How to Meet & Date a Woman - Edward Hayes 2020-05-09

How to date If you're in love with someone, the next logical step is to find out if they feel the same about you. Often you can guess if someone's interested. If you're not sure, be brave! guess if someone's interested. If you're not sure, be brave! Try to get into a situation where you've got a chance to talk to the person. If you have mutual friends, let them introduce you. You could also send them a text message or try to make contact on chat - but if they don't answer, don't pester them. If you notice they're not really responding or they're even trying to avoid you, there's a good chance they don't return your feelings. Bear in mind, however, that there's an extra tricky puzzle in the love game: some people can be standoffish even if they're really attracted to you, because they don't know how to cope with their feelings! Or maybe they feel they shouldn't be responding to your advances even if they'd like to. So don't immediately assume someone isn't interested in you because they don't respond straight away. Some guys have the idea - often picked up from movies - that if you keep hassling a woman long enough she will give in to you. People might tell you that if a girl says no or even gets upset or angry, you should ignore it and not give up. Asking someone out If the person you're interested in responds positively to your cues, you might want to ask them out on a date. You don't have to be a man to ask someone out - women can do it too, so don't be shy! Before planning a date, find out what they like doing - maybe watching movies or sports games, going to museums, walking, or dancing. It's a good idea to meet in a quiet place near where you live, somewhere you can relax and talk easily. Remember, dates don't have to be fancy or expensive. They can be simple, like meeting at a kibanda and then taking a walk in the park. First date First dates are often a bit tense. Maybe you're very nervous, or feel like you've got butterflies in your stomach. There could be awkward moments on your first date - when you think you've said something silly or when you just don't know what else to say. Don't worry too much: the key is to stay calm. Once you've realised that you both like spending time together, you can start thinking about another date. It doesn't always have to be your responsibility to decide what to do - you can put the ball in their court too. Over the next few meetings, try finding out more about them, about their likes and dislikes, their past, and their dreams for the future. When to hold hands, kiss, and have sex While you're dating, you might want to hold hands, kiss, hug, or even have sex with your partner. There's nothing wrong if you feel that way. If you're not entirely sure what your partner wants, talking about it can help. You can be straightforward and ask, 'can I kiss you?' or 'how would you feel if I held your hand?' Having sex with your lover is a big decision. Take one step at a time. You might want to talk to your partner about it before you make a move. The most important thing is to know if they feel the same way and really want to go ahead with sex. If your partner doesn't want to have sex with you, respect their feelings. Their choice could be based on religious belief, or it could be for cultural reasons. Maybe they want to wait till they're married, or maybe they simply don't feel ready for sex. Give them all the time and space they need to think about it and make up their mind. And then accept their decision, whatever it is. Did you learn something

new?

Dating Tips from a Woman's Point of View - Elizabeth Meadows 2014-09-24

If you are looking for how to get laid on the first date, that's easy, take her to a bar, get her drinking, but not to the point of throwing up. After she's pretty intoxicated, giggling at everything you say, try a few advances, touching her arm, or shoulder, and see if she responds. Dance with her, and do a little grinding, and see if she grinds back. If the answers to these are yes, then offer her, since she can't drive, to come back to your place. Once she's at your place, continue with just a little more alcohol for the nerves. Don't mix alcohol. If she was doing shots at the bar, don't give her beer or wine coolers at your place, or she'll be spending the night with your toilet, not you. Give her just a few more shots, and then do the final move with a kiss. The kiss will tell it all. If she pushes you away, and doesn't take your advances, don't get discouraged, you still have a chance. Offer her to put a movie on, get a pillow and a blanket, if you have a pull out couch, great, or one big enough for you two to snuggle on. If not, let her lay back to watch the movie. Let her put her feet on your lap. I don't know many woman who would turn down a foot massage. Massaging is a great way to lead to sex. After both feet, work your way up to her calves. Hint: use lotion. It makes her feel more like it's a massage, not you just trying to grope her up. If when you get to her calves, and she's still allowing you to massage, continue on, and then get the thighs. I'm pretty sure you know where to go from there.

The Guyde - Howie Reith 2016-11-19

The Guyde is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.
