**Design for Tomorrow—Volume 2** - Amaresh Chakrabarti 2021-04-26

This book showcases cutting-edge research papers from the 8th International Conference on Research into Design (ICoRD 2021) written by eminent researchers from across the world on design processes, technologies, methods and tools, and their impact on innovation, for supporting design for a connected world. The theme of ICoRD'21 has been "Design for Tomorrow". The world as we know it in our times is increasingly becoming connected. In this interconnected world, design has to address new challenges of merging the cyber and the physical, the smart and the mundane, the technology and the human. As a result, there is an increasing need for strategizing and thinking about design for a better tomorrow. The theme for ICoRD'21 serves as a provocation for the design community to think about rapid changes in the near future to usher in a better tomorrow. The papers in this book explore these themes, and their key focus is design for tomorrow: how are products and their development be addressed for the immediate pressing needs within a connected world? The book will be of interest to researchers, professionals and entrepreneurs working in the areas on industrial design, manufacturing, consumer goods, and industrial management who are interested in the new and emerging methods and tools for design of new products, systems and services.

**Quirkyalone** - Sasha Cagen 2006-01-03

quirkyalone (kwur.kee.uh.lohn) n. adj. A person who enjoys being single (but is not opposed to being in a relationship) and generally prefers to be alone rather than date for the sake of being in a couple. With unique traits and an optimistic spirit; a sensibility that transcends relationship status. Also adj. Of, relating to, or embodying quirkyalones. See also: romantic, idealist, independent. Are you a quirkyalone? Do you know someone who is? Do you believe life can be prosperous and great with or without a mate? Do you value your friendships as much as your romantic relationships? Do gut instincts guide your most important decisions? Are you often among the first on the dance floor? Coupled or single, man or woman, social butterfly or shrinking violet, quirkyalones have walked among us, invisible until now. Through the coining of a new word, this tribe has been given a voice. Meet the quirkyalones. Read about: The quirkyalone nation: where we live, what we do Quirkytogether (quirkyalones who have entered long-term relationships) Sex and the single quirkyalone Romantic obsession: the dark side of the quirkyalone's romantic personality Quirkyalones throughout history (profiles in courage)

**Social Media in Southeast Turkey** - Elisabetta Costa 2016-02-29

This book presents an ethnographic study of social media in Mardin, a medium-sized town located in the Kurdish region of Turkey. The town is inhabited mainly by Sunni Muslim Arabs and Kurds, and has been transformed in recent years by urbanisation, Elisabetta Costa uses her 15 months of ethnographic research to explain why public-facing social media is more conservative than offline life. Yet, at the same time, social media has opened up unprecedented possibilities for private communications between genders and in relationships among young people - Costa reveals new worlds of intimacy, love and romance. She also discovers that, when viewed from the perspective of people's everyday lives, political participation on social media looks very different to how it is portrayed in studies of political postings separated from their original complex, and highly socialised, context. neoliberalism and political events.

**BFF?: The truth about female friendship** - Claire Cohen 2022-06-23

Why do some friendships last a lifetime, while others fade away? How do you break up with a friend? How many 'best' friends should we be aiming for? From the time we start school, we are fed a diet of 'Best Friends Forever' - the idea that you should have a female soulmate to whom you tell all your secrets and who always has your back. It's the stuff of Hollywood films, but for most of us it isn't achievable. We spend years striving for a vision of female friendship that isn't realistic instead of searching for what suits us best or appreciating what we've already got. BFF? is an agenda-setting, personal and humorous book that pulls back the cover on the most underappreciated relationships in our lives to interrogate what modern friendship means, why we need it and what we can do to get the most from it. Featuring interviews with brilliant women, including Emma Barnett, Pandora Sykes, Nimco Ali and Jilly

Cooper - as well as the intimate friendship stories of women from all walks of life - Claire Cohen argues that, unlike romance, friendship is much harder to pin down and. And it shows how often our friendships are taken for granted. An antidote to the idea that every woman must belong to a perfect girl gang, this book is a warm and reassuring guide to help women deepen their female friendships in ways that are meaningful and enduring. \_\_\_\_\_ 'It took me until my thirties to feel truly secure in my friendships - my female ones in particular. I truly believe that if I'd had a book like this when I was younger, it would have fallen into place sooner. That I'd have been happier, more trusting and able to deal with any bumps in the road. That's why I want us all to start telling the truth about female friendship. Because if I - raised in a house full of women, the product of two all-girls schools and the women's editor of a national newspaper - found it hard to trust, open up and had convinced myself that female friends 'weren't for me', then you might not have it worked out either.'

