No One Will See Me Cry - Cristina Rivera Garza
2003

Winner of the Mexico National Novel Prize, Sor Juana In s de la Cruz Prize, and IMPACT Prize
Joaquin Buitrago, a photographer in the Castaneda Insane Asylum, believes a patient is a prostitute he knew years earlier. His obsession in confirming Matilde's identity leads him to explore the clinics records, and her tragic history. He discovers that she was a peasant adopted by a doctor uncle. She led a calm life until C stulo, a young revolutionary chased by the authorities, finds shelter in her home. Matilde's eyes are opened to the social upheaval

will lead her to break with her uncle and hide out with Diamantina Vicari. Diamantina's death devastates Matilde so much that she wanders about, completely lost, doing all kinds of jobs, including prostitution. As the photographer discovers more details, he becomes convinced that he and Matilde should live together. Ultimately, as they face defeat in a repressive society, they search to establish in the rubble an uncertain future that will somehow restore their freedom.

The Spanish Labyrinth - Gerald Brenan
1990-09-13

Gerald Brenan's The Spanish Labyrinth, first

published in 1990, has become the classic account of the background to the Spanish Civil War.

Kiss of the Spider Woman - M. Puig 2010-02-23

Nuevas coordenadas de la literatura puertorriqueña - Wanda Cosme 2007

Me gustas cuando callas ... - Ana Sierra 2002

"Ana Luisa Sierra's thought-provoking essays deal with the way in which literary works reflect various latent perspectives of sex and gender and how a text may likewise construct a vision of gender, which may be subsequently incorporated into society."

Daniel Goleman Omnibus - Daniel Goleman 2004

Emotional Intelligence Does IQ define our destiny? Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play a major role in thought, decision making and individual success. Self-awareness, impulse control, persistence,

motivation, empathy and social deftness are all qualities that mark people who excel: whose relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us. Working with Emotional Intelligence Do you want to be more successful at work? Do you want to improve your chances of promotion? Do you want to get on better with your colleagues? Daniel Goleman draws on unparalleled access to business leaders around the world and the thorough research that is his trademark. He demonstrates that emotional intelligence at work matters twice as much as cognitive abilities such as IQ or technical expertise in this inspiring sequel.

An Apartment on Uranus - Paul B. Preciado 2020-01-28

A "dissident of the gender-sex binary system" reflects on gender transitioning and political and

cultural transitions in technoscientific capitalism. Uranus, the frozen giant, is the coldest planet in the solar system as well as a deity in Greek mythology. It is also the inspiration for uranism, a concept coined by the writer Karl Heinrich Ulrich in 1864 to define the “third sex” and the rights of those who “love differently.” Following Ulrich, Paul B. Preciado dreams of an apartment on Uranus where he might live beyond existing power, gender and racial strictures invented by modernity. “My trans condition is a new form of uranism,” he writes. “I am not a man. I am not a woman. I am not heterosexual. I am not homosexual. I am not bisexual. I am a dissident of the gender-sex binary system. I am the multiplicity of the cosmos trapped in a binary political and epistemological system, shouting in front of you. I am a uranist confined inside the limits of technoscientific capitalism.” This book recounts Preciado's transformation from Beatriz into Paul B., but it is not only an account of gender

transitioning. Preciado also considers political, cultural, and sexual transition, reflecting on issues that range from the rise of neo-fascism in Europe to the technological appropriation of the uterus, from the harassment of trans children to the role museums might play in the cultural revolution to come. *An Apartment on Uranus* is a bold, transgressive, and necessary book.

Postcolonial Perspectives on the Cultures of Latin America and Lusophone Africa - Robin W. Fiddian 2000-01-01

La Misère Du Monde - Pierre Bourdieu 1999

This book can be read like a series of short stories - the story of a steel worker who was laid off after twenty years in the same factory and

who now struggles to support his family on unemployment benefits and a part-time job; the story of a trade unionist who finds his goals undermined by the changing nature of work; the story of a family from Algeria living in a housing estate in the outskirts of Paris whose members have to cope with pervasive, everyday forms of racism; the story of a school teacher confronted with urban violence; and many others as well. Reading these stories enables one to understand these people's lives and the forms of social suffering which are part of them. And the reader will see that this book offers not only a distinctive method for analysing social life, but also another way of practising politics.

Voces de Hispanoamérica - Raquel Chang-Rodríguez 2004

"The market leading anthology Voces de Hispanoamérica includes authors from the colonial period to the present and incorporates some of the most influential writers of Latin America"--Back cover.

The Flight of the Cat - Abel Enrique Prieto
2005-07-05

En el libro que ahora tienes entre tus manos, asistimos a todos los mestizajes imaginables: atrasos y adelantos, sincretismos y metamorfosis, asambleas y exorcismos, y la risa cubana con su enorme capacidad expansiva. Por supuesto que ningún tipo de relato similar es posible en otra parte del continente. Esta novela se mueve (incesante) entre la ficción y el ensayo, entre el costumbrismo y una especie de metafísica criolla, al mismo tiempo que logra convocar en su balanceo a vivos y a muertos, a hippies, estoicos, pícaros y espiritistas y nos propone así una divertida y misteriosa indagación sobre lo cubano. De este modo, no podrá decir que conoce la identidad del cubano (y su acervo) quien no haya leído --y meditado--, acerca del fondo filosófico, cultural y social que propone este libro.

