Angel Light Andrew M. Greeley 2006-11-28 Andrew M. Greeley's Angel Light is based on the Book of Tobit in the Old Testament, one of the sweetest love stories ever told. "I do not want ten million dollars. I do not want to visit Ireland. I do not want to end a Tobin family feud. And, above all, I do not want to court my eighth cousin, once removed." Even as he says the words, "Toby" Tobin, Irish-American computer hacker, knows it's useless to resist. His late great-uncle's will must be obeyed, and his family is determined to make him respectable by his twenty-fifth birthday. Encouraged by a photo of his cousin, Sara Anne Elizabeth Tobin, with her gorgeous black hair, blue eyes, and pale skin, Toby checks his computer for travel arrangements to Ireland. He finds himself chatting with an unusual travel agent, Raphaella, a very modern angel, who's been surfing the net for someone to look after. Raphaella gives him a new passport and first-class plane tickets out of O'Hare, and the encouragement and good humor he'll need on his quest for a living grail--the beautiful, mysterious, troubled, young Sara Tobin. He must marry Sara within the month (and solve an ancient mystery and elude a threatening thug) in order to claim his inheritance. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

ruling through fear and violence, wage never-ending petty wars over land and loot while the common folk struggle just to survive. Over the centuries, the history and knowledge of the original colonists has been forgotten, and the people have reverted to a medieval state. With no central government to overthrow, it seems impossible for Magnus to restore peace and order - until he discovers the hidden knowledge harbored by the Fair Folk within the countryside's Hollow Hills.

The Last Seven K. Monaz 2014-12-04 Strange phenomenon takes place around the world. Seven random people on earth woke up the next day to find no one else around; no friends, no family. What's going on? So many questions left unanswered . . . Each struggled to piece together what needs to be done. Each found symbols directing them to a destination where they must carry out the most horrific quest to save themselves. But, all is not what it seems. . .

Robopocalypse Daniel H. Wilson 2011-06-09 Roughly twenty years from now, our technological marvels unite and turn against us. A childlike but massively powerful artificial intelligence known as Archos comes online...and kills the man who created it. This first act of betrayal leads Archos to gain control over the global network of machines and technology that regulates everything from transportation to utilities, defense, and communications. In the early months, sporadic glitches are noticed by a handful of unconnected humans - from a senator and single mother disconcerted by her daughter's "smart" toys, to a lonely Japanese bachelor, to an isolated U.S. soldier - but most are unaware of the growing rebellion until it is far too late. Then, in the span of minutes, at a moment known later in history as Zero Hour, every mechanical device in our world rebels, setting off the Robot War that both decimates and - for the first time in history - unites humankind.