**A Linguistic Overview of WhatsApp Communication** - Lucía Fernández-Amaya 2022-06-08

Digital discourse has become a widespread way of communicating worldwide, WhatsApp being one of the most popular Instant Messaging tools. This book offers a critical state-of-the-art review of WhatsApp linguistic studies.

**Universal Access in Human-Computer Interaction. Users and Context Diversity** - Margherita Antona 2016-07-04

The three-volume set LNCS 9737-9739 constitutes the refereed proceedings of the 10th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2016, held as part of the 10th International Conference on Human-Computer Interaction, HCII 2016, in Toronto, ON, Canada in July 2016, jointly with 15 other thematically similar conferences. The total of 1287 papers presented at the HCII 2016 conferences were carefully reviewed and selected from 4354 submissions. The papers included in the three UAHCI 2016 volumes address the following major topics: novel approaches to accessibility; design for all and eInclusion best practices; universal access in architecture and product design; personal and collective informatics in universal access; eye-tracking in universal access; multimodal and natural interaction for universal access; universal access to mobile interaction; virtual reality, 3D and universal access; intelligent and assistive environments; universal access to education and learning; technologies for ASD and cognitive disabilities; design for healthy aging and rehabilitation; universal access to media and games; and universal access to mobility and automotive.

**Ageing with Smartphones in Urban Brazil** - Marília Duque 2022-04-21

With people living longer all over the world, ageing has been framed as a socio-economic problem. In Brazil, older people are expected to remain healthy and autonomous while actively participating in society. Based on ethnographic research in São Paulo, Ageing with Smartphones in Urban Brazil shows how older people in a middle-class neighbourhood conciliate these expectations with the freedom and pleasures reserved for the Third Age. Work is what bonds this community together, providing a sense of dignity and citizenship. Smartphones have become of great importance to the residents as they search for and engage in new forms of work and hobbies. Connected by a digital network, they work as content curators, sharing activities that fill their schedule. Managing multiple WhatsApp groups is a job in itself, as well as a source of solidarity and hope. Friendship groups help each to download new apps, search for medical information and guidance, and navigate the city. Together, they are reinventing themselves as volunteers, entrepreneurs and influencers, or they are finding a new interest that gives their later life a purpose. The smartphone, which enables the residents to share and discuss their busy lives, is also helping them, and us, to rethink the very representation of ageing.

**The F Word** - Lily Pebbles 2018-03-08

If there's one piece of invaluable advice for women and girls of all ages, it is that there is nothing more important than creating and maintaining strong, positive and happy friendships with other women. In a culture that largely pits women against each other, I want to celebrate female friendships... all strings attached! If my 1998 diary is anything to go by,

female friendships are incredibly complex and emotional but they're the mini love stories that make us who we are. For many women, friends are our partners in crime through life; they are the ones who move us into new homes, out of bad relationships, through births and illnesses. In *The F Word* I've set out to explore and celebrate the essence of female friendship at different life stages and in its many wild and wonderful forms.

*The Friendship Cure* - Kate Leaver 2018-03-22

Our best friends, gal-pals, bromances, Twitter followers, Facebook friends, long-distance buddies and WhatsApp threads define us in ways we rarely acknowledge. There is so much about friendship we either don't know or don't articulate: why do some friendships last a lifetime, while others are only temporary? How do you break up with a toxic friend? And maybe the most important question: how can we live in the most interconnected age and still find ourselves stuck in the greatest loneliness epidemic of our time? It's killing us, making us miserable and causing a public health crisis. What if meaningful friendships are the solution, not a distraction? In *The Friendship Cure*, Kate Leaver's much anticipated manifesto brings to light what modern friendship means, how it can survive, why we need it and what we can do to get the most from it. From behavioural scientists to best mates, Kate finds extraordinary stories and research, drawing on her own experiences to create a fascinating blend of accessible smart thinking, investigative journalism, pop culture and memoir.

