Party and Procedure in the United States

Congress - Jacob R. Straus 2016-07-15

Understanding how Congressional political parties utilize floor procedure to advance a legislative agenda is fundamental to understanding how Congress operates. This book offers students and researchers an in-depth understanding of the procedural tools available to congressional leaders and committee chairs and how those tools are implemented in the House of Representatives, the Senate, and during negotiations between the chambers. While other volumes provide the party or the procedural perspective, this book combines these two features to create a robust analysis of the role that party can play in making procedural decisions. Additionally, the contributors provide an opportunity to take a holistic look at Congress and understand the changing dynamics of congressional power and its implementation over time. The second edition of *Party and Procedure in the United States Congress* includes case studies and analyses of the changes and innovations that have occurred since 2012, including the "nuclear option."

Joining The Dark Side: The Role Of The Forensic Science Defence Expert - David Schudel

2022-09-06

The role of a forensic science defence expert is often referred to by those working for the police/state/government forensic labs as being on the 'dark side.' In *Joining the Dark Side*, author David Schudel outlines the evolution of a fascinating career that starts out in the dark side

and looks at what problems can appear in forensic cases. The book delves into the problems inherent to forensic science, in particular cognitive bias and scientific philosophy. It also looks at the emotional impact and specific challenges behind forensic science and provides the reader with some sage advice on giving evidence in Court.

Gender Violence in Russia - Janet Elise Johnson 2009

Just a few years ago, most Russian citizens did not recognize the notion of domestic violence or acknowledge that such a problem existed. Today, after years of local and international pressure to combat violence against women, things have changed dramatically. *Gender Violence in Russia* examines why and how this shift occurred--and why there has been no similar reform on other gender violence issues such as rape, sexual assault, or human trafficking. Drawing on more than a decade of research, Janet Elise Johnson analyzes media coverage and survey data to explain why some interventions succeed while others fail. She describes the local-global dynamics between a range of international actors, from feminist activists to national governments, and an equally diverse set of Russian organizations and institutions.

Victimology - Idaho Coalition Against Sexual and Domestic Violence 2016-10-07

Victimology: Crime Victimization and Victim

Services is a text written for undergraduate students that provides a broad overview of the theoretical basis of victimology, and the role of victimology in today's criminal justice system. This multidisciplinary approach to crime victimization, crime victims, and victim services includes chapters written by authors from a variety of disciplines: criminal justice and criminology, counseling, nursing, social work, nonprofit organizations, law, student affairs, and public policy. Within each chapter, chapter highlights provide more in-depth information on a central concept, spotlights on pioneers in the field, and real world applications that demonstrate how the topic is currently being addressed in communities across the country. The authors' goal was to provide a more holistic perspective that is grounded in how theories arose from the real world experiences of victims in one cohesive text.

Only Rape! Human Rights and Gender Equality for Refugee Women - Eileen Pittaway
2022-11-29

This book charts the roller coaster ride taken by the authors over the past 33 years, in the ongoing fight to acknowledge, prevent, and respond to the rape and sexual abuse of women in conflict and displacement situations. They have worked with an international network of academics, refugee women, and human rights activists in 22 countries. The story moves between refugee camps and the United Nations, refugee settlements in cities and national governments. Theory and ethical research methods are an important part of the story. At times it is very confronting, sometimes amusing and often uplifting.

Creating Human Rights - Lisa S. Alfredson
2013-03-26

Selected by Choice magazine as an Outstanding Academic Title *Creating Human Rights* offers the first systematic study of a pioneering women's refugee movement and its challenge, as an international trigger case, to more conventional paths toward human rights policy development. Lisa S. Alfredson argues that such cases, which unfold in the context of a specific country and have profound impacts on international human rights efforts, have been neglected in research and pose a challenge to recent theorizing on human rights change. In the

early 1990s, Canada witnessed the emergence of the world's first comprehensive refugee policy for women who were seeking protection from female-specific forms of violence—rape, domestic abuse, public stoning of adulterers, genital mutilation—while challenging a gender-biased system. Close examination of this novel movement, Alfredson contends, provides crucial insights into why and how states may articulate new human rights that set international precedents. Analyzing original empirical data and sociopolitical historical trends, the book documents the decisive global impacts of the movement while shedding light on the paradox of noncitizen politics and asylum seekers' little recognized political strength. Contrary to expectation, findings suggest transnational networks and pressures are not required for some forms of change. Rather, international trigger cases illuminate a range of other key actors and advocacy strategies leading, subsequently, to a more comprehensive understanding of human rights acceptance. In the case of the women's refugee movement, the convergence of human rights and noncitizen politics points toward a new dimension for human rights scholarship that, in the current age of globalization, is becoming critically important.

[Performance of Bureau of Indian Affairs Off-reservation Boarding Schools](#) - United States. Congress. Senate. Committee on Indian Affairs (1993-) 1995

A Senate committee hearing received testimony about high dropout rates and other problems at seven off-reservation boarding schools operated by the Bureau of Indian Affairs (BIA) or by tribal groups under BIA contract. The schools are Pierre Indian Learning Center (South Dakota), Sequoyah Indian High School (Oklahoma), Wahpeton Indian School (North Dakota), Chemawa Indian School (Oregon), Flandreau Indian School (South Dakota), Riverside Indian School (Oklahoma), and Sherman Indian High School (California). Together, these seven schools enrolled 2,623 students at the start of the 1993-94 school year, but had only 1,557 students in attendance at the end of the year. In addition, persons associated with the schools

had expressed concern that inadequate funding made it impossible for the schools to deal with rising numbers of court referred students and students with serious social and emotional problems. Testimony from BIA and Indian Health Service administrators, school administrators and board members, tribal leaders, and students discussed the feasibility of the therapeutic community school model, whether the model can be developed for implementation in off-reservation boarding schools, per-pupil funding at the seven schools compared to funding at comparable state residential institutions, needs for psychiatric and other mental health services, substance abuse, parent participation, school monitoring and evaluation procedures, and inadequate dormitories. An appendix of additional materials includes school mission statements, descriptions of service delivery models, a review of the Indian School Equalization Program (ISEP) suggesting that ISEP funding is inadequate, investigations of student criminal activities, profiles of student needs and problems, concept papers on the development of alternative schools, data on academic achievement and mental health indicators, federal boarding school evaluations, research reports on student tobacco use, and a summary of identified school strengths and needs based on correlates of effective schools. Sexual Violence in the United States - U S Department of Justice Office on Vio 2014-05-28
One in six women and one in 33 men will be sexually assaulted during the course of their lifetime. However incidents of sexual violence remain the most underreported crimes in the United States, and survivors who disclose their victimization—whether to law enforcement or to family and friends—often encounter more adversity than support. The effects of sexual violence on victims and communities are profound. Survivors of sexual violence are at a higher risk for a number of physical and mental health problems and other adverse life events, including revictimization. Furthermore, with so few offenders held accountable for their actions, sexual violence amounts to a serious criminal justice crisis. Congress acknowledged the pervasiveness of violence against women and the need to address these crimes when it

enacted the Violence Against Women Act (VAWA) in 1994 and reauthorized the law in 2000 and 2005. VAWA is a multifaceted effort to respond to domestic violence, dating violence, sexual assault, stalking, and other forms of violence against women. VAWA changed the legal landscape, creating new criminal and civil enforcement tools for holding perpetrators accountable and for offering victims access to safety and justice.
