Diamond Hindi English  
Dictionery (Mini) - Dr.  
Girirajsharan Agarwal

**East of Indus** - Gurnam Singh  
Sidhu Brard 2007

This is a short description of the book by a librarian: "The author presents a scrupulous, unsparing look into the life and culture of his childhood village in Punjab, India, poised on the brink of the modern world in the first half of the twentieth century. The work is rich in ethnographic detail as it describes castes and superstitions, marriage customs, fairs and festivals, crops and animals, relationships between the different religions, including the painful events that occurred during the independence and partition of India to create the modern states of India and Pakistan. As Dr. Brard tells the story of his

early life, his engaging straightforward style vividly evokes the faces of a people, their beliefs, antiquated technologies and social practices, as well as their history."

**Sex For All** - Dr. Satish Goel

**China Room** - Sunjeev Sahota  
2021-05-06

A thrilling and heartbreaking story of love, family, survival and betrayal - from the prize-winning author of The Year of the Runaways. \* A Book of the Year for The Times, Guardian and Daily Telegraph \* 'A gorgeous, gripping read' Kamila Shamsie 'A multi-generational masterpiece' Daily Mail Mehar, a young bride in rural Punjab, is trying to discover the identity of her new husband. It is 1929, and she and her sisters-in-law - married to three brothers in a single ceremony - spend their days

hard at work on the family farm, sequestered from contact with the men. When Mehar develops a theory as to which of them is hers, a passion is ignited that will put more than one life at risk. Spiralling around Mehar's story is that of a young man who in 1999 flees from England to the deserted sun-scorched farm. Can a summer spent learning of love and of his family's past give him the strength for the journey home? Shortlisted for the 2022 Rathbones Folio Prize Longlisted for the 2021 Booker Prize Longlisted for the 2022 Walter Scott Prize 'Amazing storytelling...gripping and very moving' BBC Radio 4, Open Book 'I'm blown away by it' Tessa Hadley 'The stuff of miracles' Bryan Washington 'Moving...fresh and nourishing' The Times

**Close too Close** - Meenu, Shruti 2012  
Pleasure, desire, bondage; intimacy, affection, sheer revelry; fear, uncertainty, discomfort - the myriad expressions of the erotic are revealed in Close, Too Close:

The Tranquebar Book of Queer Erotica, the first South Asian anthology of its sort. In this path-breaking entry into both the queer literature and erotica genres, fifteen writers and artists from across the subcontinent (and beyond) freely explore the illimitable possibilities of genders and sexualities constantly present all around us.

on 2022-01-26 by guest

being." When *The Second Sex* was first published in Paris in 1949—groundbreaking, risqué, brilliantly written and strikingly modern—it provoked both outrage and inspiration.

*The Independent Woman* contains three key chapters of Beauvoir's masterwork, which illuminate the feminine condition and identify practical social reforms for gender equality. It captures the essence of the spirited manifesto that switched on light bulbs in the heads of a generation of women and continues to exert profound influence on feminists today.

*Panjabi Complete Course* - Surajīta Singhā Kālārā 1999  
Over 140 million people in northern India, Pakistan, and the United Kingdom speak the Panjabi language. Here's a practical course in spoken and written Panjabi.

*The Freedom Programme* - Pat Craven 2013-01

Many women who are subjected to abuse from their partners or children do not understand what is happening to them. They do not need

therapy but they do need the information they are given when they attend the Freedom Programme. This is a rolling group work course which informs and empowers women in this situation. It can also help to identify warning signs in a new relationship. It also explains how children are affected by domestic abuse and how their lives can improve after the abuser is removed. It must be used in conjunction with Pat Craven's book 'Living with the Dominator'. This manual contains detailed instructions on how to facilitate the Freedom Programme which is based upon the author's experience in working with violent offenders when she was a probation officer in the UK. "I love life now thanks to the Freedom Programme ." "Our lives are so much better now Mummy " "Life is looking good again thanks to the Freedom Programme." "I know I can succeed in my life now. I have found two new social work positions and I love being a working emancipated mother

on 2022-01-26 by guest

again. Instead of self medicating, I now live a healthy contended and happy life. I have a future." "The Freedom Programme is now going into schools to give young girls information which could save their lives." Kelly Mattison Guardian 2009.  
*Khushwant Singh on Women, Sex, Love and Lust -*  
Khushwant Singh 2011-09-01  
An anthology of Khushwant Singh's best writings on his favorite subjects, Women, Sex, Love and Lust is at once witty, informative, thought-provoking and flagrant. Definitely a book you can't afford to miss! If you are looking for answers to eternal questions like which came first - love or lust, or debates pertaining to celibacy, chastity or arranged marriages, Khushwant Singh delivers his unique exposé. Whether he is analysing the fine dividing line between obscenity, pornography and erotica, describing sex from 'Chaturbhani' (200-350 B.C.) or his ideas of a composite Indian woman, Khushwant holds the reader's attention effortlessly.

