Tantra - Val Sampson 2020-08-13

Whether you are in a relationship, whether you are single, gay or straight, or young or old, Tantra will bring a new dimension to your sex life and your relationships. From extending orgasms (or just having them in the first place), to healing sexual problems to developing a sense of spiritual connection, Tantra is for every 'body'. Tantra is not just about being sexy - it's about being alive to your senses. It is particularly appealing to women because it is they who take the lead. Tantra also gives women the opportunity to celebrate their femininity and men are encouraged to revere it. Many women are self-conscious about their bodies - Tantra will help you to be conscious of your body but in a positive and empowering way. And for men the pressure to perform is removed, replaced by reciprocation, connection and ultimate fulfillment

(so no more grunting, turning over and falling asleep).

The Heart of Tantric Sex - Diana Richardson 2010-05-11

After many years of exploration, Diana Richardson found that the ancient practice of Tantra, with its unique, intelligent approach to sex, had the effect of enhancing intimacy and deepening love. Here she has adapted Tantra for modern Western lovers in a practical, sympathetic way. Tantric Sex can transform your experience into a more sensual, loving and fulfilling one.

Slow Sex - Diana Richardson 2011-01-27

A revolutionary practice for couples to enhance sexuality and reach higher states of consciousness • How to make sex a conscious decision, not an accidental encounter • Discusses how slowness increases sensitivity and

Heart Of Tantric Sex A Unique Guide To Love And Sexual Fulfillment

awakens the body's innate mechanism for ecstasy • Reveals how sexuality can be sustainable and enjoyable well into old age While fast, hot, orgasm-driven sex can bring momentary satisfaction, in the long run it can become boring and mechanical, causing many couples to lose interest and stop making time for physical intimacy. The first step to revive a waning sex life or make a healthy one more fulfilling, says author Diana Richardson, is to make sex a conscious decision rather than an accidental encounter. Focusing on eye contact, subtle sensations, and deep breathing, Diana's practice of slow sex awakens the body's innate mechanism for ecstasy, unlocking the door to extraordinary realms of sensitivity, sensuality, and higher consciousness. Exploring the healing, spiritual power of slow sex, this book offers a step-by-step guide for committed couples to transform sex into a meditative, loving union of complementary energies. It explains how slow sex increases sensitivity and sexual vitality and

how, because it creates and restores love, slow sex is loving sex. With a focus on coolness rather than heat, this practice provides couples a way to reach a shared meditative state and use it as a vehicle to achieve higher consciousness.

Illustrating different positions for eye contact, deep sustained penetration, and soft penetration, this book reveals that sex truly can be sustainable and enjoyable well into old age.

Tantric Sex - Lauren Richardson 2020-11-02
Areyou looking for a guide to start practicing tantric sex? Then keep reading... A typical fantasy sex scene is conjured up in the mind. The setting is perfect; soft lighting, light aromas. A man may be muscle-bound, physically strong, tall and handsome, incredibly romantic, and a woman may be aesthetically beautiful, slim with perky breasts, smooth skin, and soft hair, wet and waiting. The sex itself is spontaneous and powerful. He bursts through the door and she is waiting for him in nothing but one of his work shirts. He gingerly picks her up by the waist and

Heart Of Tantric Sex A Unique Guide To Love And Sexual Fulfillment

she wraps her legs around him as he carries her to the bedroom to make love to her for hours, but they are so impassioned that they don't make it -- and wind up ripping into each other on the staircase on the way up. A typical run-of-the-mill sex scenario between a long-term married couple may be that one partner is stressed from a long day at work and wants to get some sexual release before heading to bed, while the other would rather just read their book in peace, go to sleep unbothered and worry about sex some other time when they are in the mood. In order to avoid conflict and disappointment, one partner gives in to the others desires and the same old sex takes place in the same old bed underneath the same old covers in the same old boring positions; eyes closed and lights off... boring! When sex becomes too boring and too routine, rather than being aroused and looking forward to pleasing and being pleased, people "give up". They wonder how much longer they have to engage in foreplay before it is okay to

get to the orgasm. Sometimes people also take issues from outside the bedroom into it, maybe thinking "I'm still mad at him/her from earlier, why on Earth would I give sexual pleasure right now"? Sometimes other insecurities and issues can come into play as well. Maybe there is a problem with premature ejaculation so the other partner rarely reaches their peak, and the focus is just on "getting the job done" so they can move on to other more interesting and engaging activities (like sleep)! Either way, if the sex exists at all, it is brief, goal (orgasm) oriented and is over as quickly as possible. You will find some of the tips on Tantric Sex in the chapters of this book that include: Understanding what tantric philosophy is Meaning of love and sex for Tantra philosophy - intimacy Divine sex in Hinduism Advantages and differences with traditional sex How best to prepare your mind and body for tantric sex using techniques for foreplay, massage, and masturbation Tantra exercises and massages for sexual fulfillment of

