Structures or Why things don't fall down J. Gordon 2012-12-06 I am very much aware that it is an act of extreme rashness to attempt to write an elementary book about structures. Indeed it is only when the subject is stripped of its mathematics that one begins to realize how difficult it is to pin down and describe those structural concepts which are often called 'elementary'; by which I suppose we mean 'basic' or 'fundamental'. Some of the omissions and oversimplifications are intentional but no doubt some of them are due to my own brute ignorance and lack of understanding of the subject. Although this volume is more or less a sequel to The New Science of Strong Materials it can be read as an entirely separate book in its own right. For this reason a certain amount of repetition has been unavoidable in the earlier chapters. I have to thank a great many people for factual information, suggestions and for stimulating and sometimes heated discussions. Among the living, my colleagues at Reading University have been generous with help, notably Professor W. D. Biggs (Professor of Building Technology), Dr Richard Chaplin, Dr Giorgio Jeronimidis, Dr Julian Vincent and Dr Henry Blyth; Professor Anthony Flew, Professor of Philosophy, made useful suggestions about the last chapter. I am also grateful to Mr John Bartlett, Consultant Neurosurgeon at the Brook Hospital. Professor T. P. Hughes of the University of the West Indies has been helpful about rockets and many other things besides. My secretary, Mrs Jean Collins, was a great help in times of trouble. Mrs Nethercot of Vogue was kind to me about dressmaking. Mr Gerald Leach and also many of the editorial staff of Penguins have exercised their accustomed patience and helpfulness. Among the dead, I owe a great deal to Dr Mark Pryor - lately of Trinity College, Cambridge - especially for discussions about biomechanics which extended over a period of nearly thirty years. Lastly, for reasons which must surely be obvious, I owe a humble oblation to Herodotus, once a citizen of Halicarnassus.

National Guide to a Preventive Health Assessment for Aboriginal and Torres Strait Islander People 2018 This third edition continues that tradition and has new topics drawn from advice we received from Aboriginal Community Controlled Health Services and users of the National Guide. Our user survey resulted in 554 responses from general practitioners (GPs) and other healthcare providers across Australia. With this feedback, we were able to commission authors with expertise on topics such as child health and wellbeing and fetal alcohol spectrum disorder, as well as on other topics important to Aboriginal and Torres Strait Islander peoples. All the revised chapters were sent to external experts and relevant peak bodies across Australia. The support we have received in developing this National Guide has been phenomenal.

Imagining Extinction Ursula K. Heise 2016-08-10 As the extinction of species accelerates and more species become endangered, activists, filmmakers, writers, and artists have responded to bring this global crisis to the attention of the public. Until now, there has been no study of the frameworks that shape these narratives and images, or of the symbolic meanings that the death of species carries in different cultural communities. Ursula Heise makes the case that understanding how and why endangered species come to matter culturally is indispensable for any effective advocacy on their behalf. Heise begins by showing that the tools of conservation science and law need to be viewed as cultural artifacts: biodiversity databases and laws for the protection of threatened species use rhetorical and cultural resources that open up different approaches to the problem of understanding global wildlife. The second half of her book explores ways of envisioning alternative futures for biodiversity. The narrative of nature's decline or even imminent disappearance has been a successful rallying trope for those skeptical of modernization and ideologies of progress. But environmentalists' nostalgia for the past and pessimistic outlook on the future have also alienated parts of the public. Heise tells the story of environmental activists, writers, and scientists who are creating new stories to guide the environmental imagination."

Ecology Michael Begon 2020-11-11 A definitive guide to the depth and breadth of the ecological sciences, revised and updated The revised and updated fifth edition of *Ecology: From Individuals to Ecosystems* - now in full colour - offers students and practitioners a review of the ecological sciences. The previous editions of this book earned the authors the prestigious 'Exceptional Life-time Achievement Award' of the British Ecological Society - the aim for the fifth edition is not only to maintain standards but indeed to enhance its coverage of Ecology. In the first edition, 34 years ago, it seemed acceptable for ecologists to hold a comfortable, objective, not to say aloof position, from which the ecological communities around us were simply material for which we sought a scientific understanding. Now, we must accept the immediacy of the many environmental problems that threaten us and the responsibility of ecologists to play their full part in addressing these problems. This fifth edition addresses this challenge, with

several chapters devoted entirely to applied topics, and examples of how ecological principles have been applied to problems facing us highlighted throughout the remaining nineteen chapters. Nonetheless, the authors remain wedded to the belief that environmental action can only ever be as sound as the ecological principles on which it is based. Hence, while trying harder than ever to help improve preparedness for addressing the environmental problems of the years ahead, the book remains, in its essence, an exposition of the science of ecology. This new edition incorporates the results from more than a thousand recent studies into a fully up-to-date text. Written for students of ecology, researchers and practitioners, the fifth edition of *Ecology: From Individuals to Ecosystems* is an essential reference to all aspects of ecology and addresses environmental problems of the future.

