The Acoustic Mirror - Kaja Silverman 1988-04-22

"... a vitally new understanding that takes us from the terms of the representation of sexual difference to an anatomy of female subjectivity which will be widely influential." -- Stephen Heath "An original work likely to have significant impact on all those with an interest in the vibrant intersection of feminism, film theory, and psychoanalysis..." -- Naomi Schor "... powerfully argued study... impressive..." -- Choice "... important because of its innovative work on Hollywood's ideologically-charged construction of subjectivity.... what is exciting about The Acoustic Mirror is that it inspires one to reevaluate a number of now classical theoretical texts, and to see films with an eye to how authorship is constructed and subjectivity is generated." -- Literature and Psychology "As evocative as it is shrewdly systematic, the pioneering theory of female subjectivity formulated in the final three chapters will have wide impact as a major contribution to feminist theory." -- SubStance The Acoustic Mirror attempts to do for the sound-track what feminist film theory of the past decade has done for the image-track -- to locate the points at which it is productive of sexual difference. The specific focus is the female voice understood not merely as spoken dialogue, narration, and commentary, but as a fantasmatic projection, and as a metaphor for authorship.

The Art Of Seduction - Robert Greene 2010-09-03

Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of

Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of *The 48 Laws of Power*, *Mastery*, and *The 33 Strategies Of War*.

Willing Victim - Cara McKenna 2016-07-08

For the past couple years Laurel's been coasting, hiding in the backseat while her life drifts off course. Then one summer afternoon a tall, built bruiser named Flynn strides in and steers her straight into an infatuation she never saw coming. Flynn introduces Laurel to things she's never imagined before-to the violent but exciting realm of the underground boxing circuit, to rough sex and even rougher role-playing, and to an attraction she craves even as it intimidates her. As Flynn invites her deeper into his world and his life, Laurel has to make a choice-let fear keep her holed up where it's safe, or take a chance and fight for the man who makes her feel more alive than she'd dreamed possible.

Looker - Laura Sims 2021-03-30

In this taut and thrilling debut, an unraveling woman, unhappily childless and recently separated, becomes fixated on her neighbor--the beautiful, famous actress. The unnamed narrator can't help noticing with wry irony that, though she and the actress live just a few doors apart, they are separated by a chasm of professional success and personal fulfillment. When an interaction with the actress at the annual block party takes a disastrous turn, what began as an innocent preoccupation spirals quickly, and lethally, into a frightening and irretrievable madness.

An Untamed State - Roxane Gay 2015-01-08

Mireille Duval Jameson is living a fairy tale. The strong-willed youngest daughter of one of Haiti's richest sons, she has an adoring husband, a precocious infant son, by all appearances a perfect life. The fairy tale ends one day when Mireille is kidnapped in broad daylight by a gang of heavily armed men, in front of her father's Port au Prince estate. Held captive by a man who calls himself The Commander, Mireille waits for her father to pay her ransom. As it becomes clear her father intends to

resist the kidnapers, Mireille must endure the torments of a man who resents everything she represents. An Untamed State is a novel of privilege in the face of crushing poverty, and of the lawless anger that corrupt governments produce. It is the story of a wilful woman attempting to find her way back to the person she once was, and of how redemption is found in the most unexpected of places. An Untamed State establishes Roxane Gay as a writer of prodigious, arresting talent.

The Optical Unconscious - Rosalind E. Krauss 1994-07-25

The Optical Unconscious is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of "vision itself." And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The Optical Unconscious will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about "smart Jewish girls with their typewriters" in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball.

Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as "Anti-Form." These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

Watching the English - Kate Fox 2005-04-11

In "Watching The English" anthropologist Kate Fox takes a revealing look at the quirks, habits and foibles of the English people. She puts the English national character under her anthropological microscope, and finds a strange and fascinating culture, governed by complex sets of unspoken rules and byzantine codes of behaviour. The rules of weather-speak. The ironic-gnome rule. The reflex apology rule. The paranoid-pantomime rule. Class indicators and class anxiety tests. The money-talk taboo and many more ... Through a mixture of anthropological analysis and her own unorthodox experiments (using herself as a reluctant guinea-pig), Kate Fox discovers what these unwritten behaviour codes tell us about Englishness.

