*From Square One* Dean Olsher 2009-06-23 *From Square One* is Dean Olsher's captivating and in-depth exploration of the cultural history, psychology, and even metaphysics of crosswords -- their promise of a world without chaos and uncertainty. It is often repeated that more than 50 million Americans do crossword puzzles on a regular basis. Skeptical of that claim, Dean Olsher does his own research and finds that the number is nearly dead-on. Filled with lively, original reporting, *From Square One* disputes the widely held belief that solving crosswords helps prevent Alzheimer's; in fact, the drive to fill in empty spaces is more likely a mental illness than a cure. While "puzzle addiction" is usually meant as a lighthearted metaphor, the term contains more than a nugget of truth. Olsher looks into the origins and traditions of this popular pastime, which made its debut in a New York newspaper in 1913. Or did it? Along the way, he takes readers inside the making of a crossword. He also revives the quest of musical-theater legend and puzzle constructor Stephen Sondheim to find an American audience for a British crossword style that demands a love of verbal playfulness over knowledge of arcane trivia. Informative, engaging, and often surprising, *From Square One* is a unique and enjoyable read for puzzlers and nonpuzzlers alike.

Collected Stories Martin Green 2008-04 The stories in this volume are in five sections. The first contains "Retirement Stories" about senior citizens coping with old age or recalling past loves and adventures. The second section is called "Sequels and Series." It includes three more "In Olden Times" stories about Abe and his family dragon Bob, and three more adventure stories about Alvin Oaks, who's partially solved the Universal Theorem, both introduced in Volume II. Finally, there are three stories about Uncle Pringle, a retired possibly CIA agent turned consultant, who helps people with their problems in sometimes surprising ways. The "Speculative Stories" in the third section include one in which an author's characters come to life, two in which super-intelligent inhabitants of another planet debate the fate of Earth, and one in which "Journeyman Meets Seinfeld." The "Dark Stories" of the fourth section are about the fearsome things that lurk "Out There," and similar menaces. The fifth section has "Stories Written (Mostly) for Fun" plus a few "serious" stories, concluding one about "When My Father Met My Mother." I hope readers will have fun reading all these stories.

review) "A heart-wrenching but ultimately triumphant story." —Chicago Tribune ~~ She made a promise in desperation Now it's time to keep it Lena Woodward, elegant and poised, has lived a comfortable life among Chicago Society since she immigrated to the US and began a new life at the end of World War II. But now something has resurfaced that Lena cannot ignore: an unfulfilled promise she made long ago that can no longer stay buried. Driven to renew the quest that still keeps her awake at night, Lena enlists the help of lawyer Catherine Lockhart and private investigator Liam Taggart. Behind Lena's stoic facade are memories that will no longer be contained. She begins to recount a tale, harkening back to her harrowing past in Nazi-occupied Poland, of the bond she shared with her childhood friend Karolina. Karolina was vivacious and beautiful, athletic and charismatic, and Lena has cherished the memory of their friendship her whole life. But there is something about the story that is unfinished, questions that must be answered about what is true and what is not, and what Lena is willing to risk to uncover the past. Has the real story been hidden these many years? And if so, why? Two girls, coming of age in a dangerous time, bearers of secrets that only they could share. Just when you think there could not be anything new to ferret out from World War II comes Karolina's Twins, a spellbinding new novel by the bestselling author of *Once We Were Brothers* and *Saving Sophie*. In this richly woven tale of love, survival and resilience during some of the darkest hours, the unbreakable bond between girlhood friends will have consequences into the future and beyond.

**The Brothers Karamazov by Fyodor Dostoevsky (Translated by Constance Garnett)** Joseph Cowley 2015-02-26 Fyodor Dostoevsky was the son of a doctor. His parents were hard-working, religious people, but poor. A brilliant career seemed open, but in 1849 he was arrested and condemned to death. A member of a group of young men who met to read Fourier and Proudhon, he was accused of "taking part in conversations against the censorship ... and of knowing of the intention to use a printing press." After eight months in jail, he was taken to be shot. Suddenly the prisoners were informed that His Majesty had spared their lives. His sentence was commuted to hard labor: four years of penal servitude in Siberia and some years in a disciplinary battalion. In 1864 Dostoevsky lost his first wife and his brother. Though in terrible poverty, he paid his brother's debts. The author wrote at tremendous speed and is said to never have corrected his work, which is evident in many books, especially *Crime and Punishment*. In June 1880 he made his famous speech at the unveiling of the monument to Pushkin in Moscow and was received with great honor. A few months later he died and a vast multitude of mourners came to the cemetery. He is still probably the most widely read writer in Russia. In the words of a Russian critic, "He was one of ourselves, a man of our blood and our bone, but one who has suffered."