College communities abroad Liam Chambers 2017-11-16 This book repositions early modern Catholic abroad colleges in their interconnected regional, national and transnational contexts. From the sixteenth century, Irish, English and Scots Catholics founded more than fifty colleges in France, Flanders, Spain, Portugal, the Papal States and the Habsburg Empire. At the same time, Catholics in the Dutch Republic, the Scandinavian states and the Ottoman Empire faced comparable challenges and created similar institutions. Until their decline in the late-eighteenth century, tens of thousands of students passed through the colleges. Traditionally, these institutions were treated within limiting denominational and national contexts. This collection, at once building on and transcending inherited historiographies, explores the colleges' institutional interconnectivity and their interlocking roles as instruments of regional communities, dynastic interests and international Catholicism.

The Source James A. Michener 2013-11-26 In his signature style of grand storytelling, James A. Michener transports us back thousands of years to the Holy Land. Through the discoveries of modern archaeologists excavating the site of Tell Makor, Michener vividly re-creates life in an ancient city and traces the profound history of the Jewish people—from the persecution of the early Hebrews, the rise of Christianity, and the Crusades to the founding of Israel and the modern conflict in the Middle East. An epic tale of love, strength, and faith, *The Source* is a richly written saga that encompasses the history of Western civilization and the great religious and cultural ideas that have shaped our world. BONUS: This edition includes an excerpt from James A. Michener's *Hawaii*. Praise for *The Source* “Fascinating . . . stunning . . . [a] wonderful rampage through history . . . Biblical history, as seen through the eyes of a professor who is puzzled, appalled, delighted, enriched and impoverished by the spectacle of a land where all men are archeologists.”—*The New York Times* “A sweeping [novel] filled with excitement—pagan ritual, the clash of armies, ancient and modern: the evolving drama of man’s faith.”—*The Philadelphia Inquirer* “Magnificent . . . a superlative piece of writing both in scope and technique . . . one of the great books of this generation.”—*San Francisco Call Bulletin*

From Here to Eternity Caitlin Doughty 2017-10-03 As a practising mortician, Caitlin Doughty has long been fascinated by our pervasive terror of dead bodies. In *From Here to Eternity* she sets out in search of cultures unburdened by such fears. With curiosity and morbid humour, Doughty introduces us to inspiring death-care innovators, participates in powerful death practices almost entirely unknown in the West and explores new spaces for mourning - including a futuristic glowing-Buddha columbarium in Japan, a candlelit Mexican cemetery, and America's only open-air pyre. In doing so she expands our sense of what it means to treat the dead with 'dignity' and reveals unexpected possibilities for our own death rituals.

Smoke Gets in Your Eyes Caitlin Doughty 2015-04-16 THE NEW YORK TIMES BESTSELLER 'Unforgettable . . . a hilarious, poignant and impassioned plea to revolutionise our attitudes to death' Gavin Francis, Guardian From her first day at Westwind Cremation & Burial, twenty-three-year-old Caitlin Doughty threw herself into her curious new profession. Coming face-to-face with the very thing we go to great lengths to avoid thinking about she started to wonder about the lives of those she cremated and the mourning families they left behind, and found herself confounded by people's erratic reactions to death. Exploring our death rituals - and those of other cultures - she pleads the case for healthier attitudes around death and dying. Full of bizarre encounters, gallows humour and vivid characters (both living and very dead), this illuminating account makes this otherwise terrifying subject inviting and fascinating.

