

Sex Symbol Dans Vie Christine Ader

Josephine - Jean-Claude Baker 2001

This revelatory biography of Folies Bergere dancer Josephine Baker (1906-1975) is a study of struggle, triumph and tragedy.

Oral Literature in Africa - Ruth Finnegan 2012-09

Ruth Finnegan's *Oral Literature in Africa* was first published in 1970, and since then has been widely praised as one of the most important books in its field. Based on years of fieldwork, the study traces the history of storytelling across the continent of Africa. This revised edition makes Finnegan's ground-breaking research available to the next generation of scholars. It includes a new introduction, additional images and an updated bibliography, as well as its original chapters on poetry, prose, "drum language" and drama, and an overview of the social, linguistic and historical background of oral literature in Africa. This book is the first volume in the World Oral Literature Series, an ongoing collaboration between OBP and World Oral Literature Project. A free online archive of recordings and photographs that Finnegan made during her fieldwork in the late 1960s is hosted by the World Oral Literature Project (<http://www.oralliterature.org/collections/rfinnegan001.html>) and can also be accessed from publisher's website.

Tragedy and Myth in Ancient Greece - Jean-Pierre Vernant 1981

Dictionary of Language Testing - Alan Davies 1999-04-22

This Dictionary of Language Testing contains some 600 entries on language assessment

Water Communication - Celine Herve-Bazin 2014-04-14

Water Communication aims at setting a first general outlook at what communication on water means, who communicates and on what topics. Through different examples and based on different research and contributions, this book presents an original first overview of "water communication". It sets its academic value as

one distinct scientific domain and provides tips and practical tools to professionals. The book contributes to avoid mixing messages, targets and discourses when setting communication related to water issues. The book facilitates coordination within the water sector and its organizations as water is a wide field of applications where inadequate words and language understanding between its stakeholders is one of the main obstacles today. Water Communication provides and describes: a general outlook and retrospective of the history of the water sector in terms of communication the landscape of organizations communicating on water and classification of topics the differences between communication, information, mediation, raising awareness examples of communication campaigns on water Water Communication is a vital resource for communication managers, utility managers, policy makers involved in water management and students in water sciences and environment. Colour figures from the book are available to view on the WaterWiki at:

<http://www.iwawaterwiki.org/xwiki/bin/view/Articles/WaterCommunicationAnalysisofStrategiesandCampaignsfromtheWaterSector> Editor: Celine Herve-Bazin, Celsa - Sorbonne University, Paris, France

Mystic Masonry - Jirah Dewey Buck 1897

J. D. Buck explains and demystifies Freemasonry in this illustrated account of the secret society, their ritual practices and use of symbols to communicate their ideas. The author speaks in favor of the ethical principles and ideas of the Masons; their insistence upon moral rectitude and good behavior of its members supports the idea that Masonry aims to cultivate the highest virtues of humankind. Such preservation of humanity's greatest strengths is to be applauded: writing in the early 20th century, the author muses on the social and economic upheavals in a world that has rapidly changed amid industrialization. Addressing public curiosity on the links between Freemasonry and

the ancient lore of the occult is one of Buck's primary aims. The various ancient mysteries dating back to the time when Egypt was under the rule of the Pharaohs are examined. We discover how the modern Masonic principles of liberty, equality and fraternity relate and reconcile with the symbology present in the lodges around the world. Together with Masonic texts, the author also spoke with Masons and conducted research into ancient civilizations. Thus, Mystic Masonry is an authoritative and fulfilling guide to the subject.

Niche Envy - Joseph Turow 2008-02-15

The price we pay for the new strategies in database marketing that closely track desirable customers, offering them benefits in return for personal information. We have all been to Web sites that welcome us by name, offering us discounts, deals, or special access to content. For the most part, it feels good to be wanted—to be valued as a customer. But if we thought about it, we might realize that we've paid for this special status by turning over personal information to a company's database. And we might wonder whether other customers get the same deals we get, or something even better. We might even feel stirrings of resentment toward customers more valued than we are. In *Niche Envy*, Joseph Turow examines the emergence of databases as marketing tools and the implications this may have for media, advertising, and society. If the new goal of marketing is to customize commercial announcements according to a buyer's preferences and spending history—or even by race, gender, and political opinions—what does this mean for the twentieth-century tradition of equal access to product information, and how does it affect civic life? Turow shows that these marketing techniques are not wholly new; they have roots in direct marketing and product placement, widely used decades ago and recently revived and reimaged by advertisers as part of "customer relationship management" (known popularly as CRM). He traces the transformation of marketing techniques online, on television, and in retail stores. And he describes public reaction against database marketing—pop-up blockers, spam filters, commercial-skipping video recorders, and other ad-evasion methods. Polls show that the public is

nervous about giving up personal data.

