The Power - Naomi Alderman 2017-10-10

In this stunning bestseller praised as "our era's *Handmaid's Tale*," a fierce new power has emerged—and only women have it (Washington Post). In *The Power*, the world is a recognizable place: there's a rich Nigerian boy who lounges around the family pool; a foster kid whose religious parents hide their true nature; an ambitious American politician; a tough London girl from a tricky family. But then a vital new force takes root and flourishes, causing their lives to converge with devastating effect. Teenage girls now have immense physical power: they can cause agonizing pain and even death. And, with this small twist of nature, the world drastically resets. From award-winning author Naomi Alderman, *The Power* is speculative fiction at its most ambitious and provocative, at once taking us on a thrilling journey to an alternate reality, and exposing our own world in bold and surprising ways.

"Captivating, fierce, and unsettling...I was riveted by every page. Alderman's prose is immersive and, well, electric." —New York Times Book Review

A Passionate Apprentice - Virginia Woolf 2018-07-19

A Passionate Apprentice comprises the first years of Virginia Woolf's *Journal* - from 1879 to 1909. Beginning in early January, when Woolf was almost fifteen, the pages open at a time when she was slowly recovering from a period of madness following her mother's death in May 1895. Between this January and the autumn of 1904, Woolf would suffer the deaths of her half-sister and of her father, and survive a summer of madness and suicidal depression. Behind the loss and confusion, however, and always near the surface of her writing is a constructive force at work - a powerful impulse towards health. It was an urge, through writing, to bring order and continuity out of chaos. Putting things into words and giving them deliberate expression had the effect of restoring reality to much that might otherwise have remained insubstantial. This early chronicle represents the beginning of the future Virginia Woolf's apprenticeship as a novelist. These pages show that rare instance when a writer of great importance leaves behind not only the actual documents of an apprenticeship, but also a biographical record of that momentous period as well. In Woolf's words, 'Here is a volume of fairly acute life (the first really lived year of my life).'

Non-Professional Subtitling - Yvonne Lee 2017-08-21

From fansubbing, fan-generated translation, to user-generated translation, from amateur translation to social translation, non-

professional subtitling has come a long way since its humble beginning in the 1980s. The prevailing technological affordance enables and mobilises the digital generation to turn subtitling into a method of self-expression and mediation, and their activities have made translation a more social and visible activity than ever before. This volume provides a comprehensive review of the current state of play of this user-generated subtitling phenomenon. It includes projects and research focusing on various aspects of non-professional subtitling, including the communities at work, the agents at play, the production conditions and the products. The perspectives in the book explore the role played by the agents involved in the emerging subtitling networks worldwide, and their impact on the communities is also discussed, based on empirical data generated from observations on active fansubbing communities. The collection demonstrates, from various viewpoints, the ways in which non-professional subtitling connects languages, cultures and communities in a global setting.

"I Heard You Paint Houses" - Charles Brandt 2008-04-15

"I Heard You Paint Houses" will soon be a major motion picture directed by Martin Scorsese. The working title for the movie is "The Irishman". The first words Jimmy Hoffa ever spoke to Frank "the Irishman" Sheeran were, "I heard you paint houses." To paint a house is to kill a man. The paint is the blood that splatters on the walls and floors. In the course of nearly five years of recorded interviews Frank Sheeran confessed to Charles Brandt that he handled more than twenty-five hits for the mob, and for his friend Hoffa. Sheeran learned to kill in the U.S. Army, where he saw an astonishing 411 days of active combat duty in Italy during World War II. After returning home he became a hustler and hit man, working for legendary crime boss Russell Bufalino. Eventually he would rise to a position of such prominence that in a RICO suit then-U.S. Attorney Rudy Giuliani would name him as one of only two non-Italians on a list of 26 top mob figures. When Bufalino ordered Sheeran to kill Hoffa, he did the deed, knowing that if he had refused he would have been killed himself. Sheeran's important and fascinating story includes new information on other famous murders including those of Joey Gallo and JFK, and provides rare insight to a chapter in American history. Charles Brandt has written a page-turner that has become a true crime classic.
