Outmatched Kristen Callihan 2019-11-19 What happens when a boxer finds chemistry with a geek? Parker Brown can't believe she needs to hire a fake boyfriend. When she landed her dream job in renewable energy, she thought she'd be entering a world at the forefront of progressive thinking. But the head boss prefers to promote employees who are "settled." Thankfully, she's found the perfect candidate, a fellow intellectual looking for some quick cash. What Parker gets is his protective big brother--Rhys Morgan. The tall, muscled ex-boxer with a foul mouth shows up just as her boss does, and now she's stuck with the manipulative jerk. Responsibility weighs heavily on Rhys. Now permanently out of the ring, he's trying to hold together his late father's gym and keep his younger brother, Dean, on the straight and narrow. To save Dean from himself, Rhys takes his place, ready to give this society girl a piece of his mind. Instead, he finds an opportunity. Even though they can hardly stand each other, posing as Parker's boyfriend is a win-win deal. She gets to keep her job, and he'll charm her star-struck boss into sponsoring his gym. Problem is, they can barely keep their hands off each other. And what started as an easy deal isn't so easy anymore. Because what future can a rough ex-boxer, afraid to open his heart, and a polished society geek, who has sworn off real relationships, possibly have? They say opposites attract. These opposites are about to combust on impact.

During his illustrious career, Professor Quispel was also visiting Professor at Harvard University in 1964/65, and visiting Professor at the Catholic University of Leuven from 1969 until 1974. Manichaeism; the Jewish origins of Gnosticism; and Gnosis and the future of Christianity. This volume also makes a number of his less known earlier publications (mainly presented under the heading 'Catholica') available to the international community. Until shortly before he died, Professor Quispel remained active in his study of the Gospel of Thomas. He had been one of the first to acquire the Coptic text of the Gospel of Thomas, of which he published the first translation in 1959 and his final translation in 2005. He was also active in researching the Diatessaron, and Valentinus 'the Gnostic'. One of his most recent essays - published for the first time in this volume - is on 'the Muslim Jesus.'

Max Schmeling and the Making of a National Hero in Twentieth-Century Germany Jon Hughes 2017-09-19 This book presents the first in-depth study of the German boxer Max Schmeling (1905-2005) as a national hero and representative figure in Germany between the 1920s and the present day. It explores the complex relationship between sport, culture, politics and national identity and draws on a century of journalism, film, visual art, life writing and fiction. Detailed chapters analyse Schmeling's emergence as an icon in the Weimar Republic, his association with America, his celebrity status in the Third Reich, and his rivalry with Joe Louis as a focus for an extraordinary propaganda and ideological contest. The book also examines how Schmeling's post-war success in business associated him with the culture of the 'zero hour' nation in the era of 'economic miracle', and how he was later claimed as 'good German' and moral example for a post-war generation of Germans determined to 'come to terms' with the past. This book will appeal to readers with an interest in the history and representation of sport and boxing, in sports discourse and political culture, and in questions of national identity in modern German history.

A media theory of poetical impact is proposed by Franz-Josef Holzner and Dieuwke van der Poel. The Cylinder Helmut Müller-Sievers 2012-03-28 The Cylinder investigates the surprising proliferation of cylindrical objects in the nineteenth century, such as steam engines, phonographs, panoramas, rotary printing presses, silos, safety locks, and many more. Examining this phenomenon through the lens of kinematics, the science of forcing motion, Helmut Müller-Sievers provides a new view of the history of mechanics and of the culture of the industrial revolution, including its literature, that focuses on the metaphysics and aesthetics of motion. Müller-Sievers explores how nineteenth-century prose falls in with the specific rhythm of cylindrical machinery, re-imagines the curvature of cylindrical spaces, and conjoins narrative progress and reflection in a single stylistic motion. Illuminating the intersection of engineering, culture, and literature, he argues for a concept of culture that includes an epoch's relation to the motion of its machines.

The sexy new bartender at work gives her butterflies every time she looks at him. And for once, Jo is tempted to put her needs first. Cam is just as obsessed with getting to know Jo, but her walls are too solid to let him get close enough to even try. Then Cam moves into the flat below Jo's, and their blistering connection becomes impossible to ignore. Especially since Cam is determined to uncover all of Jo's secrets...even if it means taking apart her defenses piece by piece.

Beyond the Feminization Thesis Patrick Pasture 2012 Case studies upon the use of concepts like feminization and masculinization in relation to christianity. Since the 1970s the feminization thesis has become a powerful trope in the rewriting of the social history of Christendom. However, this 'thesis' has triggered some vehement debates, given that men have continued to dominate the churches, and the churches themselves have reacted to the association of religion and femininity, often formulated by their critics, by explicitly focusing their appeal to men.
