*Conspiracy Theories* - Joseph E. Uscinski 2020-01-15

Conspiracy theories are a part of the human condition. Everyone believes at least one, but given the number of conspiracy theories, it is more likely that everyone believes a few. Some people have a worldview defined by them. Conspiracy theories are just another reminder that people disagree about many things, including truth. These disagreements have always existed and always will. We have to live with conspiracy theories and with the people who believe them. The only way to do this is have compassion and tolerance for others, and to hold our own beliefs to high standards. This book introduces students to the research into conspiracy theories and the people who propagate and believe them. In doing so, it addresses the psychological, sociological, and political sources of conspiracy theorizing Uscinski rigorously analyzes the most current arguments and evidence while providing numerous real-world examples so students can contextualize the current debates. Each chapter addresses important current questions, provides conceptual tools, defines important terms, and introduces the appropriate methods of analysis.

*Towards a Transcultural Future: Literature and Human Rights in a 'Post'-Colonial World* - 2021-10-18

Studying postcolonial literatures in English can (and indeed should) make a human rights activist of the reader - there is, after all, any amount of evidence to show the injustices and inhumanity thrown up by processes of decolonization and the struggle with past legacies and present corruptions. Yet the human-rights aspect of postcolonial literary studies has been somewhat marginalized by scholars preoccupied with more fashionable questions of theory. The present collection seeks to redress this neglect, whereby the definition of human rights adopted is intentionally broad. The volume reflects the human rights situation in many countries from Mauritius to New Zealand, from the Cameroon to Canada. It includes a focus on the Malawian writer Jack Mapanje. The contributors' concerns embrace topics as varied as denotified tribes in India, female genital mutilation in Africa, native residential schools in Canada, political violence in Northern Ireland, the South African Truth

and Reconciliation Commission, and the discourse of the Treaty of Waitangi. The editors hope that the very variety of responses to the invitation to reflect on questions of "Literature and Human Rights" will both stimulate further discussion and prompt action. Contributors are: Edward O. Ako, Hilarious N. Ambe, Ken Arvidson, Jogamaya Bayer, Maggie Ann Bowers, Chandra Chatterjee, Lindsey Collen, G.N. Devy, James Gibbs, J.U. Jacobs, Karen King-Aribisala, Sindiwe Magona, Lee Maracle, Stuart Marlow, Don Mattera, Wumi Raji. Lesego Rampolokeng, Dieter Riemenschneider, Ahmed Saleh, Jamie S. Scott, Mark Shackleton, Johannes A. **Human Trafficking** - Alexis A. Aronowitz 2017-02-24

Offering an up-to-date and comprehensive resource for students and general readers investigating human trafficking, this book examines the phenomenon in its many forms, the factors contributing to its existence, the victims it affects, and those who perpetrate this horrific crime. The horrific reality is that millions of human beings are bought and sold every year worldwide. Human trafficking is not an obsolete practice, and these crimes are not rare in occurrence. Recent examples of human trafficking such as the abduction of hundreds of Nigerian schoolgirls by the terrorist organization Boko Haram and depictions of trafficking in films such as *Taken* have brought human trafficking squarely into the public eye. This book offers a comprehensive understanding of human trafficking in its many forms. It examines the traffickers who range from single operators to large, transnational organizations and investigates how they coerce, deceive, and exploit their victims in the domestic service, farming,

construction, and sex industries as well as in the harvesting of organs. The coverage includes common practices of human trafficking like sexual exploitation of women in Western and Central Europe, labor exploitation in the Middle East, and the exploitation of children in Western and Central Africa. Readers are introduced to various experts who have rescued and worked with victims, prosecuted cases, and conducted research to gain more insight into this crime and serious abuse of human rights, and they will gain insight into how a number of people and organizations are working to combat human trafficking and protect victims. Primary source documents that include reports by government, international organizations, and NGOs serve to aid readers in acquiring more knowledge on the topic.

