As morbid as it sounds, it's just how our energy works. The planets and luminaries are then split into two categories: inner/internal and outer/external, and every planet possesses their own type of energy and specialty. From the internal planets, the Sun shines on planets that impact our personalities. It's how we function as an individual. From the external planets, the darkness of these worlds helps us utilize our personality and inner strengths to overcome events of the physical realm. It's how we shine our light in dark spaces." About the Author Joan Zodianz is a professional astrologer, angel medium, intuitive

artist, and tarot reader. She has been developing her spiritual gifts since childhood. She has a love of spirituality, obsession with astrology, and strong connection with Archangels.

2022 HOROSCOPE Magical Days - astrology and predictions - Artemisia, Mirzia

My Dear Readers, you will surely be curious to know what your 2022 will be like. First of all, I thank you for choosing me as your "lucky charm" and I wish to tell you that like every year, now there are 9, the formula has not changed, but I have expanded it so much with new contents to make our "Horoscope- Magical Days" also an astrology book, so you will be lucky enough to have 2 books for the price of 1! Astrology blends with the horoscope, as in a perfect couple dance, to give you useful information to put your potential to good use and improve your new year so much as to make it more fortunate. I will suggest you, with the help of the Stars, sometimes with irony, not to bore you, the best moments of each month of 2022 to get what you want. I chose the e-Book formula to have the privilege of always being with you! I don't want to be forgotten in a drawer, but to be useful to you every day. This year I decided to expand, always with a pinch of irony, the sector of love, a topic that appeals to all ages, by adding a chapter on couple affinities. Love always gives us that indefinable extra something that allows us to see only the good things in life. But what is "Luck"? It is being in the right place at the right time, a meeting with a person who changes our lives for the better, knowing how to seize opportunities, but also that inexplicable something that improves our existence even economically, an aspect that is certainly not negligible as Marilyn Monroe and Woody Allen said: "They say that money does not make happiness, but if I weep rather do it in the back seat of a Rolls Royce rather than on a car of the Underground" Marilyn M. "Money doesn't give happiness, but it provides a similar feeling which requires a very advanced specialist to verify the difference" Woody A. And now my Dear Friends, I just have to thank you and list all the topics covered Sign by Sign. I wish you from my heart Happy New Year!!!

Valpartha: One Woman's Quest; - Dale Shillito 2016-11-30

What would it be like to be an adventurous woman living for ten years on a spaceship bound for a distant star? What adventures would be in store for an intrepid female scientist and her male paramour exploring a vast unknown planet half permanently frozen and dead, the other half warm and teeming with life? What would it be like for space travelers to live in an advanced matriarchal civilization where Earth's dominant patriarchal values are considered alien and are questioned and suppressed? These are some of the questions raised in Valpartha: One Woman's Quest;: An Interstellar Romance. The first-person protagonist, Swedish geologist Astrid Svenson, leaves Earth behind forever to explore and record scientific findings on unknown planets for the European Space Agency. She experiences adventure, triumph, terror, mishap, but above all, love and romance, as she and her husband, French botanist Henri Brule, share their lives and love together, exploring two planets and two cultures at opposite ends of the continuum of civilization. Both the highly civilized matriarchal Valparthans and the hunter-gatherer Arkenuans welcome the space travelers onto their planets to share their cultures. On the matriarchal planet of Valpartha, good will go only so far in dealing with fundamental cultural differences and the expectations of their host society. On the wild and unknown planet of Arkenu, friendly natives sometimes rescue their expedition from hostile tribes, though at other times, they must fight alone for survival on an alien world.