*Social Inequality, Childhood and the Media* - Ingrid Paus-Hasebrink 2019-01-16

This open access book presents a qualitative longitudinal panel-study on child and adolescent socialisation in socially disadvantaged families. The study traces how children and their parents make sense of media within the context of their everyday life over twelve years (from 2005 to 2017) and provides a unique perspective on the role of different socialisation contexts, drawing on rich data from a broad range of qualitative methods. Using a theoretical framework and methodological approach that can be applied transnationally, it sheds light on the complex interplay of factors which shape children's socialisation and media usage in multiple ways.

*The Movement of Venezuelans to the Americas and the Caribbean in the 21st Century* - Wendell C. Wallace

**Social Media in South India** - Shriram Venkatraman 2017-06-09

One of the first ethnographic studies to explore use of social media in the everyday lives of people in Tamil Nadu, *Social Media in South India* provides an understanding of this subject in a region experiencing rapid transformation. The influx of IT companies over the past decade into what was once a space dominated by agriculture has resulted in a complex juxtaposition between an evolving knowledge economy and the traditions of rural life. While certain class tensions have emerged in response to this juxtaposition, a study of social media in the region suggests that similarities have also transpired, observed most clearly in the blurring of boundaries between work and life for both the old residents and the new. Venkatraman explores the impact of social media at home, work and school, and analyses the influence of class, caste, age and gender on how, and which, social media platforms are used in different contexts. These factors, he argues, have a significant effect on social media use, suggesting that social media in South India, while seeming to induce societal change, actually remains bound by local traditions and practices.

*New Media and Visual Communication in Social Networks* - K?r, Serpil 2019-08-30

Social media and new social facilities have made it necessary to develop new media design processes with different communication strategies in order to promote sustainable communication. Visual communication emphasizes messages that are transmitted through visual materials in order to effectively communicate emotions, thoughts, and concepts using symbols instead of words. Social networks present an ideal environment for utilizing this communication technique. *New Media and Visual Communication in Social Networks* is a pivotal scholarly publication that examines communication strategies in the context of social media and new digital media platforms and explores the effects of visual communication on social networks, visual identity, television, magazines, newspapers, and more. Highlighting a range of topics such as consumer behavior, visual identity, and digital pollution, this book is essential for researchers, practitioners, entrepreneurs, policymakers, and educators. *Social and Emotional Learning and Complex Skills Assessment* - Yuan 'Elle' Wang 2022-08-24

In this book, we primarily focus on studies that provide objective, unobtrusive, and innovative measures (e.g., indirect measures, content analysis, or analysis of trace data) of SEL skills (e.g., collaboration, creativity, persistence), relying primarily on learning analytics methods and approaches that would potentially allow for expanding the assessment of SEL skills and competencies at scale. What makes the position of learning analytics pivotal in this endeavor to redefine measurement of SEL skills are constant changes and advancements in learning environments and the quality and quantity of data collected about learners and the process of learning. Contemporary learning environments that utilize virtual and augmented reality to enhance learning opportunities accommodate for designing tasks and activities that allow learners to elicit behaviors (either in face-to-face or online context) not being captured in traditional educational settings. Novel insights provided in the book span across diverse types of learning contexts and learner populations. Specifically, the book addresses relevant and emerging theories and frameworks (in various disciplines such as education, psychology, or workforce) that inform assessments of SEL skills and competencies. In so doing, the book maps the landscape of the novel learning analytics methods and approaches, along with their application in the SEL assessment for K-12 learners as well as adult learners. Critical to the notion of the SEL assessment are data sources. In that sense, the book outlines where and how data related to learners' 21st century skills and competencies can be measured and collected. Linking theory to data, the book further discusses tools and methods that are being used to operationalize SEL and link relevant skills and competencies with cognitive assessment. Finally, the book addresses aspects of generalizability and applicability, showing promising approaches for translating research findings into actionable insights that would inform various stakeholders (e.g., learners, instructors, administrators, policy makers).

