

Sex Offender Registry Board

Sex Offenders - J. V. Fenner
2008

This book deals with society's responses to sex offenders. This issue is of vital interest to law enforcement professionals and society at large. This subsection of the population generates as much or more fear than virtually any other segment in the community. The chapters in this book deal with recidivism, tracking and location, impulsivity, long-term care, and reunification.

Strategic Cutback

Management - Jane Wiseman
2011

The U.S. is experiencing the 10th economic decline since

World War II. This document presents lessons learned from past experience and suggests approaches leaders can use to address financial crises in law enforcement agencies. It presents alternatives to across-the-board, slash-and-burn budget cuttings. This document provides police departments with practical tools for strategic fiscal management in difficult times. There is limited academic literature addressing law enforcement cutback management. By gathering existing sources, this document represents a first step in moving the field along from anecdote toward more rigorous cutback management theory. This is a print on demand edition of an important, hard-to-find publication.
