Ace - Angela Chen 2020-09-15

An engaging exploration of what it means to be asexual in a world that's obsessed with sexual attraction, and what the ace perspective can teach all of us about desire and identity. What exactly is sexual attraction and what is it like to go through life not experiencing it? What does asexuality reveal about gender roles, about romance and consent, and the pressures of society? This accessible examination of asexuality shows that the issues that aces face—confusion around sexual activity, the intersection of sexuality and identity, navigating different needs in relationships—are the same conflicts that nearly all of us will experience. Through a blend of reporting, cultural criticism, and memoir, Ace addresses the misconceptions around the “A” of LGBTQIA and invites everyone to rethink pleasure and intimacy. Journalist Angela Chen creates her path to understanding her own asexuality with the perspectives of a diverse group of asexual people. Vulnerable and honest, these stories include a woman who had blood tests done because she was convinced that “not wanting sex” was a sign of serious illness, and a man who grew up in a religious household and did everything “right,” only to realize after marriage that his experience of sexuality had never been the same as that of others. Disabled aces, aces of color, gender-nonconforming aces, and aces who both do and don't want romantic relationships all share their experiences navigating a society in which a

lack of sexual attraction is considered abnormal. Chen's careful cultural analysis explores how societal norms limit understanding of sex and relationships and celebrates the breadth of sexuality and queerness.

Research Anthology on Feminist Studies and Gender Perceptions - Management Association, Information Resources 2022-01-21

Global society has always been impacted by the perception of gender. While gender roles may differ in certain cultures, many cultures around the world have allowed for the disempowerment and objectification of women. Women today still struggle for gender equality whether it be professionally, socially, or even legally. To examine feminism thoroughly, however, thorough analysis must be conducted on all genders and perceptions. The Research Anthology on Feminist Studies and Gender Perceptions explores the application of feminist theory and women empowerment in the 21st century and the role that gender plays in society. This book analyzes media representation, gender performativity, and theory to present a comprehensive view of gender and society. Covering topics such as masculinity, women empowerment, and gender equality, this two-volume comprehensive major reference work is an essential resource for sociologists, community leaders, human resource managers, activists, students and professors of higher education, researchers, and academicians.

I Refuse to Be Lonely - Zenovia B. 2010-07-23

I allowed my loneliness to dictate what I allowed in my life. If and when I did allow a man in my life I put so much into him, I would lose myself, my self esteem, my own peace and happiness. I even allowed toxic girl friendships to dictate my life. I had to recognize abuse not only comes physical but also mentally from both men and women. Two marriages and many moons later I have finally reached a point where I refuse to allow loneliness to lower my standards in what I expect from a man or anyone more importantly what I expect from myself. Through poetry, I found the therapy I needed and now I want to share with you. I hope that you will enjoy.

Censoring Sex - John E. Semonche 2007-07-20

In this gracefully written, accessible and entertaining volume, John Semonche surveys censorship for reasons of sex from the nineteenth century up to the present. He covers the various forms of American media—books and periodicals, pictorial art, motion pictures, music and dance, and radio, television, and the Internet. The tale is varied and interesting, replete with a stock of colorful characters such as Anthony Comstock, Mae West, Theodore Dreiser, Marcel Duchamp, Opie and Anthony, Judy Blume, Jerry Falwell, Alfred Kinsey, Hugh Hefner, and the Guerilla Girls. Covering the history of censorship of sexual ideas and images is one way of telling the story of modern America, and Semonche tells that tale with insight and flair. Despite the varieties of censorship, running from self-censorship to government bans, a common story is told. Censorship, whether undertaken to ward off government regulation, to help preserve the social order, or to protect the weak and vulnerable, proceeds on the assumption that the censor knows best and that limiting the choices of media consumers is justified. At various times all of the following groups were perceived as needing protection from sexually explicit materials: children, women, the lower classes, and foreigners. As social and political conditions changed, however, the simple fact that someone was a woman or a day laborer did not support stereotyping that person as weak or impressionable. What would remain as the only acceptable rationale for censorship of sexual materials was the protection of children and unconsenting adults. For each mode of media,

Semonche explains via abundant examples how and why censorship took place in America. Censoring Sex also traces the story of how the cultural territory contested by those advocating and opposing censorship has diminished over the course of the last two centuries. Yet, Semonche argues, the censorship of sexual materials that continues in the United States poses a challenge to the free speech that is part of the foundation upon which the nation is built. Indeed, in an era in which sexual images are pervasive and the need for reliable information about sex and sexuality is growing, he questions the remaining rationales for censorship and the justification for placing obscenity outside the protection of the U. S. Constitution.

YOU: The Owner's Manual for Teens - Michael F. Roizen 2011-06-07

A few years ago, we wrote YOU: The Owner's Manual, which taught people about the inner workings of their bodies—and how to keep them running strong. But you know what? There's a big difference between an

adult's body and your body, between adults' health mysteries and your health mysteries, between their questions and your questions. So, teens, this book is for YOU. We'll talk to you about the biological changes that are happening in your brain and your body. We'll show you how to get more energy, improve your grades, protect your skin, salvage more sleep, get fit, eat well, maximize your relationships, make decisions about sex, and so much more. In fact, in these pages, we answer hundreds of your most pressing health-related questions. And you know what else? We are going to treat you like adults in one very important way: We're not going to preach. We're going to give you straight-up information that you can use to make smart choices about how to live the good life—and enjoy every second of it. Starting right now.