Trap Door Reina Gossett 2017-12-15 Essays, conversations, and archival investigations explore the paradoxes, limitations, and social ramifications of trans representation within contemporary culture. The increasing representation of trans identity throughout art and popular culture in recent years has been nothing if not paradoxical. Trans visibility is touted as a sign of a liberal society, but it has coincided with a political moment marked both by heightened violence against trans people (especially trans women of color) and by the suppression of trans rights under civil law. Trap Door grapples with these contradictions. The essays, conversations, and dossiers gathered here delve into themes as wide-ranging yet interconnected as beauty, performativity, activism, and police brutality. Collectively, they attest to how trans people are frequently offered “doors”—entrances to visibility and recognition—that are actually “traps,” accommodating trans bodies and communities only insofar as they cooperate with dominant norms. The volume speculates about a third term, perhaps uniquely suited for our time: the trapdoor, neither entrance nor exit, but a secret passageway leading elsewhere. Trap Door begins a conversation that extends through and beyond trans culture, showing how these issues have relevance for anyone invested in the ethics of visual culture. Abnormal Michel Foucault 2016-09-01 Three decades after his death, Michel Foucault remains one of the towering intellectual figures of the last half-century. His works on sexuality, madness, the prison, and medicine are enduring classics. From 1971 until his death in 1984, Foucault gave public lectures at the famous Collège de France. These seminal events, attended by thousands, created the benchmarks for contemporary social enquiry. The lectures comprising *Abnormal* begin by examining the role of psychiatry in modern criminal justice, and its method of categorising individuals who "resemble their crime before they commit it." Building on the themes of societal self-defence developed in earlier works, Foucault shows how defining "normality" became a prerogative of power in the nineteenth century, shaping the institutions—from the prisons to the family—meant to deal with "monstrosity," whether sexual, physical, or spiritual. The Collège de France lectures add immeasurably to our appreciation and understanding of Foucault's thought.

Jesus' Family Values Deirdre Good 2006-11 What are Christian family values, why are there so many interpretations of what Jesus actually taught and said, and which biblical values should guide our lives? Many people claim to know what Jesus would say or do in the kinds of ethical dilemmas we face today, but applying "traditional" Christian values out of context actually sells Jesus' teachings short. Through careful attention to the words and stories of Matthew, Luke, Mark, and John, and the letters of Paul, Deirdre Good provides an ideal method for learning what the Bible has to say to our communities and households today.

This Way Back Joanna Eleftheriou 2020 "Going back to her ancestral homeland, a Greek American girl discovers she is a lesbian in love with God, so her questions about home and belonging will not be easily answered. This Way Back dramatizes a childhood split between Queens, New York, and Cyprus, an island nation with a long colonial history and a culture to which Joanna Eleftheriou could never quite adjust. While the author's life binds the essays in This Way Back into what reads like a memoir, the book questions memoir's conventional boundaries between the individual and her community, and between political and personal loss, the human and the environment, and the living and the dead"--

The Mushroom at the End of the World Anna Lowenhaupt Tsing 2021-06-08 "A tale of diversity within our damaged landscapes, The Mushroom at the End of the World follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction."--Publisher's description.

Staying with the Trouble Donna J. Haraway 2016-08-19 In the midst of spiraling ecological devastation, multispecies feminist theorist Donna J. Haraway offers provocative new ways to reconfigure our relations to the earth and all its inhabitants. She eschews referring to our current epoch as the Anthropocene, preferring to conceptualize it as what she calls the Chthulucene, as it more aptly and fully describes our epoch as one in which the human and nonhuman are inextricably linked in tentacular practices. The Chthulucene, Haraway explains, requires sym-poiesis, or making-with, rather than auto-poiesis, or self-making. Learning to stay with the trouble of living and dying together on a damaged earth will prove more conducive to the kind of thinking that would provide the means to building more livable futures. Theoretically and methodologically driven by the signifier SF—string figures, science fact, science fiction, speculative feminism, speculative fabulation, so far—Staying with the Trouble further cements Haraway's reputation as one of the most daring and original thinkers of our time.

The Second Sex Simone de Beauvoir 1997 Of all the writing that emerged from the existentialist movement, Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact. It is at once a work of anthropology and sociology, of biology and psychoanalysis, from the pen of a writer and novelist of penetrating imaginative power. THE SECOND SEX stands, five decades after its first appearance, as the first landmark in the modern feminist upsurge that has transformed perceptions of the social relationship of man and womankind in our time

