Women's Property Rights HIV and AIDS & Domestic Violence - Human Sciences Research Council 2008
Revealing how women in many developing countries do not have the right to own or inherit property, this monograph clarifies the role of tenure security in protecting against and mitigating the effects of HIV amongst women and domestic violence. Exploring these linkages in Amajuba, South Africa, and Iganga, Uganda, this qualitative work based on peer-reviewed scientific studies and personal interviews with native women argues that property ownership, while not easily linked to women's ability to prevent HIV infection, can nonetheless mitigate the impact of AIDS and enhance a woman's ability to leave a violent situation. An invaluable resource for policymakers, western donors, nongovernmental organization workers, and academics, this analysis details the current land reform efforts as well as HIV/AIDS and domestic-violence policies in both countries, in Africa as a whole, and beyond.

Target - Edward Doney 2013-02

It is Sunday, August 28, 2016, two weeks before the fifteenth anniversary of 9/11. Events occurring during these two weeks will determine whether this anniversary day will usher in a world at peace or a world at war. Al Qaeda has a nuclear weapon and intends to detonate it in Oklahoma City—the heartland of America—to prove that they can strike anywhere with impunity, thus making them the legitimate leaders of Islam having the right to enforce their version of God's messages to Muhammad from the Archangel Gabriel, the radical "kill all non-believers" interpretation of the meaning of the Quran. They are certain that striking the heartland in this manner will ensure that no one will ever dare to challenge their authority. Is this belief reality or abject stupidity? If al Qaeda's plan is successful, will it lead instead to vengeance in the form of a nuclear holocaust in the Middle East, the demise of Islam, and genocide for Muslims?

Crying Out for Change - Deepa Narayan-Parker 2000

A multi-country research initiative to understand poverty from the eyes of the poor, the Voices of the Poor project was undertaken to inform the World Bank's activities and the upcoming World Development Report 2000/01. The research findings are being published in three books: "Can Anyone Hear Us?" gathers the voices of over 40,000 poor women and men in 50 countries from the World Bank's participatory poverty assessments (Deepa Narayan, Raj Patel, Kai Schafft, Anne Rademacher, and Sarah Koch-Schulte, authors). "Crying Out for Change" pulls together new field work conducted in 1999 in 23 countries (Deepa Narayan, Robert Chambers, Meera Shah, and Patti Petesch, authors). "From Many Lands" offers regional patterns and country case-studies (Deepa Narayan and Patti Petesch, editors). Voices of the Poor marks the first time such an exercise has been undertaken in so many developing countries and transition economies around the world. It provides a unique and detailed picture of the life of the poor and explains the constraints poor people face to escape from poverty in a way that more traditional survey techniques do not capture well. Each of the three volumes demonstrates the importance of voice and power in poor people's definition of poverty. Voices of the Poor concludes that we need to expand our conventional views of poverty which focus on income expenditure, education, and health to include measures of voice and empowerment.

Pearl Harbor - Homer N. Wallin 2001-09

Pearl Harbor will long stand out in mens minds as an example of the results of basic unpreparedness of a peace loving nation, of highly efficient treacherous surprise attack and of the resulting unification of America into a single tidal wave of purpose to victory. Therefore, all will be interested in this unique narrative by Admiral Wallin. The Navy has long needed a succinct account of the salvage operations at Pearl Harbor that miraculously resurrected what appeared to be a forever shattered fleet. Admiral Wallin agreed to undertake the job. He was exactly the right man for it _ in talent, in perception, and in experience. He had served intimately with Admiral Nimitz and with Admiral Halsey in the South Pacific, has commanded three different Navy Yards, and was a highly successful Chief of the Bureau of Ships. On 7 December 1941 the then Captain Wallin was serving at Pearl Harbor. He witnessed the events of that shattering and unifying "Day of Infamy." His mind began to race at high speeds at once on the problems and means of getting the broken fleet back into service for its giant task. Unless the United States regained control of the sea, even greater disaster loomed. Without victory at sea, tyranny soon would surely rule all Asia and Europe. In a matter of time it would surely rule the Americas. Captain Wallin salvaged most of the broken Pearl Harbor fleet that went on to figure prominently in the United States Navys victory. So the account he masterfully tells covers what he masterfully accomplished. The United States owes him an unpayable debt for this high service among many others in his long career.

The Unfolding God of Jung and Milton - James P. Driscoll 2021-10-21

In this first extensive Jungian treatment of Milton's major poems, James P. Driscoll uses archetypal psychology to explore Milton's great themes of God, man, woman, and evil and offers readers deepened understanding of Jung's profound thoughts on Godhead. The Father, the Son, Satan, Messiah, Samson, Adam, and Eve gain new dimensions of meaning as their stories become epiphanies of the archetypes of Godhead. God and Satan of Paradise Lost are seen as the ego and the shadow of a single unfolding personality whose anima is the Holy Spirit and Milton's muse. Samson carries the Yahweh archetype examined by Jung in Answer to Job, and Messiah and Satan in Paradise Regained embody the hostile brothers archetype. Anima, animus and the individuation drive underlie the psychodynamics of Adam and Eve's fall. Driscoll draws on his critical acumen and scholarly knowledge of Renaissance literature to shed new light on Jung's psychology of religion. The Unfolding God of Jung and Milton illumines Jung's heterodox notion of Godhead as a quaternity rather than a trinity, his revolutionary concept of a divine individuation process, his radical solution to the problem of evil, and his wrestling with the feminine in Godhead. The book's glossary of Jungian terms, written for literary critics and theologians rather than clinicians, is exceptionally detailed and insightful. Beyond enriching our understanding of Jung and Milton, Driscoll's discussion contributes to theodicy, to process theology, and to the study of myths and archetypes in literature.