Tantric Love Letters - Diana Richardson 2012
Diana Richardson, an acclaimed authority on human sexuality, began a personal enquiry into the union of sex and meditation (the essence of tantra) over twenty five years ago while living in India. Through these innocent steps and motivated by simple curiosity, she gained deep insights into the spiritual and generative implications of sex that lie beyond its reproductive aspect. She stresses that it is the how of sex, and not the what of sex, that

determines the difference. With additional information we can begin to honor the innate sexual intelligence that exists in our bodies as a subtle electro-magnetic reality. On this fine and delicate level man and woman function as equal yet opposite forces that are highly complimentary. Embracing this polarity potential can elevate and transform sex into an empowering and spiritual act, an experience that creates and sustains love, peace and harmony. Her simple, down to earth and practical approach as presented in her books has created a wave of positive resonance and response from readers worldwide.

Tantric Sex and Menopause - Diana Richardson 2018-04-10

A tantric guide to discovering the hidden gifts of menopause • Explains why Tantra works for menopausal women and how their bodies are naturally entering a more tantric phase focused on creative, spiritual energy • Details tantric practices and tools to connect with the body's inner intuitive wisdom, remove the "performance pressure" of conventional sex, and set the stage for passion and pleasure to thrive both in the bedroom and beyond • Explores what to expect physically, emotionally, and spiritually, and in relationships As women, we live so closely to the body--through menstruation, pregnancy,

Heart Of Tantric Sex A Unique Guide To Love And Sexual Fulfillment

birthing, motherhood, and then menopause. Each of these transitions changes a woman in a multitude of ways, most of which are celebrated. Yet menopause often causes women to feel despondent, as if our bodies are broken or deficient, especially when it comes to sex and intimacy. However, as tantric teachers Diana Richardson and Janet McGeever show, menopause has many hidden gifts to offer if we learn to embrace rather than suppress the changes this natural transition brings. Shining the light of tantric intelligence on menopause, the authors reveal how to explore and experience menopause in a radically positive fashion, suffused with a sense of vital awakening and “re-wilding” of a woman’s sexuality, creativity, and spirituality. Explaining what to expect physically, emotionally, and spiritually, as well as what it means for relationships, they detail tantric practices and tools to connect with the body’s inner intuitive wisdom and heart energies, remove the “performance pressure” of

conventional sex, and set the stage for passion and pleasure to thrive both in the bedroom and beyond. They explain why Tantra works for menopausal women and how their bodies are naturally entering a more tantric phase focused on creative, spiritual energy. They explore how, in Tantra, sex is practiced not for the sake of sex itself but as an instrument for going “beyond” sex, for better health, improved relationships, enhanced self-control and emotional balance, and even higher states of consciousness. They also offer many self-help practices, exercises, and meditations to reinforce a positive attitude toward menopause and overcome many of the physical and sexual problems, such as pain, dryness, loss of interest, and loss of libido. Providing a guide for women who are approaching, experiencing, or have gone through menopause, the authors show how a more informed, tantric approach to menopause allows each woman to deepen her trust in the perfect functioning of the female body, embrace

her natural sexual response, and reconnect with her inner self.

Tantric Sex for Men - Diana Richardson
2010-06-18

A revolutionary approach to male sexuality offers the keys to achieving sexual fulfillment • Teaches how to retain semen for increased vitality and longer lovemaking • Explains the relationship-strengthening benefits of deep, sustained penetration • Includes foreplay approaches and position sequences Fulfilling sex nourishes love, increases vitality, and boosts mental health. Unfortunately, prevailing attitudes about male sexuality and what is good sex work against these innate features by focusing on the excitement of ejaculation as the one and only goal. Using the tantric guidelines they have practiced for more than 25 years, Diana and Michael Richardson show men how to move beyond their preconceptions of sex as a goal-oriented--and often unintentionally stressful--event so they can relax into sex as a

meditative union of complementary energies. They explain how retaining semen allows for increased vitality and extended lovemaking sessions and show the relationship-strengthening benefits of deep, sustained penetration. They also explain how to perform soft penetration and how to avoid premature ejaculation. Tantric Sex for Men includes tried-and-true foreplay approaches, diagrams of sexual position sequences, ways to increase sexual sensitivity through awareness, and how to have ecstatic experiences through reaching a woman's body on a sexually deeper level. The authors also demonstrate how the sexual organs can be used to heal both men and women physically, emotionally, and spiritually.