Multidisciplinary Perspectives on Women, Voice, and Agency -

Yan?kkaya, Berrin 2020-07-31

Across the world, it has remained a significant challenge for women to be heard within crucial components of society. Male domination has a vast history of restricting the visibility and voices of women in areas including economics and politics. In recent years, however, those longstanding barriers are beginning to crumble as feminism and women's rights have

become vital areas of research. Understanding the importance of having a voice and its relation to the construction of women's empowerment, as well as existing limitations in global regions, is imperative.

Multidisciplinary Perspectives on Women, Voice, and Agency is a collection of innovative research on the examination of giving voice to women's issues in the contemporary world and their increasing impact within the various pillars of society. While highlighting topics including social change, digital activism, and inclusion, this book is ideally designed for researchers, activists, policymakers, practitioners, politicians, advocates, educators, and students seeking current research on women empowerment and the interpretation of women's voices throughout the globe.

Everyone's Gone to the Moon - Joe Cuhaj 2023-10-17

Much has been written about the legendary flight of Apollo 11 and mankind's first tentative steps into deep space. It's often said that the world stopped, watching in awe as the crew of Apollo 11 completed their mission. It is true that in that moment, almost everyone had virtually gone to the moon as people around the world gazed in wonderment at the grainy black-and-white images of Neil Armstrong taking that first step onto the surface of another world. But that was a fleeting moment and just as quickly, the moment was gone- wars raged on, protestors filled the streets, and average Americans went back to their daily lives. *Everyone's Gone to the Moon* is a week-by-week journey through July 1969, one of the most pivotal months in human history - in space and here on Earth. This unique book follows the crew of Apollo 11 and NASA as they prepare for the historic first lunar landing alongside the major global events buried beneath headlines covering the historic space mission. Interwoven with the story of Apollo 11 are the events on our home planet that made an equally important impact on who we were then and who we are today: the Life of Prince Charles was threatened by a terrorist attack in Wales; the storm dubbed the Ohio Fireworks Derecho ripped through the Midwest, killing dozens; the assassination of Kenyan Economic Minister Tom Myoba (of which Barack Obama Sr. was a key witness) undercut a nation just learning to stand on its own;

Senator Ted Kennedy was involved in a mysterious accident in Chappaquiddick, Massachusetts; ARPANET, the first real "Internet" was unveiled; Monty Python was born; John Lennon and Paul McCartney released "Give Peace a Chance" during escalated Vietnam War tensions; Midnight Cowboy stunned the Academy Awards; and much more. Meanwhile, NASA was still scrambling. Everyone's Gone to the Moon features little known behind-the-scenes stories of the moon landing like how NASA had to grapple with media, the technical issues that still plagued the lunar module, and how the prior crew of Apollo 10 suffered incredible itching from their spacesuits that needed correcting before Apollo 11 could even be launched. This deep dive into the Apollo 11 mission's most crucial weeks and the little-known and rarely remembered events occurring simultaneously back on Earth gives a vivid new perspective to the month that launched humanity into the future.

Intended for Creatives and the pragmatically oriented. Experience the rush of immediate improvement. We spend thousands of hours learning how to accompany a song on an instrument and how to sing. How much time and effort and money do we put into learning how to write a compelling, effective lyric? How do we make the young girl cry and the bad boy buy? apply to achieve effective lyrics. "Lyrics First" is a pure gold approach!
Tales from the Road - Neil Zurcher 2010

"Neil Zurcher deftly observes things most of us would overlook, and that is what make his stories so enticing." --- Robin Swoboda "Neil's writing skills, wry wit, and calm, warm demeanor allowed him to move effortlessly from award-winning hard news reporter to Cleveland's king of travel." - Tim Taylor He met Prince Charles in a bathroom, and tripped and Tell on President Gerald Ford. He raced on an elephant, piloted a glider, and hung from a trapez. He survived a hotel fire, a tornado, and countless stunts for the camera. As a news reporter and host of the long-running "One Tank Trips" travel segment on Channel 8 in Cleveland, Neil visited every corner of Ohio (and beyond), met hundreds of unusual people, and took part in history-making events. He was tear-gassed at an anti-war protest and almost trapped inside the Ohio Penitentiary during a riot. He drove in a day-long high-speed police chase from Cleveland to Kentucky, and got lost in the middle of Lake Erie. He rode in jet boats, jet fighters, sternwheelers, a World War II tank, and almost every other kind of vehicle imaginable (most frequently his trademark red and white 1959 Nash Metropolitan). He was ordained as a minister in the Free Spirit Association Church and even officiated at a few weddings... He would do almost anything and go almost anywhere for a good story. And in the process he became one of the most popular personalities on Cleveland TV. In this book, with his familiar folksy style, Neil shares dozens of his favorite personal stories from a lifetime in Cleveland television. Many will cause a chuckle, some will surprise, and all recall in era of television and of Northeast Ohio that was full of color and characters.
