New Frontiers in Popular Romance - Susan Fanetti 2022-06-07

In the twenty-first century, the romance genre has gained a growing academic response, including the creation of the International Association for the Study of Popular Romance. Popular romance has long been so ignored and maligned that seemingly every scholarly work on it opens with a lengthy defense of the genre and its value for academic study. Even the early scholarly works on the genre approach it in ways that, while primarily respectful, make sweeping generalizations about popular romance, its texts, and its readers. This essay collection examines the position of the romance genre in the twenty-first century, and the ways in which romance responds to and influences the culture and community in which it exists. Essays are divided into six sections, which cover the genre's relationship with masculinity, the importance of consent, historical romance, representation, social status and web-based romance fiction.

The Boy Next Door - Merle and Isaac have history, some good and some bad, so when someone seems determined to put Merle out of business—permanently—he naturally turns to his former sidekick for help. Plenty of Fish - Sure, maybe Blair is too romantic — but wasn't Finn the one who always said there were plenty of fish in the sea? Suicide in Modern Literature - Josefa Ros Velasco 2022-01-01

This book analyzes the social and contextual causes of suicide, the existential and philosophical reasons for committing suicide, and the prevention strategies that modern fictional literature places at our disposal. They go through the review of Modern fictional literature, in the American and European geographical framework, following the rationales that modern literature based on fiction can serve the purpose of understanding better the phenomenon of suicide, its most inaccessible impulses, and that has the potential to prevent suicide. From the turn of the 20th century to the present, debates over the meaning of suicide became a privileged site for efforts to discover the reasons why people commit suicide and how to prevent this behavior. Since the French sociologist and philosopher Émile Durkheim published his study *Suicide: A Study in Sociology* in 1897, a reframing of suicide took place, giving rise to a flourishing group of researchers and authors devoting their efforts to understand better the causes of suicide and to the formation of suicide prevention organizations. A century later, we still keep on trying to reach such an understanding of suicide, the nature, and nuances of its modern conceptualization, to prevent suicidal behaviors. The question of what suicide means in and for modernity is not an overcome one. Suicide is an act that touches all of our lives and engages with the incomprehensible and unsayable. Since the turn of the millennium, a fierce debate about the state's role in assisted suicide has been adopted. Beyond the discussion as to whether physicians should assist in the suicide of patients with unbearable and hopeless suffering, the scope of the suicidal agency is much broader concerning general people wanting to die.

If Michael Agnew had not walked through the door of the pub on a quiet night in February in his white shirt. There is nothing special about the day Cushla meets Michael, a married man from Belfast, in the pub owned by her family. But here, love is never far from violence, and this encounter will change both of their lives forever. As people get up each morning and go to work, school, church or the pub, the daily news rolls in of another car bomb exploded, another man beaten, killed or left for dead. In the class Cushla teaches, the vocabulary of seven-year-old children now includes phrases like 'petrol bomb' and 'rubber bullets'. And as she is forced to tread lines she never thought she would cross, tensions in the town are escalating, threatening to destroy all she is working to hold together. Decolonising the Literature Curriculum - Charlotte Beyer 2022-03-11

This book explores pedagogical approaches to decolonising the literature curriculum through a range of practical and theoretically-informed case studies. Although decolonising the curriculum has been widely discussed in the academe and the media, sustained examinations of pedagogies involved in decolonising the literature at university level are still lacking in English and related subjects. This book makes a crucial contribution to these evolving discussions, presenting current and critically engaged pedagogical scholarship on decolonising the literature curriculum. Offering a broad spectrum of accessible chapters authored by experienced national and international academics, the book is structured into two parts, *Texts and Contexts*, presenting case studies on decolonising the literature curriculum which range from the undergraduate classroom, university writing centres, through to the literary doctorate.

Prizing Scottish Literature - Stevie Marsden 2021-02-15

This cultural history of the Saltire Society Literary Awards demonstrates the significance the awards have had within Scottish literary and cultural life. It is one piece of the wider cultural award puzzle and illustrates how, far from being parochial or niche, lesser-known awards, whose histories may be yet untold, play their own role in the circulation of cultural value through the consecration of literary value. The study of the Society's Book of the Year and First Book of the Year Awards not only highlights how important connections between literary awards and national culture and identity are within prize culture and how literary awards, and their founding institutions, can be products of the socio-political and cultural milieu in which they form, but this study also illustrates how existing literary award scholarship has only begun to scratch the surface of the complexities of the phenomenon. This book promotes a new approach to considering literary prizes, proposing that the concept of the literary awards hierarchy can contribute to emerging and developing discourses pertaining to literary, and indeed cultural, prizes more broadly.

The Old Man Who Read Love Stories - Luis Sepúlveda 2024-03-19

"Gripping and passionate . . . keenly recounted . . . full of poetry."—New York Times Now in a beautiful new edition, the spellbinding classic tale of man and nature, honor, and adventure, in which the peaceful life of an aging, book-loving widower in the Ecuadorean jungle is upended when an ignorant tourist provokes a mother ocelot. Antonio José Bolívar Proaño lives quietly in a river town in the rain-soaked jungle of Ecuador that is slowly being overrun by tourists and opportunists. Having lost his wife decades earlier, he takes refuge in books—paperback novels of faraway places and bittersweet love, delivered to him by the dentist who visits the village twice a year. One day, a greedy trader pushes nature too far, setting an enraged mother ocelot on a bloody rampage through the village. The old man, a hunter who once lived among the Shuar Indians and knows the jungle better than anyone, is pressured by the village's detested mayor to join the expedition to kill the animal. Reluctantly, the old man is forced into the middle of a raging conflict between man and nature that will end in a powerfully climactic confrontation.