Reproduktion und künstlerischer

Produktion - Johanna Vocht 2022-03-21

Juan Carlos Onetti (1909-1994), eine der prägendsten Autorenfiguren der lateinamerikanischen Moderne, schuf über einen Zeitraum von 60 Jahren ein selbstbezügliches literarisches Gesamtwerk, das fast gänzlich in der fiktiven Stadt Santa María verortet ist. Im Prozess der literarischen Stadtgründung, deren Verfall und Neugründung, entsteht ein machträumliches Spannungsfeld zwischen biologischer Reproduktion und künstlerischer Produktion. Onettis Erzählkosmos ist von einer patriarchalen Ordnung strukturiert. Die hegemoniale Männlichkeit, die diese Ordnung stützt, definiert sich über künstlerische Schöpfungspotenz und die Unterordnung der Frau. Die Publikation zeichnet die verschiedenen Strategien nach, durch die sich Frauenfiguren in Onettis Texten dieser Unterordnung erwehren und zeigt damit, dass das patriarchale System in eine sanmarianische Dystopie der kurzen Leben

mündet.

Norah Borges - Eamon McCarthy 2020-09-01

Norah Borges (1901–98) was the sister of the celebrated Argentine writer Jorge Luis Borges. She first began producing art in Switzerland, where her family was trapped during the First World War, and travelled to Spain before returning to her native Argentina with her new styles of painting. In the 1920s, her work was published on the covers of important cultural magazines, but she is now largely forgotten. In her works, Borges created a world full of almost angelic figures – describing it as a smaller, more perfect world – mostly a serene space dominated by women. This book explores how Borges created that space and developed her own unique style of painting, studying the connections she made with the leading artists and writers of her time.

Estudios de literatura colombiana - 2003

Libertad en cadenas - Aída Beaupied 2010

"El tema de la libertad ha sido uno de los más debatidos en la cultura cubana, sin embargo, hasta el momento no se ha estudiado como discurso, como instrumento impreciso y vulnerable a inconsistencias. Dentro y fuera de Cuba se prefiere hablar de libertad en relación a factores externos - religión, política, derechos civiles. Esto explica por qué tantos de los que abordan este tema de las letras cubanas se han mantenido ajenos a las contradicciones propias del mismo. Libertad en cadenas explora los orígenes y trayectoria de las ideas de la libertad que mayor impacto han tenido en la cultura cubana a fin de llamar la atención sobre las aporías inherentes a una serie de discursos - mítico-religiosos, teológicos, filosóficos, políticos, fílmicos, literarios - desde principios del siglo diecinueve hasta hoy. Al igual que en el resto de América Latina, donde figuras como Borges o Paz han confrontado de manera directa y auto-consciente estas dificultades propias de los discursos sobre libertad, en Cuba los que

mejor han sabido explorar este asunto han sido escritores y cineastas. Ésta es la razón por la que, sin descuidar las contribuciones de un pensador como Jorge Mañach o las del político Fidel Castro, este estudio dedica especial atención al análisis de discursos literarios y fílmicos como los José Martí, Virgilio Piñera, Alejo Carpentier, Tomás Gutiérrez Alea, José Lezama Lima, Leonardo Padura Fuentes, Nelson Simón, Zoé Valdés y José Antonio Ponte, entre otros. Algo que distingue los discursos cubanos de la libertad es el hecho de que, conscientemente o no de ello, todos fluctúan entre el mito y la ironía; fluctuación ésta cuyos registros más notables incluyen la trascendencia y sus demandas de sacrificio, el existencialismo, el choteo y, en fechas más recientes, una distancia crítica que ni abraza ni rechaza del todo, sino que observa con una actitud benignamente cansada el montaje ideológico-discursivo de las ideas sobre la libertad."--

Books In Print 2004-2005 - Bowker Editorial Staff 2004

The Impenetrable Madam X - Griselda Gambaro 1991

This book is a naughty, comedic romp through the fields of desire and pleasure in nineteenth-century Spain. At the apex of the triangle is Madam X, flanked by two pursuers, Jonathan and her maid Marie. With tongue in cheek, the author concocts hilariously exaggerated scenes of sexual acrobatics, poking fun at virile prowess, aging femininity, heterosexual hypocrisy and homosexual taboos.

Die "Boom"-Autoren heute - Gesine Müller 2004
Analyse des Paradigmenwechsels in der lateinamerikanischen Literatur, den die Boom-Autoren als Protagonisten der großangelegten inner- und außerliterarischen Debatten um Identität der 60er Jahre, parallel vollzogen haben.

Transculturation - 2016-08-01

Transculturation: Cities, Spaces and Architectures in Latin America explores the critical potential inherent in the notion of "transculturation" in order to understand contemporary architectural practices and their cultural realities in Latin America. Despite its enormous theoretical potential and its importance within Latin American cultural theory, the term transculturation had never permeated into architectural debates. In fact, none of the main architectural theories produced in and about Latin America during the second half of the twentieth century engaged seriously with this notion as a way to analyze the complex social, cultural and political circumstances that affect the development of the continent's cities, its urban spaces and its architectures. Therefore, this book demonstrates, for the first time, that the term transculturation is an invaluable tool in dismantling the essentialist, genealogical and hierarchical perspectives from which Latin American architectural practices

have been viewed. Transculturation: Cities, Spaces and Architectures in Latin America introduces new readings and interpretations of the work of well-known architects, new analyses regarding the use of architectural materials and languages, new questions to do with minority architectures, gender and travel, and, from beginning to end, it engages with important political and theoretical debates that have rarely been broached within Latin American architectural circles.