The 1619 Project Nikole Hannah-Jones 2021-11-16 #1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD WINNER • A dramatic expansion of a groundbreaking work of journalism, *The 1619 Project: A New Origin Story* offers a profoundly revealing vision of the American past and present. FINALIST FOR THE KIRKUS PRIZE • ONE OF THE BEST BOOKS OF THE YEAR: *The Washington Post*, NPR, *Esquire*, *Marie Claire*, *Electric Lit*, *Ms. magazine*, *Kirkus Reviews*, *Booklist* In late August 1619, a ship arrived in the British colony of Virginia bearing a cargo of twenty to thirty enslaved people from Africa. Their arrival led to the barbaric and unprecedented system of American chattel slavery that would last for the next 250 years. This is sometimes referred to as the country's original sin, but it is more than that: It is the source of so much that still defines the United States. The *New York Times Magazine's* award-winning 1619 Project issue reframed our understanding of American history by placing slavery and its continuing legacy at the center of our national narrative. This book substantially expands on that work, weaving together eighteen essays that explore the legacy of slavery in present-day America with thirty-six poems and works of fiction that illuminate key moments of oppression, struggle, and resistance. The essays show how the inheritance of 1619 reaches into every part of contemporary American society, from politics, music, diet, traffic, and citizenship to capitalism, religion, and our democracy itself. This book that speaks directly to our current moment, contextualizing the systems of race and caste within which we operate today. It reveals long-glossed-over truths around our nation's founding and construction—and the way that the legacy of slavery did not end with emancipation, but continues to shape contemporary American life. How to Kill a Dragon Calvert Watkins 1995 In *How to Kill a Dragon* Calvert Watkins follows the continuum of poetic formulae in Indo-European languages, from Old Hittite to medieval Irish. He uses the comparative method to reconstruct traditional poetic formulae of considerable complexity that stretch as far back as the original common language. Thus, Watkins reveals the antiquity and tenacity of the Indo-European poetic tradition. Watkins begins this study with an introduction to the field of comparative Indo-European poetics; he explores the Saussurian notions of synchrony and diachrony, and locates the various Indo-European traditions and ideologies of the spoken word. Further, his overview presents case studies on the forms of verbal art, with selected texts drawn from Indic, Iranian, Greek, Latin, Hittite, Armenian, Celtic, and Germanic languages. In the remainder of the book, Watkins examines in detail the structure of the dragon/serpent-slaying myths, which recur in various guises throughout the Indo-European poetic tradition. He finds the "signature" formula for the myth--the divine hero who slays the serpent or overcomes adversaries--occurs in the same linguistic form in a wide range of sources and over millennia, including Old and Middle Iranian holy books, Greek epic, Celtic and Germanic sagas, down to Armenian oral folk epic of the last century. Watkins argues that this formula is the vehicle for the central theme of a proto-text, and a central part of the symbolic culture of speakers of the Proto-Indo-European language: the relation of humans to their universe, the values and expectations of their society. Therefore, he further argues, poetry was a social necessity for Indo-European society, where the poet could confer on patrons what they and their culture valued above all else: "imperishable fame."

Weekly's Best Fiction Books of 2014 ** NPR Best Books of 2014 ** Kirkus Reviews Best Literary Fiction Books of 2014 ** Washington Post Top 50 Fiction Books of 2014 ** Boston Globe's Best Fiction of 2014 ** The Telegraph's Best Fiction to Read 2014 ** St. Louis Post Dispatch's Best Books of 2014 ** The Independent Fiction Books of the Year 2014 ** One of Buzzfeed's Best Books Written by Women in 2014 ** San Francisco Chronicle's Best of 2014 ** A Nancy Pearl Pick ** PopMatters.com's Best of 2014 Fiction Winner of the 2014 LA Times Book Prize for Fiction Finalist for the 2014 Kirkus Prize Hailed by The Washington Post as "Siri Hustvedt's best novel yet, an electrifying work," *The Blazing World* is a masterful novel about perception, prejudice, desire, and one woman's struggle to be seen. In a new novel called "searingly fresh... A Nabokovian cat's cradle" on the cover of The New York Times Book Review, the internationally bestselling author tells the provocative story of artist Harriet Burden, who, after years of having her work ignored, ignites an explosive scandal in New York's art world when she recruits three young men to present her creations as their own. Yet when the shows succeed and Burden steps forward for her triumphant reveal, she is betrayed by the third man, Rune. Many critics side with him, and Burden and Rune find themselves in a charged and dangerous game, one that ends in his bizarre death. An intricately conceived, diabolical puzzle presented as a collection of texts, including Harriet's journals, assembled after her death, this "glorious mashup of storytelling and scholarship" (San Francisco Chronicle) unfolds from multiple perspectives as Harriet's critics, fans, family, and others offer their own conflicting opinions of where the truth lies. Writing in Slate, Katie Roiphe declared it "a spectacularly good read...feminism in the tradition of Simone de Beauvoir's *The Second Sex* or Virginia Woolf's *A Room of One's Own*: richly complex, densely psychological, dazzlingly nuanced." "Astonishing, harrowing, and utterly, completely engrossing" (NPR), Hustvedt's new novel is "Blazing indeed:...with agonizing compassion for all of wounded humanity"(Kirkus Reviews, starred review). It is a masterpiece that will be remembered for years to come.

When Scotland Was Jewish Elizabeth Caldwell Hirschman 2015-05-07 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.