But that isn't all - years before terms such as 'gender issues' or 'gender divide' became popular, he was writing, thinking and sharing his views on them. His deliberations reveal an unexpected side to Khushwant . . . in these pages you'll also find a rare glimpse of Khushwant the feminist. Women, Sex, Love and Lust abounds with Indian as well as foreign myths, legends, proverbs, and poems ranging from Chaucer, Shakespeare, Whitman to Kalidas, Iqbal and Faiz. Almost each page offers you delectable quotes from Russell to Wodehouse along with special anecdotes which could only come from the inimitable Khushwant. Only he could share with you his intense experience of nudo-phobia suffered in Sweden, his acute observation of Indian whoremongers when abroad, scandals amongst the literati and glitterati - H. G. Wells as a compulsive fornicator or Georges Simenon hammering away at his typewriter (and his women) at the age of eighty are only a few revelations.

**Statistics for Health Data Science** - Ruth Etzioni

2021-01-04

Students and researchers in the health sciences are faced with greater opportunity and challenge than ever before. The opportunity stems from the explosion in publicly available data that simultaneously informs and inspires new avenues of investigation. The challenge is that the analytic tools required go far beyond the standard methods and models of basic statistics. This textbook aims to equip health care researchers with the most important elements of a modern health analytics toolkit, drawing from the fields of statistics, health econometrics, and data science. This textbook is designed to overcome students' anxiety about data and statistics and to help them to become confident users of appropriate analytic methods for health care research studies. Methods are presented organically, with new material building naturally on what has come before. Each technique is motivated by a topical research

question, explained in non-technical terms, and accompanied by engaging explanations and examples. In this way, the authors cultivate a deep ("organic") understanding of a range of analytic techniques, their assumptions and data requirements, and their advantages and limitations. They illustrate all lessons via analyses of real data from a variety of publicly available databases, addressing relevant research questions and comparing findings to those of published studies. Ultimately, this textbook is designed to cultivate health services researchers that are thoughtful and well informed about health data science, rather than data analysts. This textbook differs from the competition in its unique blend of methods and its determination to ensure that readers gain an understanding of how, when, and why to apply them. It provides the public health researcher with a way to think analytically about scientific questions, and it offers well-

founded guidance for pairing data with methods for valid analysis. Readers should feel emboldened to tackle analysis of real public datasets using traditional statistical models, health econometrics methods, and even predictive algorithms. Accompanying code and data sets are provided in an author site:

*Cyber-Threats to Canadian Democracy - Holly Ann Garnett*  
2022-06-15

From the Cambridge Analytica scandal to overloaded internet voting servers to faulty voting machines, the growing relationship between democracy and technology has brought to light the challenges associated with integrating new digital tools into the electoral system. Canadian politics has also felt the impact of this migration online. This timely book presents the first comprehensive study of the various cyber-threats to election integrity across Canadian jurisdictions. Scrutinizing the events of the 2019 federal election, *Cyber-Threats to Canadian Democracy* examines how new technologies have affected the practice of electoral politics and what we can do to strengthen future Canadian elections. Through the disciplines of political science, law, computer science, engineering, communications, and others, chapters shed light on some of the most

on 2022-01-26 by guest*

contentious issues around technology and electoral integrity. The contributors address current domestic and foreign threats to Canadian elections, evaluate the behaviour of actors ranging from political parties and interest groups to policymakers and election administrators, and assess emerging legal and regulatory responses while anticipating future challenges to the quality of elections in Canada and around the globe. *Cyber-Threats to Canadian Democracy* helps seed the study of digital technology's security risks, providing insight into what reforms are needed and evaluating existing legal and policy frameworks in light of these threats.

**Pregnancy Day by Day -**

Paula Amato 2013-12-23

An illustrated reference for expectant parents explains in intricate detail every stage of a pregnancy, in a comprehensive resource that also covers labor, birth, and life with a new baby.

*Sex at Dawn* - Christopher

Ryan 2021-01-05

The 10th-anniversary edition of

the book that radical re-evaluates the origins and nature of human sexuality. Since Darwin's day, we've been told that sexual monogamy comes naturally to our species. Mainstream science — as well as religious and cultural institutions — has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. In this groundbreaking book, however, Christopher Ryan and Cacilda Jethá argue that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. With intelligence and humour, Ryan and Jethá explain how our promiscuous past haunts our contemporary struggles. They explore why many people find long-term fidelity so difficult; why sexual passion tends to fade even as

love deepens; why  
homosexuality persists in the  
face of standard evolutionary  
logic; and what the human  
body reveals about the  
prehistoric origins of modern

sexuality. Shocking,  
enlightening, and ultimately  
inspiring, *Sex at Dawn* offers a  
revolutionary understanding of  
why we live and love as we do.