**Sex Trafficking** - Siddharth Kara 2017-08-29

"The best book ever written on human trafficking for sexual exploitation"—the basis for the feature film, *Trafficked*, starring Ashley Judd (Kevin Bales, president of Free the Slaves). Every year, hundreds of thousands of women and children are abducted, deceived, seduced, or sold into forced prostitution. These trafficked sex slaves form the backbone of one of the world's most profitable illicit enterprises and generate huge profits for their exploiters, for unlike narcotics, which must be grown, harvested, refined, and packaged, sex slaves require no such "processing," and can be repeatedly "consumed." In this book, Kara provides a riveting account of his four-continent journey into this unconscionable industry, sharing the moving stories of its victims and revealing the shocking conditions of their exploitation. He draws on his background in finance, economics, and law to provide the first ever business analysis of contemporary slavery worldwide, focusing on its most profitable and barbaric form: sex trafficking. Kara describes the

local factors and global economic forces that gave rise to this and other forms of modern slavery over the past two decades and quantifies, for the first time, the size, growth, and profitability of each industry. Finally, he identifies the sectors of the sex trafficking industry that would be hardest hit by specifically designed interventions and recommends the specific legal, tactical, and policy measures that would target these vulnerable sectors and help to abolish this form of slavery, once and for all. The author will donate a portion of the proceeds of this book to the anti-slavery organization, Free the Slaves. "Sex trafficking is more of a problem than most people realize. Read this well-written book and find out."—Kirk Douglas

Transnational Migration, Gender and Rights - Ragnhild Sollund 2012-02-03

This book examines the vulnerability caused by migration, in particular, the vulnerability of women that may cause forced migration, and the ways in which this is dealt with by national authorities in affluent European states. It explores transnational migration, gender and human rights, migration regimes, and anti-trafficking efforts in Norway.

*The Marauders* - Patrick Strickland 2022-01-25

"The Marauders is a blistering book, a hard-ass stare into the voracious mouth of the US-Mexico border. Patrick Strickland has done a fine piece of reporting from places we don't dare to tread." — Luis Alberto Urrea, author of *The Devil's Highway* This real-life Western tells the story of how citizens in a small Arizona border town stood up to anti-immigrant militias and vigilantes. The Marauders uncovers the riveting nonfiction saga of far-right militias terrorizing the border towns of southern Arizona. In one of the towns profiled, Arivaca, rogue militia members killed a man and his nine-year-old daughter in 2009. In response, the residents organized and spent two years trying to push the new militias out through boycotts and by urging local businesses to ban them. The militias and vigilante groups again raised the stakes, spreading Pizzagate-style conspiracy theories alleging that town residents were complicit in child sex trafficking, prompting fears of vigilante violence. The Marauders flips the standard formula most often applied to stories

about immigration and the far right. Too often those stories are told from the perspective of the ones committing the violence. While Strickland doesn't shy away from exploring those dark themes, the far right are not the protagonists of the book. Rather, the people targeted by hate groups, and the individuals who rose up to stop them in their tracks, are the heroes of this dramatic story.

**Critical Content Analysis of Visual Images in Books for Young People** - Holly Johnson 2019-05-31

Extending the discussion of critical content analysis to the visual realm of picturebooks and graphic novels, this book provides a clear research methodology for understanding and analyzing visual imagery. Offering strategies for "reading" illustrations in global and multicultural literature, chapter authors explore and bring together critical theory and social semiotics while demonstrating how visual analysis can be used to uncover and analyze power, ideologies, inequity, and resistance in picturebooks and graphic novels. This volume covers a diverse range of texts and types of books and offers tools and procedures for interpreting visual images to enhance the understandings of researchers, teachers, and students as they engage with the visual culture that fills our world. These methods are significant not only to becoming a critical reader of literature but to also becoming a critical reader of visual images in everyday life.

**Sex Trafficking in Postcolonial Literature** - Laura Barberán Reinares 2014-08-27

At present, the bulk of the existing research on sex trafficking originates in the social sciences. *Sex Trafficking in Postcolonial Literature* adds an original perspective on this issue by examining representations of sex trafficking in postcolonial literature. This book is a sustained interdisciplinary study bridging postcolonial literature, in English and Spanish, and sex trafficking, as analyzed through literary theory, anthropology, sociology, history, trauma theory, journalism, and globalization studies. It encompasses postcolonial theory and literature's aesthetic analysis of sex trafficking together with research from social sciences, psychology, anthropology, and economics with the intention of

offering a comprehensive analysis of the topic beyond the type of Orientalist discourse so prevalent in the media. This is an important and innovative resource for scholars in literature, postcolonial studies, gender studies, human rights and global justice.

