Battle for Congress - David B. Magleby 2015-12-03

Just in time for the coming election year, this book looks at the changing of the guard in 2006 and speculates on where the system may be heading in 2008. It provides an in-depth examination of the ways in which candidates, interest groups, and parties perceived their opportunities and allocated their campaign resources during the midterm elections. The role of money, which was influenced by campaign finance reform, is a special focus in this book. The theme of political scandal has frequently raised concerns that Republican leadership had become a "culture of corruption" that had flourished under their watch, which is also addressed in this book. The war in Iraq, however, may be the most important factor-not only in the 2006 battle for Congress, but for the 2008 battle for the White House as well.

Censoring Sex Research - Thomas K Hubbard 2016-06-16

This volume sheds light on one of the most explosive episodes of censure of academic scholarship in recent decades. Bruce Rind, a former psychology professor at Temple University, investigated sexual relations between

male adults and adolescents through history and across cultures, from highly institutionalized relationships in Ancient Greece and Rome, to 33 contemporary cultures including the USA, and among various species. His conclusions that these relations, when consensual, are not always negative was radical, but based in his research findings. Even before publication of an invited article on the topic, he was subjected to intensive attacks, censured, and censored. This book presents a substantially extended version of Rind's original, unpublished article, plus 12 scholarly responses to his work that argue for or against Rind's conclusions or offer useful context on his work. For anyone interested in sex research and the academic freedom issues surrounding it, whether supportive of or vehemently opposed to Rind's ideas, this book is a must-read.

Supervising Offenders in the Community - Maurice Vanstone 2017-09-29

In this work Maurice Vanstone provides an authoritative and original account of the history of probation. This invaluable reference tool offers readers a new way of reading probation history and presents an original context for thinking about current policy and practice. While the study is essentially UK-focused, it also provides a comparative perspective by exploring the history of probation in the USA. The author's research has produced the only history of probation practice that does justice to the mixture of influences on the early probation service and paves the way for today's more evidence-based approach. The work is based in part upon original documents and interviews with retired and serving officers. Supervising

Offenders in the Community will greatly interest criminologists and criminal justice, social policy, social history and social work academics and postgraduate students.

Understanding Child Abuse - Terry Philpot
2008-11-19

Understanding Child Abuse is the first book to look at women whose partners are child sex offenders. Much of the book is devoted to the

voices of the women themselves, telling their stories and how they feel about the situations in which they found themselves, how they coped, and how they remade their lives and those of their families. They describe what they learned from their experience and how it changed them. Such experience is largely overlooked by researchers, agencies and policy makers and this book throws unique light on this neglected area. The chapters cover: What we know about child sexual abuse, offenders and the effect of sexual abuse on children. A detailed description of the work which allows the women to explore and compare their experiences and feelings about what has happened. Verbatim interviews with both partners and offenders. Combining theory, practice and personal testimony in a concise and accessible manner, Understanding Child Abuse is essential reading for social work practitioners and students as well as probation officers and anyone involved with child protection. It will also be of interest to members of the public.

Twisted - Blair Babylon 2021-12-14

From USA Today Bestselling Author Blair Babylon, a thrilling romantic suspense tale about a twisted billionaire with a shady past. Behind every great fortune lies a great crime, and for Tristan "Twist" King, the time has come to commit his. Tristan is twenty-eight years old, six feet four, wealthy, frighteningly good at day-trading stocks, and lives on a yacht in Monaco. The Prince of Monaco is his buddy from boarding school, and his other friends are billionaires, politicians, CEOs, actors, and rock stars. He dates heiresses, minor princesses, models, and Fortune 50 vice presidents. He has it all. But a debt has come due, and Tristan needs a large amount of GameShack's stock. If he doesn't produce it, he'll be in debt for the rest of his life. It's worth far more money than Tristan has or can borrow. To get the stock, Tristan has to destroy GameShack. He haunts the stock forum Sherwood Forest day and night, looking for a crack in the company's financial armor, until the forum's moderator, QueenMod, suspects his motives and trolls his every move. But he'll figure it out. He has to. Otherwise, he'll be not only broke and in debt, but it will probably cost him his life. What Tristan hadn't counted on was meeting Colleen Frost, a perky,

funny GameShack employee while on a recon trip. She has no idea what he's up to, or so he thought. ~~~~~ By day, Colleen Frost works the register at GameShack, but by night, she's a moderator on the infamous stock market activist website Sherwood Forest. She's paid back half her student loans by trolling short-traders who tried to make a quick buck by setting companies on fire and selling the ashes. And it's fun, too. When her sub-forum begins to crackle with rumors that someone is trying to crash GameShack's stock, she suspects forum member TwistyTrader might be in on it. So she dogs him every time he's online, calling out his baloney and making his forum life a living heck. But when a tall, handsome hunk named Tristan King with incredible sapphire eyes walks into her GameShack store and starts flirting with her, all the while chatting about her favorite videogame, she gives him her online contact info, which turns into a coffee date, which turns into more. And that's when things get TWISTED. Includes your favorite romance tropes! Enemies to lovers, billionaire lifestyle, hidden and secret identity, steamy spicy reads, and so much more!
