**Sex For Sale** - Ronald Weitzer 2022-11-22

Since the publication of the second edition in 2010, the field of sex work studies has expanded. This fully updated edition of *Sex for Sale: Prostitution, Pornography, and Erotic Dancing* presents an innovative, in-depth, and nuanced analysis of sex work, its risks, and benefits, and pays attention to newer and everchanging types of sex work and its actors, as well as public policies and laws that govern its trade. Now in its third edition, this volume includes updated research on traditional forms of sexual labor and incorporates original, empirically grounded research on newer or less researched phenomena. New chapters explore the use of technology among street sellers, blurring the line between street and online solicitation, in addition to chapters on historical prostitution, transgender workers, illicit massage parlors, male strippers, commercial webcamming, alternative policies and legal systems, and the sex workers' rights movement. The combination of cutting-edge and comprehensive analyses and carefully constructed methodologies in *Sex for Sale* makes it an excellent source of information for scholars and university students in gender studies, sociology, and criminology.

**Condom Nation** - Alexandra M. Lord 2010-01-01

An award-winning history of the U.S. Public Health Service's haphazard efforts to educate Americans about sex for more than a century. Since launching its first sex ed program during World War I, the Public Health Service has dominated federal sex education efforts. Alexandra M. Lord draws on medical research, news reports, the expansive records of the Public Health Service, and interviews with former surgeons general to examine these efforts, from early initiatives through the administration of George W. Bush. Giving equal voice to many groups in America—middle class, working class, black, white, urban, rural, Christian and non-Christian, scientist and theologian—Lord explores how federal officials struggled to create sex education programs that balanced cultural and public health concerns. She details how the Public Health Service left an indelible mark on federally and privately funded sex education programs through partnerships and initiatives with community organizations, public schools, foundations, corporations, and religious groups. With engaging and insightful analysis, Lord explains how tensions among these organizations exacerbated existing controversies about sexual behavior. She also discusses why the Public Health Service's promotional tactics sometimes fueled public fears about the federal government's goals in promoting, or not promoting, sex education. *Sex, Youth, and Sex Education* - David Campos 2002-04-23

An authoritative reference that discusses the history of sex education and its ramifications in the United

States. Community and school officials, parents, and educators often stay to the wee hours of the night at PTA meetings arguing about sex education and sexual behavior among young people. While some groups preach abstinence and attempt to sign as many youngsters as possible to their rosters, it remains a fact that 50 percent of U.S. teenagers, beginning at age 15, are sexually active. *Sex, Youth, and Sex Education* is a wonderfully crafted resource that gives not only a statistical overview of sexual activity in schools, but also examines sex education, the scourge of sexual violence in schools, and sexuality among selected groups of youngsters. What emerges is a groundbreaking work for educators and students of sociology, psychology, and education. This work brings to light the fascinating—not to mention ubiquitous—world of sexuality among today's youth and its impact on parents, school personnel, policymakers, and society.

**The Moral Panics of Sexuality** - B. Fahs 2013-09-12

A provocative feminist analysis of the moral panics of sexuality, this interdisciplinary edited collection showcases the range of historical and contemporary crises we too often suppress, including vagina dentata, vampires, cannibalism, age appropriateness, breast cancer, menstrual panics, and sex education.

**Forget Burial** - Marty Fink 2020-11-13

Finalist for the LGBTQ Nonfiction Award from Lambda Literary. Queers and trans people in the 1980s and early '90s were dying of AIDS and the government failed to care. Lovers, strangers, artists, and community activists came together take care of each other in the face of state violence. In revisiting these histories alongside ongoing queer and trans movements, this book uncovers how early HIV care-giving narratives actually shape how we continue to understand our genders and our disabilities. The queer and trans care-giving kinships that formed in response to HIV continue to inspire how we have sex and build chosen families in the present. In unearthing HIV community newsletters, media, zines, porn, literature, and even vampires, *Forget Burial* bridges early HIV care-giving activism with contemporary disability movements. In refusing to bury the legacies of long-term survivors and of those we have lost, this book brings early HIV kinships together with ongoing movements for queer and trans body self-determination.

**Education, Work and Catholic Life** - Anne Keary 2019-07-12

This book reports on innovative interdisciplinary research in the field of cultural studies. The study spans the early twentieth to twenty-first centuries and fills a gap in our understanding of how girls' and women's religious identity is shaped by maternal and institutional relations. The unique research focuses on the stories of thirteen groups of Australian mothers and daughters, including the maternal genealogy of the editor of the book. Extended conversations conducted twenty years apart provide a situated approach to locating the everyday practices of women, while the oral storytelling presents a rich portrayal of how these girls and women view themselves and their relationship as mothers and daughters. The book introduces the key themes of education, work and life transitions as they intersect with generational change and continuity, gender and religion, and the non-linear transitional stories are told across the life-course examining how Catholic pasts shaped, and continue to shape, the participants' lives. Adopting a multi-methodological approach to research drawing on photographs, memorabilia passed among mothers and daughters, journal entries and letters, it describes how women's lives are lived in different spaces and negotiated through diverse material and symbolic dimensions.

**Entertainment-Education and Social Change** - Arvind Singhal 2003-12-08

Entertainment-Education and Social Change introduces readers to entertainment-education (E-E) literature from multiple perspectives. This distinctive collection covers the history of entertainment-education, its

applications in the United States and throughout the world, the multiple communication theories that bear on E-E, and a range of research methods for studying the effects of E-E interventions. The editors include commentary and insights from prominent E-E theoreticians, practitioners, activists, and researchers, representing a wide range of nationalities and theoretical orientations. Examples of effective E-E designs and applications, as well as an agenda for future E-E initiatives and campaigns, make this work a useful volume for scholars, educators, and practitioners in entertainment media studies, behavior change communications, public health, psychology, social work, and other arenas concerned with strategies for social change. It will be an invaluable resource book for members of governmental and non-profit agencies, public health and development professionals, and social activists.

**Eleven Days in August** - Amatore Mille 2007-02

A funny, poignant memoir of the author's annual eleven day transition from Wall Street to his family's Italian sausage business at the Wisconsin State Fair. A return to family, hometown...and self. Great Americana! Welcome to the August lives of Amatore Mille and his family. The year is 2001...and 1957...and 1973 - actually, every year, since 1932 - when the Milles began an August summer tradition of selling Italian sausage sandwiches at The Wisconsin State Fair. You are about to enter a world where Italian immigrant grandparents leave their indelible mark on three subsequent generations, where a father, in his inimitable way, focuses on the family business...and his family...for eleven days of each summer, and where children grow up with sawdust underfoot and State Fair attractions all around. In episodes that move between present and past, the author takes you on a tour of family escapades that, in turn, are laugh-out-loud funny...and touching...where grandma, with no experience, is forced to drive expensive cars, grandpa provides light-hearted amusement (but little work), and the author, through misadventures and near-tragedy, finally learns what the family business is really all about.
