*Do Single People Have Better Sex Lives? - IFLScience*

### **The Ashgate Research Companion to Queer Theory** - Noreen Giffney 2016-03-23

This interdisciplinary volume of thirty original essays engages with four key concerns of queer theoretical work - identity, discourse, normativity and relationality. The terms 'queer' and 'theory' are put under interrogation by a combination of distinguished and emerging scholars from a wide range of international locations, in an effort to map the relations and disjunctions between them. These contributors are especially attendant to the many theoretical discourses intersecting with queer theory, including feminist theory, LGBT studies, postcolonial theory, psychoanalysis, disability studies, Marxism, poststructuralism, critical race studies and posthumanism, to name a few. This Companion provides an up to the minute

snapshot of queer scholarship from the past two decades and identifies many current directions queer theorizing is taking, while also signposting several fruitful avenues for future research. This book is both an invaluable and authoritative resource for scholars and an indispensable teaching tool for use in the classroom.

### **Out in the Country** - Mary L. Gray 2009-08

We've become accustomed to the wisdom of the ancient Greeks being trotted out by conservatives in the name of timeless virtues. At the same time, critics have charged that multiculturalists and their ilk have hopelessly corrupted the study of antiquity itself, and that the teaching of Classics is dead. Trojan Horse Page duBois's answer to those who have appropriated material from antiquity in the service of a conservative political agenda among

them, Camille Paglia, Allan Bloom, and William Bennett. She challenges cultural conservatives' appeal to the authority of the classics by arguing that their presentation of ancient Greece is simplistic, ahistorical, and irreparably distorted by their politics. As well as constructing a devastating critique of these pundits, Trojan Horses seeks to present a more complex and more accurate view of ancient Greek politics, sex, and religion, with a Classics primer. She eloquently recounts the tales of Daedalus and Artemis, for example, conveying their complexity and passion, while also unearthing actions and beliefs that do not square so easily with today's "family values." As duBois writes, "Like Bennett, I think we should study the past, but not to find nuggets of eternal wisdom. Rather we can comprehend in our history a fuller range of human possibilities, of beginnings, of error, and of difference." In these fleet chapters, duBois offers readers a view of the ancient Greeks that is more nuanced, more subtle, more layered and

in every way more historical than the portrait other writers, of whatever stripe, want to popularize and see displayed in our classrooms. Sharp, timely, and engaging, Trojan Horses portrays the richness of ancient Greek culture while riding in to rescue the Greeks from the new barbarians.

**Global Health Policy, Local Realities** - Linda M. Whiteford 2000

International health planners often design programmes based on the assumption that recipient nations share the same level playing field with regard to conceptions of health, illness and at-risk populations. This volume analyzes why humanitarian projects fail to recognize ethnic identities.

*Practicing Desire* - Gary W. Dowsett 1996  
Through frank and graphic interviews with 20 very different Australian gay men, this book reveals how they understand the AIDS crisis and how they have reacted to it in terms of their sex lives.

**The Role of Theory in Sex Research** - Kinsey  
Institute for Research in Sex, Gender, and  
Reproduction 2000

Attempting to bridge the epistemological gaps between "positivist" and "postmodern" approaches to theoretical models of sexual behavior, this book brings together essays and discussion by scholars representing a range of viewpoints and contrasting theoretical approaches. The essays examine four areas: sexuality through the life cycle, sexual orientation, individual differences in sexual risk taking, and adolescent sexual behavior.

**Latino Truck Driver Trade** - Jacobo Schifter  
2001

Latino Truck Driver Trade: Sex and HIV In Central America uncovers the incredible danger that truck drivers put themselves in by risking HIV infection and why Latin sexual culture does not always define men who participate in sexual acts with other men as "homosexual." Exploring the concept of "machismo" and why truck

drivers act very "manly" (to avoid being teased or being made fun of) through interviews with truck drivers, this detailed account gives insight into how friends pressure others to perform sexual acts, drink alcohol, and take drugs in order to "fit in" --Jacket.

*Configuring Masculinity in Theory and Literary Practice* - 2015-05-26

Configuring Masculinity in Theory and Literary Practice combines a critical survey of the most important concepts in Masculinity Studies with a historical overview of how masculinity has been constructed within British Literature and a special focus on developments in the 20th and 21st centuries.