Meanwhile, companies try to persuade the most desirable customers to trust them with their information in return for benefits. *Niche Envy* tracks the marketing logic that got us to this uneasy impasse.

Early Printed Narrative Literature in

Western Europe - Bart Besamusca 2019-11-05

The essays in this volume are concerned with early printed narrative texts in Western Europe. The aim of this book is to consider to what extent the shift from hand-written to printed books left its mark on narrative literature in a number of vernacular languages. Did the advent of printing bring about changes in the corpus of narrative texts when compared with the corpus extant in manuscript copies? Did narrative texts that already existed in manuscript form undergo significant modifications when they began to be printed? How did this crucial media development affect the nature of these narratives? Which strategies did early printers develop to make their texts commercially attractive? Which social classes were the target audiences for their editions? Around half of the articles focus on developments in the history of early printed narrative texts, others discuss publication strategies. This book provides an impetus for cross-linguistic research. It invites scholars from various disciplines to get involved in an international conversation about fifteenth- and sixteenth-century narrative literature.

The Patient Griselda Myth - Madeline Rüegg 2019-06-04

From the 14th until the 19th century the last novella of Boccaccio's *Decameron*, also known as the *Griselda* story, has been translated and adapted countless times in many European languages. This story's success can be explained by considering it a myth and analysing how this myth engages with contemporary discourses, such as the definition of the ideal wife, the *querelle des femmes*, the socio-political consequences of social exogamy, and tyranny.

Leadership Agility - William B. Joiner

2006-10-20

Leadership Agility is the master competency needed for sustained success in today's complex, fast-paced business environment. Richly illustrated with stories based on original research and decades of work with clients, this

groundbreaking book identifies five levels that leaders move through in developing their agility. Significantly, only 10% have mastered the level of agility needed for consistent effectiveness in our turbulent era of global competition. Written in an engaging, down-to-earth style, this book not only provides a map that guides readers in identifying their current level of agility. It also provides practical advice and concrete examples that show managers and leadership development professionals how they can bring greater agility to the initiatives they take every day.

Apollo's Warriors - Michael E. Haas 1998-05

Presenting a fascinating insider's view of U.S.A.F. special operations, this volume brings to life the critical contributions these forces have made to the exercise of air & space power.

Focusing in particular on the period between the Korean War & the Indochina wars of 1950-1979, the accounts of numerous missions are profusely illustrated with photos & maps. Includes a discussion of AF operations in Europe during WWII, as well as profiles of Air Commandos who performed above & beyond the call of duty.

Reflects on the need for financial & political support for restoration of the forces.

Bibliography. Extensive photos & maps. Charts & tables.

Novel Translations - Bethany Wiggin 2011-06-15

Many early novels were cosmopolitan books, read from London to Leipzig and beyond, available in nearly simultaneous translations into French, English, German, and other European languages. In *Novel Translations*, Bethany Wiggin charts just one of the paths by which newness—in its avatars as fashion, novelties, and the novel—entered the European world in the decades around 1700. As readers across Europe snapped up novels, they domesticated the genre. Across borders, the novel lent readers everywhere a suggestion of sophistication, a familiarity with circumstances beyond their local ken. Into the eighteenth century, the modern German novel was not German at all; rather, it was French, as suggested by Germans' usage of the French word *Roman* to describe a wide variety of genres: pastoral romances, war and travel chronicles, heroic narratives, and courtly fictions. Carried in large part on the coattails of the Huguenot diaspora, these romans, nouvelles, amours secrets, histoires galantes, and histories

scandaleuses shaped German literary culture to a previously unrecognized extent. Wiggin contends that this French chapter in the German novel's history began to draw to a close only in the 1720s, more than sixty years after the word first migrated into German. Only gradually did the Roman go native; it remained laden with the baggage from its "French" origins even into the nineteenth century.

Godard On Godard - Jean-luc Godard 1986-03-22

Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for *La Gazette du Cinéma* to his later writings for *Cahiers du Cinéma*, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself—his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

Women and Power at the French Court, 1483-1563 - Susan Broomhall 2018

Women and Power at the French Court, 1483-1563 explores the ways in which a range of women - as consorts, regents, mistresses, factional power players, attendants at court, or as objects of courtly patronage - wielded power in order to advance individual, familial, and factional agendas at the early sixteenth-century French court. Spring-boarding from the burgeoning scholarship of gender, the political, and power in early modern Europe, the collection provides a perspective from the French court, from the reigns of Charles VIII to Henri II, a time when the French court was a

renowned center of culture and at which women played important roles. Crossdisciplinary in its perspectives, these essays by historians, art and literary scholars investigate the dynamic operations of gendered power in political acts, recognized status as queens and regents, ritualized behaviors such as gift-giving, educational coteries, and through social networking, literary and artistic patronage, female authorship, and epistolary strategies. Bron: Flaptekst, uitgeversinformatie.

