Making Gender - Michelle Wyndham-West 2023-08-31

Making Gender endeavours to understand how the HPV vaccine became gendered within the Canadian policy landscape - when the virus is gender blind and is linked to cancer in all genders - and how women's experiences with this "gendered risk" have been folded into their vaccine decision-making. Drawing on ethnographic fieldwork and archival research, Michelle Wyndham-West explores the creation and circulation of gendered risk as it was deployed in pharmaceutical and policy discourses surrounding the roll-out of the HPV vaccine. The book contextualizes the background for how gendered risk was mediated by two groups of women: mothers negotiating the vaccine for their daughters in school-based immunization programs and university students who experienced frequent HPV infections. The book explores these women's efforts to be good mothers and strong young women entering adulthood who felt vulnerable in sexual health negotiation. As a result, Making Gender reveals how vaccine decision-making took an ontological form, as an inherently social and cultural process embedded in women's experiences.

[The Cancer Within](#) - Cristina A. Pop 2022-05-13

The Cancer Within examines cervical cancer in Romania as a point of

entry into an anthropological reflection on contemporary health care. Cervical cancer prevention reveals the inner workings of emerging post-communist medicine, which aligns the state and the market, public and private health care providers, policy makers, and ordinary women. Fashioned by patriarchal relations, lived religion, and the historical trauma of pronatalism, Romanian women's responses to reproductive medicine and cervical cancer prevention are complicated by neoliberal reforms to medical care. Cervical cancer prevention - and especially the HPV vaccination - provided Romanians a legitimate instance to express their conflicting views of post-communist medicine. What sets Romania apart is that pronatalism, patriarchy, lived religion, medical reforms, and moral contestation of preventive medicine bring into line systemic contingencies that expose the historical, social, and cultural trajectories of cervical cancer.

[Vaccine Court](#) - Anna Kirkland 2016-12-27

Introduction : our immunization social order -- How are vaccines political? -- The solution of the vaccine court -- Health and rights in the vaccine-critical movement -- Knowing vaccine injury through law -- What counts as evidence? -- The autism showdown -- Conclusion : the epistemic politics of the vaccine court.

[Pocket Book of Hospital Care for Children](#) - World Health Organization 2013

The Pocket Book is for use by doctors nurses and other health workers who are responsible for the care of young children at the first level referral hospitals. This second edition is based on evidence from several WHO updated and published clinical guidelines. It is for use in both inpatient and outpatient care in small hospitals with basic laboratory facilities and essential medicines. In some settings these guidelines can be used in any facilities where sick children are admitted for inpatient care. The Pocket Book is one of a series of documents and tools that support the Integrated Management.

Revelation - 1999-01-01

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Digital Health Solutions to HPV Vaccination - Suellen Hopfer
2022-09-20

Vaccines - Paul A. Offit 2003-05-13

Get the straight facts about vaccines and make informed choices Do you wonder whether vaccines are safe and whether they are all really necessary? This completely revised and updated edition of the classic *Vaccines: What You Should Know* helps you sort through the latest information about vaccines in order to determine what is right for your family. Coauthored by Paul Offit, a member of the CDC advisory committee that determines which vaccines are recommended for use in the United States, this guide tells you what vaccines are made of and clearly explains how they are made, how they work, and the risks associated with them. This updated edition includes recommendations for the smallpox vaccine, the latest information on vaccines for travelers, and the latest on the progress of combination vaccines. Expanded information on vaccine safety includes discussion of vaccines and autism,

mercury in vaccines, and the ability of children to tolerate numerous vaccines at once.