*Practising Desire* - G. W. Dowsett 1992

**Imagine Hope** - Simon Watney 2002-09-11  
Presents a chronological selection of Watney's writings from the 1990s, with new contextualising introductory and concluding essays and offers a chronicle of the changing

and often confusing course of the epidemic.  
*Framing the Sexual Subject* - Richard Parker  
2023-04-28

This collection brings together the work of writers from a range of disciplines and cultural traditions to explore the social and political dimensions of sexuality and sexual experience. The contributors reconfigure existing notions of gender and sexuality, linking them to deeper understandings of power, resistance, and emancipation around the globe. They map areas that are currently at the cutting edge of social science writing on sexuality, as well as the complex interface between theory and practice. *Framing the Sexual Subject* highlights the extent to which populations and communities that once were the object of scientific scrutiny have increasingly demanded the right to speak on their own behalf, as subjects of their own sexualities and agents of their own sexual histories.

*Tiresian Poetics* - Ed Madden 2008

"Blind seer, articulate dead, and mythic transsexual, the figure of Tiresias has always represented a liminal identity and forms of knowledge associated with the crossing of epistemological and ontological boundaries. In twentieth-century literature, the boundaries crossed and embodied by Tiresias are primarily sexual, and the liminal and usually prophetic knowledge associated with Tiresias is based in sexual difference and sexual pleasure. Indeed, in literature of the twentieth century, Tiresias has come to function as a cultural shorthand for queer sexualities." "This book argues for the emergence of a Tiresian poetics at the end of the nineteenth century. As Victorian and modernist writers reimagined Ovid's tale of sex change and sexual judgment, they also created a poetics that grounded artistic or performative power in figures of sexual difference - most often a feminized, often homosexual male body, which this study links to the developing discourses of homosexuality and sexual identity."--BOOK

JACKET.

How to Do the History of Homosexuality - David M. Halperin 2002

In this long-awaited book, David M. Halperin revisits and refines the argument he put forward in his classic *One Hundred Years of Homosexuality*: that hetero- and homosexuality are not biologically constituted but are, instead, historically and culturally produced. *How to Do the History of Homosexuality* expands on this view, updates it, answers its critics, and makes greater allowance for continuities in the history of sexuality. Above all, Halperin offers a vigorous defense of the historicist approach to the construction of sexuality, an approach that sets a premium on the description of other societies in all their irreducible specificity and does not force them to fit our own conceptions of what sexuality is or ought to be. Dealing both with male homosexuality and with lesbianism, this study imparts to the history of sexuality a renewed sense of adventure and daring. It

recovers the radical design of Michel Foucault's epochal work, salvaging Foucault's insights from common misapprehensions and making them newly available to historians, so that they can once again provide a powerful impetus for innovation in the field. Far from having exhausted Foucault's revolutionary ideas, Halperin maintains that we have yet to come to terms with their startling implications. Exploring the broader significance of historicizing desire, Halperin questions the tendency among scholars to reduce the history of sexuality to a mere history of sexual classifications instead of a history of human subjectivity itself. Finally, in a theoretical tour de force, Halperin offers an altogether new strategy for approaching the history of homosexuality—one that can accommodate both ruptures and continuities, both identity and difference in sexual experiences across time and space. Impassioned but judicious, controversial but deeply informed, *How to Do the History of Homosexuality* is a

*Downloaded from

2020-05-26 by guest*

book rich in suggestive propositions as well as eye-opening details. It will prove to be essential reading for anyone interested in the history of sexuality.

*Border Sexualities, Border Families in Schools* - Maria Pallotta-Chiarolli 2010-06-16

"All educators, all families need this book. It asks questions that must be asked, yet have not been asked, and shares thoughtful perceptions and suggestions in ways that may help humanity grow more whole."---Loraine Hutchins, coeditor, BiAny Other Name: cofounder, BiNet USA; instructor, LGBT studies at Towson University -- Public Sex in a Latin Society - Jacobo Schifter 2000

"Public Sex in a Latin Society is one of the first books to explore the lives of people who look for sex in public places in Latin America and the dangers involved -- from murder to HIV infection. The book examines why many gay men frequent public sex places, such as parks, bathhouses, saunas, and movie theaters, and

also explores the unique culture surrounding sex in these places. This informative book examines the dangers of violence, murder, and HIV contraction and how community organizations are trying to address these issues. Containing interviews with police officials, murderers, and the sex workers themselves, this in-depth study discusses data on assault and crime to provide you with information on how individuals can stay safe while seeking sex in public places"--Jacket.

