**Love for Sale** - David Hajdu 2016-10-18

A personal, idiosyncratic history of popular music that also may well be definitive, from the revered music critic From the age of song sheets in the late nineteenth-century to the contemporary era of digital streaming, pop music has been our most influential laboratory for social and aesthetic experimentation, changing the world three minutes at a time. In

Love for Sale, David Hajdu—one of the most respected critics and music historians of our time—draws on a lifetime of listening, playing, and writing about music to show how pop has done much more than peddle fantasies of love and sex to teenagers. From vaudeville singer Eva Tanguay, the “I Don’t Care Girl” who upended Victorian conceptions of feminine propriety to become one of the biggest stars of her day to the scandal of Blondie playing disco at CBGB, Hajdu presents an incisive and idiosyncratic history of a form that has repeatedly upset social and cultural expectations. Exhaustively researched and rich with fresh insights, Love for Sale is unbound by the usual tropes of pop music history. Hajdu, for instance, gives a star turn to Bessie Smith and the “blues queens” of the 1920s, who brought wildly transgressive sexuality to American audience decades before rock and roll. And there is Jimmie Rodgers, a former blackface minstrel performer, who created country music from the songs of rural white and blacks . . . entwined with the sound of the Swiss yodel. And then there are today’s practitioners of Electronic Dance Music, who Hajdu celebrates for carrying the pop revolution to heretofore unimaginable frontiers. At every turn, Hajdu surprises and challenges readers to think about our most familiar art in unexpected ways. Masterly and impassioned, authoritative and at times deeply personal, Love for Sale is a book of critical history informed by its writer's own unique history as a besotted fan and lifelong student of pop.

**Undressing Mr. Darcy** - Karen Doornebos 2013-12-03

Taking it off in the name of history... Thirty-five-

year-old American social media master Vanessa Roberts lives her thoroughly modern life with aplomb. So when her elderly Jane Austen-centric aunt needs her to take on the public relations for Julian Chancellor, a very private man from England who's written a book called *My Year as Mr. Darcy*, Vanessa agrees. But she's not "excessively diverted," as Jane Austen would say. Hardbound books, teacups, and quill pens fly in the face of her e-reader, coffee, and smartphone... ..Until she sees Julian take his tight breeches off for his *Undressing Mr. Darcy* show, an educational "striptease" down to his drawers to promote his book and help save his crumbling estate. The public relations expert suddenly realizes things have gotten...personal. But can this old-fashioned man claim her heart without so much as a GPS? It will take three festivals filled with Austen fans, a trip to England, an old frenemy, and a flirtatious pirate re-enactor to find out...

**New York Magazine** - 1996-12-16

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

**American Agriculturist** - 1875

**The Trash Phenomenon** - Stacey Michele Olster 2003

The Trash Phenomenon looks at how writers of the late twentieth century not only have integrated the events, artifacts, and theories of popular culture into their works but also have used those works as windows into popular culture's role in the process of nation building. Taking her cue from Donald Barthelme's 1967 portrayal of popular culture as "trash" and Don DeLillo's 1997 description of it as a subversive "people's history," Stacey Olster explores how literature recycles American popular culture so as to change the nationalistic imperative behind its inception. The Trash Phenomenon begins with a look at the mass media's role in the United States' emergence as the twentieth century's dominant power. Olster discusses the works of three authors who collectively span the century bounded by the Spanish-American War (1898) and the Persian Gulf War (1991): Gore Vidal's American Chronicle series, John Updike's Rabbit tetralogy, and Larry Beinhart's American Hero. Olster then turns her attention to three non-American writers whose works explore the imperial sway of American popular culture on their nation's value systems: hierarchical class structure in Dennis Potter's England, Peronism in Manuel Puig's Argentina, and Nihonjinron consensus in Haruki Murakami's Japan. Finally, Olster returns to American literature to look at the contemporary media spectacle and the representative figure as potential sources of national consolidation after November 1963. Olster first focuses on autobiographical, historical, and fictional accounts of three spectacles in which the formulae of popular culture are shown to bypass differences of class, gender, and race: the John F. Kennedy assassination, the Scarsdale Diet Doctor murder, and the O. J. Simpson trial. She concludes with some thoughts about the nature of American consolidation after 9/11.