**Sex and the Sexual during People's Leisure and Tourism Experiences** - Neil Carr 2010-05-11

Sex and the sexual have for far too long been consigned to the dark corners by social scientists in general and tourism and leisure scholars in particular. *Sex and the Sexual During People's Leisure and Tourism Experiences* seeks to begin to rectify this situation by bringing the position and nature of sex and the sexual into the light of academic debate. As such, this book is designed to highlight cross-disciplinary emerging work on sex and the sexual in leisure and tourism and provide the readers with insights into this social realm. It encompasses a broad array of sex-related issues and tourism and leisure environments from across a variety of countries. The book should appeal to researchers and students across the humanities and social sciences both for the value of the research in its own right and the ability of it to be used as a lens through which to view the position of sex and the sexual as well as tourism and leisure in today's world. Overall, it is argued that sex and the sexual should play a part in the academic discourse, especially if we wish to describe what is actually happening out there as far as tourism and leisure are concerned.

*Combating Trafficking in Persons* - United States. Congress. House. Committee on Financial Services. Subcommittee on Domestic and International Monetary Policy, Trade, and Technology 2005

**Handbook of Transnational Crime and Justice** - Philip Reichel 2013-04-29

Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century. In the *Handbook of Transnational Crime and Justice*, Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws, crimes, and criminal justice responses to

transnational crime. This concise, reader-friendly handbook is organized logically around four major themes: the problem of transnational crime; analysis of specific transnational crimes; approaches to its control; and regional geographical analyses. Each comprehensive chapter is designed to be explored as a stand-alone topic, making this handbook an important textbook and reference tool for students and practitioners alike.

*Third Party Sex Work and Pimps in the Age of Anti-trafficking* - Amber Horning 2017-01-03

This volume is a compilation of new original qualitative and ethnographic research on pimps and other third party facilitators of commercial sex from the developed and developing world. From African-American pimps in the United States and Eastern European migrants in Germany to Brazilian cafetões and cafetinas this volume features the lives and voices of the men and women who enable diverse and culturally distinct sex markets around the world. In scholarly, popular, and policy-making discourses, such individuals are typically viewed as larger-than-life hustlers, violent predators, and brutal exploiters. However, there is actually very little empirical research-based knowledge about how pimps and third party facilitators actually live, labor, and make meaning in their everyday lives. Nearly all previous knowledge derives from hearsay and post-hoc reporting from ex-sex-workers, customers, police and government agents, neighbors, and self-aggrandizing fictionalized memoirs. This volume is the first published compilation of empirically researched data and analysis about pimps and third parties working in the sex trade across the globe. Situated in an age of highly punitive and ubiquitous global anti-trafficking law, it challenges highly charged public policy stereotypes that conflate pimping and sex trafficking, in order to understand the lived experience of pimps and the men and women whose work they facilitate.

**Women's Lives** - Claire A. Ettaugh 2023-02-24

Women's Lives integrates the most current research and social issues to explore the psychological diversity of girls and women varying in age, ethnicity, social class, nationality, immigrant experience, sexual orientation, gender identity, ableness and body size and shape. The text