The Routledge Handbook of Discourse and Disinformation - Stefania M. Maci 2023-11-30

This handbook offers a comprehensive overview of research into discourses of disinformation, misinformation, post-truth, alternative facts, hate speech, conspiracy theories, and "fake news". Divided into two sections, it provides a detailed look at the methodological challenges and approaches for studying disinformation, along with a wide range of case studies covering everything from climate change denial to COVID-19 conspiracies. The studies address how discourses of disinformation are constructed and developed, what rhetorical and persuasive strategies they employ, how disinformation can be discerned from real news, and what steps we might take in order to create a more trustworthy news environment. Authored by leading experts from around the world, and showcasing the most up-to-date methodological approaches to the topic, the volume makes a significant contribution to current linguistic research on politics, and is an essential guide to the discourses of disinformation for advanced students and researchers of English language studies, linguistics, and media and communication studies.

Maternal Immunization - Elke Leuridan 2019-11-26

Immunization during pregnancy with currently recommended vaccines prevents infection in the mother, the unborn fetus, and the young infant, and there is an increasing focus from different stakeholders to use this approach for other infections of importance to protect these vulnerable groups. The aim of this *Maternal Immunization* book is to provide a contemporary overview of vaccines used in pregnancy (and the lactation period), with emphasis on aspects of importance for the target groups, namely, rationale for the use of vaccines in pregnancy, safety, immunogenicity (immunology), timing to vaccinate, repeat doses, protective effects in the mother, fetus, and infant, and public acceptance and implementation, of existing and of future vaccines. Provides an overview of a quickly evolving topic. This will benefit the reader who

wishes to rapidly become informed and up-to-date with new developments in this field Suitable to a broad audience: scientific researchers, obstetricians, gynecologists, neonatologists, vaccinators, pediatricians, students, and industry. Maternal vaccination impacts a wide range of specialists Allows health care professionals/researchers to gain insight into other aspects of vaccination in pregnancy outside of their specialism Is coauthored by specialists from multiple disciplines, providing a diverse view of the subject, increasing its interest and appeal Creates awareness of the current developments in this area of medicine and of the potential of maternal vaccination to improve the health of mothers and infants worldwide

The Mother of All Parenting Books - Ann Douglas 2004-04-26

YOUR CHILD'S GROWING UP! From preschool to the preteens, raising your boy or girl is an exhilarating, challenging time. The Mother of All Parenting Books is a comforting instruction manual for the day-to-day adventures that await you. Packed with practical strategies, handy checklists, and parent-tested advice, this comprehensive, down-to-earth guide is a breath of fresh air for moms and dads, empowering you to choose a parenting that works best for you and your children. Warm and entertaining, The Mother of All Parenting Books provides an authoritative yet non-bossy approach to everything from discipline and sibling rivalry to teaching values, encouraging academic success, and promoting effective communication. Inside you'll find the straight facts about difficult subjects, such as spanking, bullying, raising children with special needs, and parent burnout. You also get a first-aid guide, a directory of key parenting organizations, and the answers to all your medical questions, vetted by a panel of health authorities. Plus, this book features nitty-gritty, from-the-trenches wisdom from other parents-the only ones who truly understand what it's like to be in your shoes! Concise, dependable, and wonderfully reassuring, The Mother of All Parenting Books will help you guide your child through these roller coaster years-and raise a happy, healthy family! Advance Praise for The Mother of All Parenting Books "This book has all the answers that are missing from other parenting books! It's honest, complete, well-

researched . . . and not preachy." -Dr. Cathryn Tobin, author of The Parent's Problem Solver

CDC Yellow Book 2018: Health Information for International Travel - Gary W. Brunette 2017

An up-to-date, definitive guide to staying safe and healthy anywhere in the world. Completely updated for 2018 with expanded guidelines for Zika virus, cholera vaccine, and more.

