Psychotherapy of Everyday Life - Nossrat Peseschkian 2012-12-06

In this book East and West are united in a total vision which gives the reader an expansive view of inner lives and behaviors, some of which are healthy and some not. The author presents an analysis of contemporary social relationships and the attitudes associated with them. But he does far more than this. He also vividly describes the "primary" and "secondary" capabilities of the psyche, capabilities that are valid for all times and all situations. Peseschkian draws on his experiences in the Middle Eastern homeland of his youth and also on the insights he has gained through his psychotherapeutic practice. He does not stop with special examples, but draws conclusions that are valid for people everywhere. He then molds these conclusions into an illustrative system. Uniquely interesting are the passages where the author describes errors in the development of a child and erroneous attitudes on the part of the educator, such as when he characterizes the punitive behavior of parents: "Right from the start a child must learn to obey" "There must be punishment" and "You have to break the child's will" Or when he shows how tensions between the parents are transferred to their children: "You're just like your father. He doesn't know what punctuality is either. " The author attempts to integrate his faith in psychotherapy with his vision of the world and also tries to understand the world's religions as an expression of their times.

Sex, Power, Conflict : Evolutionary and Feminist Perspectives - Ann Arbor David M. Buss Professor of Psychology University of Michigan 1996-03-21

Sexual harassment in the workplace, date rape, and domestic violence dominate the headlines and have recently sparked scholarly debates about the nature of the sexes. Concurrently, the scientific community is conducting research in topics of sex and gender issues. Indeed, more research is being done on the topics of sexual conflict and coercion than at any other time in the history of the social sciences. Despite this attention, it is clear that these issues are being addressed from two essentially different perspectives: one is labeled "feminist", while the other, viewed as antithetical to the feminist movement, is called "evolutionary psychology", which emphasizes the history of reproductive

strategies in understanding conflict between the sexes. This book brings together leading experts from both sides of the debate in order to discover how each could offer insights lacking in the other. The editors' overall goal is to show how the feminist and evolutionary approaches are complementary despite their evident differences, then provide an integration and synthesis. In fact, several of the contributors to this unique volume consider themselves advocates of both approaches. As a stimulating presentation of the dynamics of sex, power, and conflict--and a pioneering rapprochement of the diverse tendencies within the scientific community-- this book will attract a wide audience in both psychology and women's studies fields.

Masturbation - Klevin Hubbard 2021-09-07
Masturbation is the sexual stimulation of one's own genitals for the purpose of sexual arousal or other sexual pleasure, typically to the point of orgasm. Hands, fingers, everyday objects, sex toys like vibrators, or a combination of these may be used to stimulate. Mutual masturbation is masturbation with a sexual partner, and it may include manual stimulation of a partner's genitals (fingering or a hand job), or it may be used as a form of non-penetrative sex. Masturbation occurs in both sexes and at all ages. A positive attitude toward sexual activity in general, and masturbation in particular, has been linked to a variety of medical and psychological benefits. Masturbation has been depicted in art since prehistoric times and is mentioned and discussed in the earliest writings. Some European theologians and physicians described it as "heinous," "deplorable," and "hideous" in the 18th and 19th centuries, but these taboos gradually faded during the 20th century. Masturbation is being discussed and portrayed more frequently in art, popular music, television, films, and literature. Masturbation is viewed differently by different religions today; some see it as a spiritually detrimental practice, others do not, and others take a situational approach. Masturbation's legal status has also changed over time, and masturbation in public is now illegal in the majority of countries. Masturbation in animals has been observed in a variety of species, both in the wild and in captivity. Masturbation is a common occurrence.

It's a natural way to explore your body, experience pleasure, and release sexual tension. It affects people of all ages, genders, and races. To continue reading and learn more about masturbation's medical and spiritual implications Click buy now to grab your copy now

The Transformation of American Sex Education - Ellen S. More 2022-01-11

"This book examines Americans' attempts to come to terms with the vexed subject of sex education in the schools from the late 1940s to the early 21st century. Using Mary Calderone's life and career as a touchstone, it traces the origins of modern sex education in the United States from the work of a group of reformers who coalesced around Calderone to create SIECUS in 1964 through the development and use of the competing approaches known as 'abstinence-based' and 'comprehensive' sex education from the 1980s into the 21st century"-

Sex and the Marriage Covenant - John Kippley 2014-01-23

The thesis of this book is that God intends that sexual intercourse should be at least implicitly a renewal of the marriage covenant. From this it follows that the marriage covenant provides the criterion to evaluate the morality of every sexual act. Thus the title, Sex and the Marriage Covenant, is an appropriate description of the book's contents. Marriage comes into being by a couple unreservedly entering God's covenant of marriage; contraceptive intercourse contradicts the very essence of the marriage covenant. From

these considerations, Kippley developed the covenant theology of sexuality described in this book.

How to Flirt - Bruce Glover 2020-10-10

☐☐ Do you want to understand women and learn more about the art of seduction? Do you want to know more about nonverbal communication? If you want to Flirt like a pro, then keep reading.

☐☐ Let's face a bitter, hard truth about life. Some guys have it naturally easier than others when it comes to attracting women. They just have it in them. These are the dudes who always bag the champion's trophy, while lesser mortals are left struggling with consolation prizes like boys' night outs and Netflix binge-watching sessions. It can drive you crazy. You want to know "what are these dudes doing that I am not doing?" Of course, it's understandable that Greek god incarnates, rich, sophisticated family background, flashy cars, and perfect jobs.

However, what about the several average Joes who seem to score really well when it comes to wooing women (almost as if they have access to some secret, magic potion). I actually know several seeming boring, average guys, who don't even possess unusual talents (other than attracting women which is the best if you ask me) draw women like magnets. What's it about them that they make such a positive impression on women and keep bagging dates with them over and over again until they get hitched. I mean wow! I dug really deep into the subject and realized that it isn't just a single subject but a combination of areas of study including psychology, evolutionary sciences, neurology, attraction/sexuality and much more. You could write a thousand books about what a woman wants and it'd still be less, which is why I am sharing the best and most effective tips I've learned and mastered over the years, minus the mediocrity and fluff. This book gives a comprehensive guide on the following: - Understanding women - Language of flirting - Confidence is an art - The right moves - Conversation - Flirting using nonverbal communication - Flirting in different situations -

Igniting the romance over text - The art of seduction - Journey of flirting... AND MORE!!!
