Three Continents, One History Clive Harris 2008 The Three Continents One History project was launched on 25th March 2007 at Birmingham Museum and Art Gallery. The day marked our commemoration of the millions that were killed and enslaved. It is fitting that it began the start of our journey to uncover the role that Birmingham played in this. The project will inform all sections of society about one of the bleakest chapters in the history of humankind. It will explore the Caribbean experience of slavery as well as analyze the socio-economic links and legacies of the transatlantic era. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Druidism Dudley Wright 2020-03-15 THE Druids boasted a faith which appears to have been as imbued with life as that of any ancient or modern religious system. although little is known generally about it. Although their religion was polytheistic in character the Druids recognized a supremacy among the gods, this Supreme being represented by the sun. Next in point Of rank came the lesser divinities, who were symbolized by the moon and stars, and. in course of time. all the celestial bodies were venerated with divine honors. This characteristic was not more marked in Druidism than in other religions of a like nature where the elements were venerated. The sun as sun was not worshiped. The arch-god was Be'l, whose glory was manifested in the sun, and in singing hymns to the luminous orb they manifested their worship to the Supreme and not to the emblem. paying their adoration to what they regarded as the supreme power and eternal being. It was doubtless this veneration of the celestial bodies which laid the foundation of the knowledge possessed by the

When Scotland Was Jewish Elizabeth Caldwell Hirschman 2015-05-07 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

the fundamental importance of the proper assessment and treatment of sexual disorders in patients with mental disorders with regard to their treatment outcomes and adherence to therapies. In fact, patients with mental disorders often suffer from sexual dysfunctions and in many cases, pharmacological treatment causes sexual-dysfunction side-effects. However, anxiety disorders, personality disorders, eating disorders and psychotic disorders are often also characterized by sexual symptoms that have a profound impact on sexual function. The psychopathology of sexual behavior investigates deficits in the mind-body relationship that are expressed through sexual symptoms such as erectile dysfunction, premature ejaculation, vaginismus, orgasmic disorders, or lack of sexual desire. These symptoms can be considered both prodromal and as a consequence of psychological or psychiatric suffering. Written by a multidisciplinary team of experts, this book offers a valuable guide for psychiatrists, andrologists, gynecologists and psychologists.

America Without the Death Penalty John F. Galliher 2005 In 2000, Governor George Ryan of Illinois, a Republican and a supporter of the death penalty, declared a moratorium on executions in his state. In 2003 he commuted the death sentences of all Illinois prisoners on death row. Ryan contended that the application of the death penalty in Illinois had been arbitrary and unfair, and he ignited a new round of debate over the appropriateness of execution. Nationwide surveys indicate that the number of Americans who favor the death penalty is declining. As the struggle over capital punishment rages on, twelve states and the District of Columbia have taken bold measures to eliminate the practice. This landmark study is the first to examine the history and motivations of those jurisdictions that abolished capital punishment and have resisted the move to reinstate death penalty statutes.

Issues in Language Testing J. Charles Alderson 1981 A symposium focusing on problems in the assessment of foreign or second language learning brought seven applied linguists together to discuss three areas of debate: communicative language testing, testing of English for specific purposes, and general language proficiency assessment. In each of these areas, the participants reviewed selected papers on the topic, reacted to them on paper, and discussed them as a group. The collected papers, reactions, and discussion reports on communicative language testing include the following: "Communicative Language Testing: Revolution or Evolution" (Keith Morrow) and responses by Cyril J. Weir, Alan Moller, and J. Charles Alderson. The next section, on testing of English for specific purposes, includes: "Specifications for an English Language Testing Service" (Brendan J. Carroll) and responses by Caroline M. Clapham, Clive Criper, and Ian Seaton. The final section, on general language proficiency, includes: "Basic Concerns in Test Validation" (Adrian S. Palmer and Lyle F. Bachman) and "Why Are We Interested in General Language Proficiency'?" (Helmut J. Vollmer), reactions of Arthur Hughes and Alan Davies, and the subsequent response of Helmut J. Queens of Old Spain MARTIN ANDREW SHARP. HUME 2021-05-05 In Spain, the share of ladies in deciding the political destinies of the country from the throne has been more conspicuous than in other European monarchies. The oriental traditions dominant in Spain for centuries tended to make wives the humble satellites rather than the equal companions of their husbands. But whilst these traditions limited the power of Spanish women generally, they were insufficient to counteract the extraordinary political influence of a series of remarkable feminine personalities who have on occasion during the course of four centuries practically wielded the sceptres of Spain.

