For example, women become less attracted to masculine men when on birth control pills, because of the affected hormone levels. If you're a little chubby, like a lot of us are, then this is the time to strike, and knowing that piece of information can make all the difference in the world. Luckily, this book does a great job at giving you all the relevant information that you can combine and use immediately when communicating with women. What Makes This Book Different from Others in the Same Category? As I've mentioned, the art of attracting women is truly a subtle one, and most guides you can find tend to become too ephemeral and theoretical, only giving you vague descriptions of events and scenarios or giving you a bunch of information without showing you how to actually use it. On the other hand, this guide will give you all the same information, but it will start from scratch and then show you how to use the information it provides you with, building from the bottom to where most guides are standing now. You'll feel like the book was really tailored especially for you, and that will make your flirting endeavors that much easier. Here's What You'll Learn: How to prepare yourself and get the right mindset for flirting How to find your strong and weak sides and how to exploit them to your advantage The "Seven Sacred Steps" of attracting a woman How to build a connection and communicate How to understand the reactions of the woman

anyway, right? You've probably sworn off guys in the past, especially after a particularly painful break-up or experience, but after a while you will find yourself interested again, ready to try one more time. That is, after all, the essence of the human experience. You learn from your experiences, go through the hits and the misses, and must always be ready to get back right up and try again until you get it right. In relationships with men, there's a lot of trial-and-error happening, so you really have to be flexible and open to different scenarios that could arise. This is especially true in today's modern society, where people's attention spans are much shorter and distractions abound everywhere. You will find yourself competing for the attention of your spouse or partner with other people, or even gadgets, games, career opportunities, and other attention-getters. But let's be very honest here: while men may be difficult to comprehend, it is also what makes them the mysterious and intriguing creatures that they are, making them more attractive to the female gender. If men were just plain and simple robots you could program to your desired specifications and to cater to your every whim, it won't be long before you get tired of the lack of adventure. For all their weaknesses, weird workings, and strange activities, men are compatible with women and they make for great spouses and partners, so don't count them off just yet. As a woman, you can learn so much and grow in character by simply attempting to understand the inner workings of the male psyche and how they are wired to protect you and procreate with you. This book covers the topic of understanding men, and will teach you secrets of men behavior, how to read their minds, what they want, why men cheat, why they don't commit, why they lose interest, how to avoid rejection. At the completion of this book you will have a good understanding of men and be able to improve your love life. Here Is What You'll Learn About... What men want How to read their minds Why men cheat Why men won't commit Why men lose interest How to avoid rejection from men And Much More! Order your copy of this fantastic book today!