embeds a lifespan perspective within each topical chapter and has an intersectional approach that integrates women's diverse identities. It includes rich coverage of women with disabilities and on middle-aged and older women throughout. Taking a deeper transnational focus, it also examines the impact of social, cultural, and economic factors in shaping women's lives around the world. This edition explores the latest areas of research and tackles important contemporary topics such as: feminization of immigration media portrayals of LGBTQ individuals and immigrants regulating testosterone levels in women's sports; disorders of sexual development; nonbinary identity the effects of social media on body image; sizeism new classification of sexual disorders menstrual equity and the "tampon tax" migrant women as transnational mothers academic environment for low-income, ethnic minority, and immigrant women effects of the COVID-19 pandemic on women's employment and work-family balance the dilemma of unpredictable work hours healthcare barriers experienced by immigrant women and LGBTQ individuals #MeToo movement; vigilante gender violence the fourth wave of feminism the role of immigrant women and ethnic minority women in grassroots feminist activism men's support of feminist issues and more Boasting a new full-color design and rich with pedagogy, the book includes several boxed elements in each chapter. "In The News" boxes present current news items designed to engage students in thinking critically about current gender-focused events and issues. The "What You Can Do" boxes give students examples of applied activities that they can engage in to promote a more egalitarian society. "Get Involved" boxes ask students to collect data and to critically think about the explanations and implications of the activity's findings. "Learn About the Research" boxes expose students to a variety of research methods and highlight the importance of diversity in research samples by including studies of underrepresented groups. At the end of each chapter, "What Do You Think" questions foster skills in critical thinking, synthesis, and evaluation by asking the student to apply course material or personal experiences to provocative issues from the chapter. The "If You Want to Learn More" feature provides names of the most current books available

on various topics that are discussed in the chapter. Combining up-to-date research with an approachable and engaging writing style, *Women's Lives* is an invaluable resource for all students of gender from psychology, women's studies, gender studies, sociology, and anthropology.

[Sex and Stigma](#) - Sarah Jane Blithe 2019-01-15

An intimate and original look at the lives of Nevada's legal sex workers through the voices of current and former employees, brothel owners, madams, and local law enforcement. The state of Nevada is the only jurisdiction in the United States where prostitution is legal. Wrapped in moral judgments about sexual conduct and shrouded in titillating intrigue, stories about Nevada's legal brothels regularly steal headlines. The stigma and secrecy pervading sex work contribute to experiences of oppression and unfair labor practices for many legal prostitutes in Nevada. *Sex and Stigma* engages with stories of women living and working in these "hidden" organizations to interrogate issues related to labor rights, secrecy, privacy, and discrimination in the current legal brothel system. Including interviews with current and former legal sex workers, brothel owners, madams, local police, and others, *Sex and Stigma* examines how widespread beliefs about the immorality of selling sexual services have influenced the history and laws of legal brothel prostitution. With unique access to a difficult-to-reach population, the authors privilege the voices of brothel workers throughout the book as they reflect on their struggles to engage in their communities, conduct business, maintain personal relationships, and transition out of the industry. Further, the authors examine how these brothels operate like other kinds of legal entities, and how individuals contend with balancing work and non-work commitments, navigate work place cultures, and

handle managerial relationships. *Sex and Stigma* serves as a resource on the policies guiding legal prostitution in Nevada and provides an intimate look at the lived experiences of women performing sex work.

[Holocaust Deniers and Conspiracy Theorists](#) - 2020-07-15

Conspiracy theories have existed for centuries to rationalize major events and crises, but while they were once relegated to the fringes of discourse, in recent decades, they have increasingly become part of public debate. While many conspiracy theories are innocuous, others, like Holocaust denial, are considered dangerous because their intention to legitimize racist or otherwise hateful ideologies. This resource helps readers to examine key debates and topics related to conspiracy theories. Balancing free speech and public safety, the development of conspiracy theorizing over the past century, the role the internet has played, and whether some conspiracy theories can actually benefit society are all richly analyzed.

[Come to Poppa](#) - Janet James 2018-06-07

When Jeanette Bleakley accepts an invitation to join an all-male Corps of Cadets at Virginia Tech in 1973, she doesn't realize that her career in Air Force Intelligence will lead to a real-world operation called Guardian Angel that rescues dozens of girls kidnapped from Central America who are turned into sex slaves across the US. Follow Jeanette's adventures as she survives the challenges of a military rat system, a survival school with its own POW camp, and a real-world deployment as the Joint Task Force executes its mission with the code words "Come to Poppa." During this adventure of historical fiction, Jeanette has her own faith adventure as she grows spiritually and meets the recently beatified Fr. Stanley Rother, a martyr for his faith. Readers who wish to get involved in fighting human trafficking will join forces with the book's extensive nonprofit resource list to fight this terrible crime.