Practicing Desire - Gary D. Dowsett 2022

For more than a decade, gay men have faced a terrible crisis--the HIV epidemic and its consequence for many, AIDS. The epidemic coincided with the development of visible gay communities, distilled from cultural, political, and sexual activities, and claiming for homosexual men a recognition of the pleasures and prerogatives of same-sex love. These gay communities are substantial subcultures, often with a geographic focus and commercial infrastructure. The same period has also seen

the rise in analyses of gay life that challenged conventional configurations of human sexuality, and that have wrought profound changes in such fields as medicine, history, literary criticism, and the social sciences. This study examines these developments in the context of the HIV epidemic through interviews of twenty very different men who live in Sydney's gay community, Australia's largest and most visible, and in the provincial town of Nullangardie. The men range in age from their early twenties to sixty, in class from working class to jaded hustler, in sexual role from drag queen to happily married bisexual. The men reveal how they came to their homosexuality, how they understand the AIDS crisis, and how they have reacted to the crisis in terms of their sexual practice. The men tell their own tales, describing their sex lives in graphic detail and uninhibited language.

*Gay Men's Sexual Stories* - Robert Reynolds  
2003

Investigation of the role of sex in everyday lives

of gay men. With emphasis on psychosocial and emotional context, the contributors explicitly describe their sex lives and sexual attitudes in a variety of situations. The editors share their expertise and insights into these narratives and into the academic literature on gay men at midlife.

**Sexualities: Some elements for an account of the social organisation of sexualities** -

Kenneth Plummer 2002

Volume 3: Difference and Diversity of Sexualities. This section examines the politics, power and critique of sexual categories - including bisexuality, sex addiction, prostitution and sadomasochism.

**Latino Truck Driver Trade** - Johnny Madrigal  
2014-02-25

What do truckers do about their sexual needs on the road? This startling and unique study examines the on-the-road sex lives of Central American truck drivers. It takes a quantitative and qualitative look at the extent of

homosexuality, prostitution, drug use, and vulnerability to HIV infection among these men who operate in a strangely unique sexual culture. *Latino Truck Driver Trade: Sex and HIV in Central America* documents the extent of their sexual activities with both men and women as well as drug use and prostitution among this population. Honest and revealing, this valuable book uncovers the incredible danger that truck drivers put themselves in by risking HIV infection and why Latin sexual culture does not always define men who participate in acts with other men as “homosexual.” *Latino Truck Driver Trade* explores the concept of “machismo” and why truck drivers act very “manly” (to avoid being teased or being made fun of). Through interviews with truck drivers, this detailed account gives insight into how friends pressure others to perform sexual acts, drink alcohol, and take drugs in order to “fit in.” *Latino Truck Driver Trade: Sex and HIV in Central America* provides suggestions for HIV prevention

programs to decrease the spread of HIV that is prevalent among this group shows how theories of homosexuality fail to account for its widespread practice among Latino heterosexual men explores the sexual practices of these men questions basic assumptions about Latin machismo demonstrates how Latino men can practice homosexuality without acquiring a gay identity shows how this international truck driver culture will impact the U. S. *Latino Truck Driver Trade* explicitly examines the on-the-road lifestyles of Central American truckers, revealing that many times they are completely the opposite of the quiet, “normal” lives these men lead at home.

*Touching Encounters* - Kevin Walby 2012-09-15

This is the first book to explicitly address how masculinity and sexuality shape male commercial sex in this era of Internet communications.

**Gay and Bisexual Men Living with Prostate Cancer** - Jane M. Ussher 2018-06-19

Downloaded from  
[legacy.opendemocracy.net](http://legacy.opendemocracy.net) on  
2020-05-26 by guest

This book provides an overview of research and practice dealing with the specific needs of gay and bisexual men living with prostate cancer, as well as the special psychosocial needs of their partners. The intention is twofold: to provide insight into the unique experiences and concerns of gay or bisexual men living with prostate cancer in order to inform and assist future research, clinical practice and supportive care,

and policy; and to ensure that the needs of gay and bisexual men are recognized and advanced on the mainstream prostate cancer agenda. Featuring both cutting-edge research and powerful portraits of gay and bisexual men living with prostate cancer, this book will be indispensable for health care, oncology, and mental health practitioners who seek to address their specific experiences and challenges.