*Displaced* Bridget E. Baker 2019-10-15 "A fast moving, engaging tale in what promises to be an epic fantasy romance series," Kirkus Reviews. The first time Chancery's twin sister tried to kill her was on their ninth birthday. In the intervening years, nothing improved. In fact, Judica stabbed her hand with a fork just this morning so she could take the last pancake. Then Judica threw it to her dog. But Chancery has a secret. She's been watching their people's finest warrior for years while she was supposed to be studying. He's gorgeous, powerful, and a genius in all military applications—flawless in every way. Chancery thinks he may like her, too. But he's supposed to marry her evil twin, because their mother chose Judica as her heir, the future empress of one-sixth of the earth. Chancery, sick of all the drama, decides to run away from court to live among the humans, but the day before she's supposed to leave, she's helping her prepare for a ball. She tries on her mother's royal ring and the staridium stone reacts to her. She inadvertently fulfills an ancient prophecy of the woman who will unite the six families and save the entire world. There's no way her mother's going to let her leave now, and things just became much more complicated. □□□□ AWARDS!! □□□□ SOVAS 2020 Finalist in Fantasy-Best Voiceover (Audiobook) Whitney Award 2020 Finalist in Fantasy Publisher's Weekly BookLife Prize 2020, Quarter Finalist CRITIC REVIEWS: What are people saying about *Displaced*? Publisher's Weekly BookLife Prize gave it a 9.25/10: *Displaced*, the first novel in Baker's Birthright Saga, boasts a fleet, often inspired story of matriarchal superheroes on a Hawaiian island. The story's heart is the conflict between royal teen twins Chancery, the kind-hearted protagonist, and Judica, her cruel sister and the heir to the throne. Baker's story pulses with exciting incident, and even though this is the first book in a series the climax is consequential and exciting, even as it entices readers with the promise of more. Baker's writing is swift but potent. She invests each scene with the heart of her protagonist, so it's always clear what's most important in each moment. The large cast is clearly described and differentiated, and scenes of action and romance both prove exciting. Chancery's perspective is likably wry for a royal narrator. The dialogue varies from flirty teen banter to regal proclamations, but always is crisply crafted. Baker brings fresh energy and invention to even familiar elements like the inevitable royal succession crisis. Her Evians' powers and customs fascinate, and *Displaced* never misses an opportunity to jolt readers with a surprise. Chancery is a strong and appealing protagonist, split between two worlds and ultimately dragged into battle against her own twin. Both sisters are vividly drawn, as are their paramours, guards, relations, and friends. A letter from Chancery's mother, after that queen's death, is a moving highlight of the story, and Chancery's exciting choices power the narrative from start to epic climax. Kirkus: The notoriously stingy Kirkus called *Displaced*, "a fast moving, engaging tale in what promises to be an epic fantasy romance series." Check out their full review here:

<https://www.kirkusreviews.com/book-reviews/bridget-e-baker/battle-song/> And best of all, READERS: "This book drew me in from the first page. Bridget is a fantastic writer, and the story is intense and beautifully written right out the gate. The authenticity of the characters, coupled with the well thought out and complete character storylines made me feel as if I was in the thick of the story with Chancery and Judica. I couldn't put it down. I read this book in my spare time over the course of 48 hours. It was absolutely irresistible. I quickly purchased the rest of the books in The Birthright Series, and am anxiously awaiting the sixth installment. After finishing this series, I actually read through all of Bridget's work, and each and every time, I was blown away by the care and attention to detail that she put into the story. I am in awe of the way that she can manage the entire universe so beautifully. I haven't been this excited waiting for a new book to be released since I was a kid waiting for Harry Potter, or Twilight to come out." "It's been a long time since I've gotten addicted to reading a book, but Bridget is a very compelling author!" "She's phenomenal at laying hints, and she leaves no thread unfinished. What you get is a complete, clean story, everything answered beautifully. Her timing and pacing is incredible as well!" **The Spider House** Steven Jenkins 2007-10 Behind every wall in every house, there are spiders—spiders with families, communities, and lives of their own. They hunt, spin webs, argue with their parents, avoid bathtubs, and occasionally take pleasure in spooking the humans (and live to tell the tale). For the most part, days are routine; however, for young Bateman, everything changes when he

slays the sinister General Raimi, leader of the powerful and vicious Spider Army. Fearing for his life, Bateman flees the confines of The Wall. He's always dreamed of exploring the house and garden, but not as a lone fugitive. Danger looms everywhere, as does the little girl of the house. Unlike the rest of the family she's not in the least bit scared of spiders, and has enjoyed tormenting and torturing the little critters for years. That's why they call her "The She-Devil"-she's every bug's worst nightmare. If Bateman is ever to return to the comfort of his family and friends, he must face the Spider Army's fury and the vengeful General Raimi II. With the thrilling and wickedly funny adventures of Bateman and his unlikely allies, you'll discover what it means to be home and what it takes to be a hero. **Random Dingoos** Ira Nayman 2015-04-03 Think back to a time in your life that you made a decision that you now regret. Oh, don't be so coy - everybody has one. Okay, maybe not Mother Teresa. Or, Bruce Springsteen. But, unless you're Mother Teresa or Bruce Springsteen - and we're pretty sure you're not - you have been in that position. What if you could go back in time and change that decision? What if you could make the other choice? Or, even better, choose a third option that you didn't even see at the time? Wouldn't you like to know how things would have turned out if only you had done something different at that critical juncture in your life? DON'T BOTHER. Have you ever read any science fiction time travel stories? Don't you know that they always end with either dinosaurs becoming the dominant species on the planet or your grandfather killing Hitler, causing you to be born with a speech impediment and an irrational fear of listening to Born in the USA? Time branches are not something you can borrow books from - they are paths to realities that you couldn't anticipate and don't want to live in, and just try to get a decent corned beef on rye in any of them! In *Random Dingoos*, the third Transdimensional Authority novel by Ira Nayman, investigators Noomi Rapier and Crash Chumley look into reports of a drug that allows people to travel between universes without technological assistance. They methodically work their way up the drug ring's chain of command and are just about to arrest its leader when - time travel happens. With the assistance of Time Agency agent Radames Trafshanian, Noomi and Crash must navigate realities they hadn't anticipated and which they wouldn't want to live in. But, can they find a decent corned beef on rye? You'll have to read *Random Dingoos* to find out!
