Whisper Beach - Shelley Noble 2015-06-16

From the New York Times bestselling author of Beach Colors and Breakwater Bay comes this unforgettable story—reminiscent of Kristin Hannah's beloved novels—of friends, loyalty, and love as three women, who are reunited in the idyllic beach town where they grew up, are forced to re-evaluate their bonds. Fifteen years ago, seventeen-year-old Vanessa Moran fell in love and lost her virginity but not to the same boy. Pregnant, desperate, and humiliated, she fled friends and family and Whisper Beach, New Jersey, never breathing a word about her secret to anyone. She hasn't been back since. Now a professional Manhattan organizer, she returns to the funeral of her best friend's husband. She intends on just paying her respects and leaving—though she can't deny she also wants the town to see how far she's come as a successful business woman. But her plans to make this a short visit fall by the wayside when her girlfriends have other ideas. Dorie, the owner of the pier's Blue Crab Restaurant where Van and her friends worked as teenagers, needs help. Dorie's roving husband spends every penny they make and now their restaurant is failing. Joe, the boy Van left behind without an explanation, has never stopped loving her. While he's wary of getting hurt again, he also can't help wondering what would happen if they took up where they left off. As the summer progresses and the restaurant takes on a new look, trouble comes from unexpected sources. For Van, this summer will test the meaning of friendship and trust—and how far love can bend before it breaks.

The Dream Of Scipio - Iain Pears 2010-10-31

Dark, erudite and like *An Instance of the Fingerpost*, utterly compelling, *The Dream of Scipio* confirms Iain Pears as one of Britain's most imaginative novelists. Set in Provence at three different critical moments of Western Civilisation - the collapse of the Roman Empire in the fifth century, the Black Death in the fourteenth, and the Second World War in the twentieth - *The Dream of Scipio* follows the fortunes of three men: Manlius Hippias, a Gallic aristocrat obsessed with the preservation of Roman civilisation, Olivier de Noyen, a poet, and Julien Barneuve, an intellectual who joins the Vichy government. The story of each man is woven through the narrative, linked by the classical text that gives the book its title, and by each man's love for an extraordinary woman. 'Irresistibly seizes the imagination' *Evening Standard*

Falling Sideways - Tom Holt 2012-09-04

From the moment *Homo Sapiens* descended from the trees, possibly onto their heads, humanity has striven towards civilization. Fire. The Wheel. Running Away from furry things with more teeth than one might reasonably expect—all are testament to man's ultimate supremacy. It is a noble story and so, of course, complete and utter fiction. For one man has discovered the hideous truth: that humanity's ascent to civilization has been ruthlessly guided by a small gang of devious frogs. The man's name is David Perkins, and his theory is not, on the whole, widely admired, particularly not by the frogs themselves, who had invested a great deal of time and effort in keeping the whole thing quiet.

[No Time Like Forever](#) - Zoe York

Brand new release in the erotic romance small town series by NYT and USA Today bestselling author Zoe York! It started with a kiss... Mari Beadie needed a boyfriend, and former NHL hockey star Chase Miller happened to be in the right place at the right time. The kiss that followed wasn't necessary, strictly speaking, but it sure was hot. Hot enough that when the tables are turned, Chase knows just the pretty bartender to ask to be his pretend girlfriend. Only this time, it's not a one-time deal. **** The pub was slammed, strange for a Sunday night, but it was one of the last weekends of the summer. The tips would make up for the sore feet. Mari was pouring a tray of pints when the phone rang. She hopped over and stuck the ancient handset under her ear, pinning it in place as she pulled the long cord back to the taps with her. "Danny's." "You sound busy." Her heart didn't leap a little at the sound of his voice. No, it didn't. "Yep." "What time do you get off?" "We close at ten tonight, then I need to do some clean up. Probably ten thirty, but I'm not sure." "Okay. See you later." She frowned as she hung up the phone. Two hours later, she was still confused when he sauntered in after last call. Instead of taking his regular stool, he started straightening chairs. "What are you doing?" "Helping you." "Why?" "Because that's what boyfriends do?" She looked around. They were alone. "Uhm..." "Because that's what friends do?" He shrugged. "Don't overthink it. I actually just wanted to give you my cell phone number, but when I called you sounded swamped, so I thought it would be easier to stop by. And I'm not going to watch you sweep, that would be a dick move." "You watch me tend bar almost every day." "That's different." "How?" "I don't know. Give me that." He took the broom from her hand, and she ignored the little thrill she got at the brief, hot press of his

fingers against hers. *** The Wardham Series: Between Then and Now What Once Was Perfect Where Their Hearts Collide When They Weren't Looking Beyond Love and Hate Perfect No Matter What No Time Like Forever Beneath These Bright Stars (February 2015) If you like Wardham, you'll love Pine Harbour!