The Migration Experience in Africa -

Jonathan Baker 1995

South Africa, by Christian M. Rogerson

Sex In Question - Lisa Adkins 2004-08-02

First published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

A History of African Linguistics - H. Ekkehard Wolff 2019-06-13

The first global history of African linguistics as an emerging autonomous academic discipline, covering Africa, the Americas, Asia, Australia, and Europe.

Pataphilology: An Irreader - 2018

What do the bizzare etymologies of Jean-Pierre Brisset, made-up languages for literary fiction, The Dialectic of Enlightenment, Latin grammarians, Horace's Epodes, and the Papyrus of Ani have in common? Absolutely nothing. Yet, taken together they provide an unusually coherent picture of a hitherto unacknowledged non-tradition of linguistic investigation. At these moments, particularly within the traditions of European writing which can loosely be termed "avant-garde," philology goes rogue, hearkening to unearthly imperatives and barely comprehended intimations, and producing results well beyond those generated by more respectable - and supposedly more grounded - philological endeavors. 'Pataphilology: An Irreader seeks to document and analyze such moments of philological speculation, invention, and détournement. In using the term 'pataphilology, Gurd and van Gerven Oei are not proposing a facile analogy with 'pataphysics, where 'pataphilology would be philology's wacky twin, always out for a lark, never doing anything real. This would presuppose an operation (even if parenthetical) on philology analogous to a shift from physics to 'pataphysics, something which Alfred Jarry, to whom this volume owes the

latter neologism, appears to contradict in his initial definition: "Pataphysics [...] is the science of that which is superinduced upon metaphysics, whether within or beyond the latter's limitations, extending as far beyond metaphysics as the latter extends beyond physics." Any way you cut it, 'pataphysics is a physics that demands -- or, better, that relies on -- an utmost philological sensitivity to writing, unheard etymologies, unstable translations, incomplete formalizations, and haphazard decryptions. This volume seeks, then, to document how philological practices -- no matter how non-standard, disreputable, or academically useless -- have played a role in the production of avant-garde literature and knowledge, as well as forgotten, alternative, or fictitious scholarly projects. Ranging from the papyrus of Ani to the future languages of speculative fiction, from the fictional tablets of Armand Schwerner to the Attic Nights of Aulus Gellius, from Horace to Lacan, 'Pataphilology: An Irreader is a cabinet of philological curiosity - and a map of the ever-changing constellations that emerge when human language loses its chains.

Sex-symbol dans ma vie - Christine Ader 2015-09-04

Depuis des années, Lise est éperdument amoureuse de Thomas Wallinger, un sublime acteur hollywoodien. Complètement obsédée par son idole, elle est prête à tout pour lui déclarer enfin sa flamme et monte un plan complètement insensé avec ses meilleurs amis : enlever l'acteur ! Mais jusqu'où cette passion délirante ira-t-elle ?

War Torn - Tad Bartimus 2002-08-20

For the first time, nine women who made journalism history talk candidly about their professional and deeply personal experiences as young reporters who lived, worked, and loved surrounded by war. Their stories span a decade of America's involvement in Vietnam, from the earliest days of the conflict until the last U.S. helicopters left Saigon in 1975. They were gutsy risk-takers who saw firsthand what most Americans knew only from their morning newspapers or the evening news. Many had very particular reasons for going to Vietnam—some had to fight and plead to go—but others ended up there by accident. What happened to them was remarkable and important by any standard.

Their lives became exciting beyond anything they had ever imagined, and the experience never left them. It was dangerous—one was wounded, and one was captured by the North Vietnamese—but the challenges they faced were uniquely rewarding. They lived at full tilt, making an impact on all the people around them, from the orphan children in the streets to their fellow journalists and photographers to the soldiers they met and lived with in the field.

They experienced anguish and heartbreak—and an abundance of friendship and love. These stories not only introduce a remarkable group of individuals but give an entirely new perspective on the most controversial conflict in our history. Vietnam changed their lives forever. Here they tell about it with all the candor, commitment, and energy that characterized their courageous reporting during the war.