**The Routledge Companion to Digital Ethnography** - Larissa Hjorth 2017-01-20

With the increase of digital and networked media in everyday life, researchers have increasingly turned their gaze to the symbolic and cultural elements of technologies. From studying online game communities, locative and social media to YouTube and mobile media, ethnographic approaches to digital and networked media have helped to elucidate the dynamic cultural and social dimensions of media practice. *The Routledge Companion to Digital Ethnography* provides an authoritative, up-to-date, intellectually broad, and conceptually cutting-edge guide to this emergent and diverse area. Features include: a comprehensive history of computers and digitization in anthropology; exploration of various ethnographic methods in the context of digital tools and network relations; consideration of social networking and communication technologies on a local and global scale; in-depth analyses of different interfaces in ethnography, from mobile technologies to digital archives.

*Postdigital Disconnects* - Marion Mathier 2023-03-22

This book employs a critical discourse ethnographic approach to map the production of social meaning in digital media in education, drawing on insights from Switzerland to unpack the disconnects that arise in thinking postdigitally and ways forward for rethinking socio-cultural approaches. Grounded in Foucault-influenced, linguistically-oriented discourse studies, the book calls attention to the ways in which educational discourse has increasingly promoted digital media as a means of justifying curriculum change. Using data from policy documents, participant observation, and interviews, Mathier charts how this rhetoric manifests itself in the combination of top-down policies, on-the-ground implementation, and the lived experiences of students outside the classroom, and, in turn, surfaces broader disconnects. The volume explores how digital education is increasingly shaped by platform capitalism, how young people's experiences are disregarded in formal knowledge production, and how the prevalence of digital teaching and learning contributes to issues of access and inequality. Through a critical discursive approach, Mathier demonstrates the need for literacy practices in postdigital education to interrogate the ways in which digital media and education are entangled in larger socio-political practices. This book will appeal to students and scholars in critical discourse studies, critical literacy studies, digital communication, education research, and linguistic ethnography.

*Social Media in Southeast Italy* - Razvan Nicolescu 2016-10-07

Why is social media in southeast Italy so predictable when it is used by such a range of different people? This book describes the impact of social media on the population of a town in the southern region of Puglia, Italy. Razvan Nicolescu spent 15 months living among the town's residents, exploring what it means to be an individual on social media. Why do people from this region conform on platforms that are designed for personal expression? Nicolescu argues that social media use in this region of the world is related to how people want to portray themselves. He pays special attention to the ability of users to craft their appearance in relation to collective ideals, values and social positions, and how this feature of social media has, for the residents of the town, become a moral obligation: they are expected to be willing to adapt their appearance to suit their different audiences at the same time, which is crucial in a town where religion and family are at the heart of daily life. [The Way I See It](#) - Lerato Tshabalala 2016-07-01  
Lerato Tshabalala first came to our attention in 2011 with her 'Urban

Miss' column in the Sunday Times, and since then she has by turns entertained, exasperated, amused and confounded her fans and critics alike. Now, with her first book, she looks set to become the national institution she deserves to be. With her customary wit and keen insight into social, political and cultural affairs, Lerato shines a bright - and controversial - light on South African society and the quirky ways of the country. She is brutally honest about her experiences as a black South African in post-apartheid Mzansi, and no subject is too sacred for her to explore: annoying car guards, white-dominated corporate South Africa, cultural stereotypes, economic and racial inequality, and gender politics, among many other topics, come under her careful - and often laugh-out-loud - scrutiny. *The Way I See It* is written for people who are hungry for a book that is thought-provoking, funny, irreverent and truly South African all at the same time. It is light but full of depth: like a supermodel with an MBA!