Of particular interest are Ruether's doctrine of God and her emphasis on ecojustice, Sittler's cosmic Christology and reconception of the relation between nature and grace, and Moltmann's doctrine of the Holy Spirit and argument for social trinitarianism. Beyond evaluating the issues raised by Ruether, Sittler, and Moltmann, the author presents sixteen theses or desiderata for any adequate Christian ecological theology.

Decriminalization of Sex Work: The New Zealand Model Joep Rottier 2018-11-20 In many countries worldwide, sex workers have no other choice than to carry out their profession in illegal environments. Repressive policies force them to work in difficult or dangerous underground settings. They need to struggle against incomprehension, moral disapproval, prejudices, and

increasing public stigmatization. Contrary to prevailing tendency in Europe and America to criminalize clients of sex workers, New Zealand decriminalized the entire commercial voluntary sex industry in 2003 by enacting the Prostitution Reform Act (PRA) - as the only state in the world, so far. The implementation of this integrative sex industry policy marks a turning point in the lives and working conditions of New Zealand sex workers. Sex work became recognized as legitimate service work. Nowadays, the sex service sector in this country operates under the same legal rights as any other service sector. In *Decriminalization of Sex Work: The New Zealand Model*, Joep Rottier contextualizes the historical-cultural and sociopolitical backgrounds of this integrative sex industry policy. This explorative and descriptive research provides insights in the unique role of the New Zealand Prostitutes' Collective (NZPC) - as a social movement organization - in the policy making process. Whereas successful self-organization of sex workers is recognized to be a challenge in most countries, NZPC in New Zealand offers an inspiring look at what may become possible if such self-organization does work out. By means of 119 interviews with involved key actors in the New Zealand sex industry, this book gives a unique view on de facto experiences with this policy from different perspectives. The qualitative research shows that the New Zealand Model practices what other policies mainly preach: the voices of the people most involved - the sex workers - are heard and taken seriously.

actors around the world. The main question that emerged from this comprehensive process was: what can one do with the different legal futures that might come to be, as captured in the collection Law Scenarios to 2030? This question could be rephrased: who stragises? This volume brings you the reflections on this question by a diverse group of thought and practice leaders from different fields and parts of the world. Strategy in the justice sector is not an easy thing. At the same time, the need for coherent strategies seems urgent. This book seeks to be a catalyst for broad discussion on this challenge. It includes chapters by Geert Corstens (President, Dutch Supreme Court), Mark Ellis (Executive Director, International Bar Association), Adama Dieng (Special Adviser to the UN Secretary-General on Genocide), Kimberly Prost (Ombudsperson, Security Council's 1267 Committee), and Adel Maged (Vice President, Egyptian Court of Cassation).

Urban Europe Virginie Mamadouh 2017-03-08 In Urban Europe, urban researchers and practitioners based in Amsterdam tell the story of the European city, sharing their knowledge of and insights into urban dynamics in short, thought-provoking pieces. Their essays were collected on the occasion of the adoption of the Pact of Amsterdam with an Urban Agenda for the European Union during the Dutch Presidency of the Council in 2016. The fifty essays gathered in this volume present perspectives from diverse academic disciplines in the humanities and the social sciences. The authors - including the Mayor of Amsterdam, urban activists, civil servants and academic observers - cover a wide range of topical issues, inviting and encouraging us to rethink citizenship, connectivity, innovation, sustainability and representation as well as the role of cities in administrative and political networks. With the Urban Agenda for the European Union, EU Member States have acknowledged the potential of cities to address the societal challenges of the 21st century. This is part of a larger, global trend. These are all good reasons to learn more about urban dynamics and to understand the challenges that cities have faced in the past and that they currently face. Often but not necessarily taking Amsterdam as an example, the essays in this volume will help you grasp the complexity of urban.
