We will be continuously demonstrating what works well in creating strong, enduring relationships. The focus will be on six key couple and family strengths: 1) appreciation and affection for each other; 2) commitment to the family; 3) positive communication; 4) enjoyable time together; 5) a sense of spiritual well-being and shared values; and 6) the ability to manage stress and crisis effectively.

[Marriage and Family](#) - Robert H. Lauer 2000

Marriage, Divorce, and Remarriage - Katherine P.H. Young 2005-05-01

Although the ideal of companionate marriage has gradually been established in Hong Kong, demographic trends from the 1980s reflect greater marital and family instability. In the years to come, adult fulfilment is likely to be found in various ways: through marriage, divorce, remarriage, or the single state. Each of these has its own potentials, tensions, and prospects for growth and development. Each offers different though viable life styles through which people can develop in adulthood. These trends call for a rethinking of marriage and of our expectation that marriage and the family bond will continue to serve as the relational context of adult living. This collection on marital work offers the means to rethink marriage by examining the ways husbands and wives cope with the demands and dilemmas of their relationship, from diverse parenting, forgiveness, coping with childhood abuse, infidelity, disenchantment and distancing, to uncoupling in divorce, and re-coupling in remarriage. Each chapter addresses aspects of these issues, with a focus on the recovery, reinvention and reconstruction of the self to meet the many challenges arising from the relationship and from life circumstances.

Our Social World - Jeanne H. Ballantine 2011-10-26

In this brief text, two leaders of the Teaching Sociology movement encourage students' development of their sociological imaginations through role-taking. Assuming the role of a child living in poverty in India or of a member of an African tribe, students learn to re-envision their global society. An innovative, integrated framework provides core sociological concepts, while features such as Contributing to Our Social World enable students to "do" public sociology. Our Social World: Condensed Version presents the perspective of students living in the larger global world.

Marriages & Families - Nijole Vaicaitis Benokraitis 2007

This volume introduces the study of contemporary marriages and families, from a sociological perspective. It examines the diversity of American families, by giving equal attention to all racial, ethnic, and other societal groups, while examining the choices and the constraints that often limit our family-related choices today. A six-part organization places marriage and the family in perspective, looks at the individual and developing relationships, as well as the individual and marital commitments, considers parents and children, explores conflicts and crises, and offers an understanding of changes and transitions. The book poses questions, offers insights, and summarizes critical concepts on the roles of the evolving family.

Marriages and Families - Nijole Vaicaitis Benokraitis 2009

For one semester/quarter courses on Marriage and Families, Sociology of the Family, Human Development or Family Studies. By introducing the themes of Changes, Choices and Constraints when presenting the basic concepts, theory, research and statistics about marriages and families, Benokraitis discusses how contemporary changes in families and their structure impact the choices student's actually have, and how society can constrain their marriages, families and relationships. Through this approach, students are better able to understand what the research and statistics mean for themselves. Seeing that there was a need for a text that reflected the issues- like race and ethnicity, remarriage and stepfamilies, and sexuality, that face students and their families, Professor Benokraitis wrote Marriage and Families as a way to show students both the choices and constraints that families face in modern society.
