Most books on sexuality teach women that satisfying their partner is the key to a great sexual experience. However, for most women, great sex is predicated on understanding their own bodies and desires first. Moreover, a woman's sexual desires and preferences aren't fixed—they are greatly impacted by physical changes such as pregnancy, menopause, and hormonal fluctuations. This sensual yet practical guide provides a comprehensive overview of all the sexual options available for women throughout their lifetime. Intrepid sex journalist and expert Susan Crain Bakos shows women how to sexually satisfy themselves and their partners, through masturbation, touching, oral sex, and intercourse. Racy, full-color photographs instruct women on positions, foreplay techniques, and how to use sex toys on themselves or others. Women gain a deeper understanding of their own unique physiology, how to achieve orgasm, and how to stay healthy as they explore different sexual options.

women. Every single one of them had faked an orgasm during sex at some point in their lives, with 60% of them doing so every time, I discovered when I asked them about their pleasure with their sex lives. These women need a book designed for guys that explains why their women are staging orgasms and what they can do to stop it, not another fancy sex manual with intricate positions. Many of the assumptions men frequently hold about what a woman wants in bed are examined by Charles Clinton. He explains what repels women and what attracts them. The author also talks about the value of love and commitment in marriage, romantic fantasies, and the advantages of excellent health for enhancing sexual energy. A more straightforward, down-to-earth manual on how to give and receive sexual pleasure has been written. You can use this book as a license to appease your beloved wife and girlfriend. When making love, a man is obsessed with numerous thoughts, such as: Is she enjoying it? Is she staging the orgasm to boost my male ego? What if she meets a different man who is more effective at it? Do not worry; this book has got you covered because it teaches you how to discover every woman's erogenous zones, where and when to start after initiating foreplay, and the best sexual positions that can give her multiple orgasms easily. Once you follow the steps highlighted in this book, your woman must acknowledge you as an actor in the game and always ask for more sex. This book is an antidote to divorce and unpleasable sex.
