustenance, relationships too need nourishment. Many relationships, which started with promising hopes and great energy, started declining and withering when long-distance sets in. This is a common case of many great friendships that started off on campus, but gradually collapsed after graduation. Our long-distance relationship (LDR) experience has taught us that a good relationship, either long-distance or short, needs some essential elements, of which understanding is also non-negotiable. I usually tease my wife that our courtship qualifies for a certificate degree in Long-Distance Relationship (LDR). First, it was a four-year long courtship (not the longest out there though), and was long-distance for the most part. As you would discover in the course of this book, about 90% of our courtship period was long-distance. My first proposal to Joy was done over a phone call and a follow-up love letter (email actually), and our traditional wedding was done on Skype because we were on different continents when the time was ripe for the wedding. Despite the ups and downs and the emotional hysteresis in our long-distance relationship, we sailed successfully and anchored our ship at the conjugal bliss border on the fourth year of courtship.

handle. I've met many men and women who won't try long distance relationships because according to them "long distance relationships just don't work." That simply isn't true! Long distance relationships can and do work if the two individuals involved want it to. In my opinion, the question is not "do long distance relationships work?" But rather "Do both of you want to make it work?" If you both want to make it work, distance is just another obstacle that two people who truly love each other can easily overcome if they really want to. These simple to follow tips will help your long distance relationship not only survive distance, they'll also help you lay a strong foundation for a relationship that is fun, fulfilling and successful last? The internet highway has changed the way we live and the way we love. It has changed the way we socialize, and it has also increased the likelihood of finding love over the internet. Many people are choosing to have long distance relationships. Long distance relationships might feel wonderful at first. However, they come with their own set of unique challenges as well. Distant Love Ulrich Beck 2013-12-18 Love and family life in the global age: grandparents in Salonika and their grandson in London speak together every evening via Skype. A U.S. citizen and her Swiss husband fret over large telephone bills and high travel costs. A European couple can finally have a baby with the help of an Indian surrogate mother. In their new book, Ulrich Beck and Elisabeth Beck-Gernsheim investigate all types of long-distance relationships, marriages and families that stretch across countries, continents and cultures. These long-distance relationships comprise so many different forms of what they call 'world families', by which they mean love and intimate relationships between individuals living in, or coming from, different countries or continents. In all their various forms these world families share one feature in common: they are the focal point in which different aspects of the globalized world become embodied in the personal lives of individuals. Whether they like it or not, lovers and relatives in these families find themselves confronting the world in the inner space of their own lives. The conflicts between the developed and developing worlds come to the surface in world families- they acquire faces and names, creating confusion, surprise, anger, joy, pleasure and pain at the heart of everyday life. This path-breaking book will appeal to a wide readership interested in the changing character of love in our times.