Epidemiology and Prevention of Vaccine-Preventable Diseases, 13th Edition E-Book - Jennifer Hamborsky, MPH, MCHES 2015-10-19
The Public Health Foundation (PHF) in partnership with the Centers for Disease Control and Prevention (CDC) is pleased to announce the availability of Epidemiology and Prevention of Vaccine-Preventable Diseases, 13th Edition or "The Pink Book" E-Book. This resource provides the most current, comprehensive, and credible information on vaccine-preventable diseases, and contains updated content on immunization and vaccine information for public health practitioners, healthcare providers, health educators, pharmacists, nurses, and others involved in administering vaccines. "The Pink Book E-Book" allows you, your staff, and others to have quick access to features such as keyword search and chapter links. Online schedules and sources can also be accessed directly through e-readers with internet access. Current, credible, and comprehensive, "The Pink Book E-Book" contains information on each vaccine-preventable disease and delivers immunization providers with the latest information on: Principles of vaccination General recommendations on immunization Vaccine safety Child/adult immunization schedules International vaccines/Foreign language terms Vaccination data and statistics The E-Book format contains all of the information and updates that are in the print version, including: · New vaccine administration chapter · New recommendations regarding selection of storage units and temperature monitoring tools · New recommendations for vaccine transport · Updated information on available influenza vaccine products · Use of Tdap in pregnancy · Use of Tdap in persons 65 years of age or older · Use of PCV13 and PPSV23 in adults with immunocompromising conditions · New licensure information

for varicella-zoster immune globulin Contact bookstore@phf.org for more information. For more news and specials on immunization and vaccines visit the Pink Book's Facebook fan page

The Immortal Life of Henrietta Lacks - Rebecca Skloot 2010

Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor black tobacco farmer who worked the same land as her slave ancestors yet her cells - taken without her knowledge - become one of the most important tools in modern medicine.

Vaccinophobia and Vaccine Controversies of the 21st Century - Archana Chatterjee 2013-06-25

Vaccinophobia and Vaccine Controversies of the 21st Century Archana Chatterjee, editor Once hailed as a medical miracle, vaccination has come under attack from multiple fronts, including occasionally from within medicine. And while the rates of adverse reactions remain low, suggestions that vaccines can cause serious illness (and even death) are inspiring parents to refuse routine immunizations for their children--ironically, exposing them and others to potentially serious illness.

Vaccinophobia and Vaccine Controversies of the 21st Century explains clearly how this state of affairs came into being, why it persists, and how healthcare professionals can best respond. Current findings review answers to bedrock questions about known adverse events, what vaccine additives are used for, and real and perceived risks involved in immunization. Perspectives representing pediatricians, family practitioners, nurses, parents, pharmacy professionals, the CDC, and the public health community help the reader sort out legitimate from irrational concerns. In-depth analyses discuss the possibility of links with asthma, cancer, Guillain-Barre syndrome, SIDS, and, of course, autism. Included in the coverage: Communicating vaccine risks and benefits The vaccine misinformation landscape in family medicine Perceived risks

from live viral vaccines The media's role in vaccine misinformation Autoimmunity, allergies, asthma, and a relationship to vaccines Vaccines and autism: the controversy that won't go away The conundrums described here are pertinent to practitioners in pediatrics, family medicine, primary care, and nursing to help families with informed decision making. In addition, Vaccinophobia and Vaccine Controversies of the 21st Century should be read by trainees and researchers in child development and maternal and child health as the book's issues will have an impact on future generations of children and their families.

Super Rabbit - Stephanie Blake 2016-09

The Little Ouch - Katherine Picarde 2020-08-04

When it comes to getting her flu shot, Penelope is NOT amused. It makes her SCARED and NERVOUS and QUEASY and SICK and SWEATY! Will she be able to overcome her fear of The Little Ouch?

Mumps Surveillance - Center for Disease Control 1972

A Shot of Red - Tracy March 2014-04-21

During the launch of Moncure Therapeutics' new flu vaccine, Mia Moncure is rocked by news that the public relations director at her family's company has been found dead in Switzerland. A cryptic video warns her that something is amiss with the vaccine, and convinces Mia that his death wasn't accidental. Determined to expose the killer, Mia heads to Lucerne, where her own life is threatened. Desperate for backup, she turns to Gio Lorenzo, communications director for a high-ranking senator, even though she's still reeling from their one-night stand months before. Mia and Gio race to uncover a deadly scheme that threatens to ruin her family's company. But time is running out. Millions of people are being vaccinated, and any of them could be the next to die.