Chartwell Manor - Glenn Head 2021-05-25

No one asks for the childhood they get, and no child ever deserved to go to Chartwell Manor. For Glenn Head, his two years spent at the now-defunct Mendham, NJ, boarding school — run by a serial sexual and emotional abuser of young boys in the early 1970s — left emotional scars in ways that he continues to process. This graphic memoir — a book almost 50 years in the making — tells the story of that experience, and then delves with even greater detail into the reverberations of that experience in adulthood, including addiction and other self-destructive behavior. Head tells his story with unsparing honesty, depicting himself as a deeply flawed human struggling to make sense of the childhood he was given.

Fairy Tale Films - Pauline Greenhill 2010-08-06

In this, the first collection of essays to address the development of fairy tale film as a genre, Pauline Greenhill and Sidney Eve Matrix stress, "the mirror of fairy-tale film reflects not so much what its audience members actually are but how they see themselves and their potential to develop (or, likewise, to regress)." As Jack Zipes says further in the foreword, "Folk and fairy tales pervade our lives constantly through television soap operas and commercials, in comic books and cartoons, in school plays and storytelling performances, in our superstitions and prayers for miracles, and in our dreams and daydreams. The artistic re-creations of fairy-tale plots and characters in film—the parodies, the aesthetic experimentation, and the mixing of genres to engender new insights into art and life—mirror possibilities of estranging ourselves from designated roles, along with the conventional patterns of the classical tales." Here, scholars from film, folklore, and cultural studies move discussion beyond the well-known Disney movies to the many other filmic adaptations of fairy tales and to the widespread use of fairy tale tropes, themes, and motifs in cinema.

Folk Devils and Moral Panics - Stanley Cohen 2011

'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, Folk Devils and Moral Panics is essential reading for anyone wanting to understand this powerful and enduring phenomenon.

Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

The Woman in the Window - A. J Finn 2021-06

Evictions - Rosalyn Deutsche 1996

Since the 1980s a great deal has been written about the relationship between art, architecture, and design, on the one hand, and the city or social space on the other. In *Evictions* Rosalyn Deutsche investigates the dominant uses of this interdisciplinary discourse, exploring topics that range from public art and homelessness to the repression of feminism in critical theories of public space. The book also intervenes in debates taking place in art, architecture, and urban studies about the meaning of public space, and places these struggles within broader contests over the definition of democracy. Opposing the nostalgic belief that democracy's survival demands a return to the ideal of a unitary public sphere, Deutsche contends that plurality and conflict, far from undermining public space, are the conditions of its possibility and extension.

Cycling and Cinema - Bruce Bennett 2019-04-30

A unique exploration of the history of the bicycle in cinema, from Hollywood blockbusters and slapstick comedies to documentaries, realist dramas, and experimental films. *Cycling and Cinema* explores the history of the bicycle in cinema from the late nineteenth century through to the present day. In this new book from Goldsmiths Press, Bruce Bennett examines a wide variety of films from around the world, ranging from

Hollywood blockbusters and slapstick comedies to documentaries, realist dramas, and experimental films, to consider the complex, shifting cultural significance of the bicycle. The bicycle is an everyday technology, but in examining the ways in which bicycles are used in films, Bennett reveals the rich social and cultural importance of this apparently unremarkable machine. The cinematic bicycles discussed in this book have various functions. They are the source of absurd comedy in silent films, and the vehicles that allow their owners to work in sports films and social realist cinema. They are a means of independence and escape for children in melodramas and kids' films, and the tools that offer political agency and freedom to women, as depicted in films from around the world. In recounting the cinematic history of the bicycle, Bennett reminds us that this machine is not just a practical means of transport or a child's toy, but the vehicle for a wide range of meanings concerning individual identity, social class, nationhood and belonging, family, gender, and sexuality and pleasure. As this book shows, two hundred years on from its invention, the bicycle is a revolutionary technology that retains the power to transform the world.
