*The Healing Drum* - Blackwolf Jones 1996-09-09

Poetic thoughts are beautifully expressed in this gift book. Within the pages of *The Healing Drum*, we will find inspiration in powerful, healing words expressed in simple, Native American tradition--words that will return us to the wisdom of the "Old Age" that gives us messages of self-help one beat at a time.

**Listen to the Drum** - Blackwolf Jones

2010-07-08

Steeped in Anishinaabe remedies for psychological healing and personal growth, *Listen to the Drum* invites us to learn to listen at the deepest level. Steeped in Anishinaabe remedies for psychological healing and personal growth, *Listen to the Drum* invites us to learn to listen at the deepest level. It also helps us learn about our unique and special purpose, how to walk in balance and harmony on the Red Road, and how to connect to the River of Life. A deeply inspiring and refreshing invitation to learn from Native American traditions.

Becoming a Reflective Practitioner - Christopher Johns 2013-03-19

From Reviews of the second edition:

'Christopher Johns is an internationally recognised pioneer of reflective practice in nursing and health care. The first edition of this book was an excellent resource and this updated version is equally impressive. This is a superb resource for nurses and all those eager to enhance their knowledge and skills in reflective practice. It is well presented, user-friendly and stimulating.' *Nursing Standard* *Becoming a Reflective Practitioner* is a practical guide to using reflection in every day clinical practice. It explores the value of using models of reflection, with particular reference to Christopher Johns' own model for structured reflection. *Becoming a Reflective Practitioner* includes accounts of everyday practice to guide the reader through the stages of reflective practice within the context of care, 'desirable practice', and the caring relationship. This third edition reflects significant developments in reflective theory and gives greater attention to different approaches to reflection including the use of narrative dialogue. New chapters are included on ensuring quality and managing conflict. Exemplars are included throughout and further references and reflected reading are included at the end of each chapter. Reflective practice is acknowledged as an effective approach to developing nursing care which evolves as the practitioner develops his or her own practice. This book will therefore be of interest to all nurses involved in developing their clinical practice. A practical guide to developing reflective practice Reflects significant developments in reflective theory Examines Christopher Johns' own model for structured reflection Centred on care and the caring relationship Challenges practitioners to question their practice

The Healing Blanket - Gina Jones 2000

The Healing Blanket  
*Books and Beyond [4 volumes]* - Kenneth  
 Womack 2008-10-30

There's a strong interest in reading for pleasure or self-improvement in America, as shown by the popularity of Harry Potter, and book clubs, including Oprah Winfrey's. Although recent government reports show a decline in recreational reading, the same reports show a strong correlation between interest in reading and academic achievement. This set provides a snapshot of the current state of popular American literature, including various types and genres. The volume presents alphabetically arranged entries on more than 70 diverse literary categories, such as cyberpunk, fantasy literature, flash fiction, GLBTQ literature, graphic novels, manga and anime, and zines. Each entry is written by an expert contributor and provides a definition of the genre, an overview of its history, a look at trends and themes, a discussion of how the literary form engages contemporary issues, a review of the genre's reception, a discussion of authors and works, and suggestions for further reading. Sidebars provide fascinating details, and the set closes with a selected, general bibliography. Reading in America for pleasure and knowledge continues to be popular, even while other media compete for attention. While students continue to read many of the standard classics, new genres have emerged. These have captured the attention of general readers and are also playing a critical role in the language arts classroom. This book maps the state of popular literature and reading in America today, including the growth of new genres, such as cyberpunk, zines, flash fiction, GLBTQ literature, and other topics. Each entry is written by an expert contributor and provides a definition of the genre, an overview of its history, a look at trends and themes, a discussion of how the literary form engages contemporary issues, a review of the genre's critical reception, a discussion of authors and works, and suggestions for further reading. Sidebars provide fascinating details, and the set closes with a selected, general bibliography. Students will find this book a valuable guide to what they're reading today and will appreciate its illumination of popular culture and contemporary social issues.

**Guided Reflection** - Christopher Johns  
 2009-02-12

Reflection is widely recognised as an invaluable tool in health care, providing fresh insights which enable practitioners to develop their own practice and improve the quality of their care. This book introduces the practitioner to the concept of 'Guided reflection', an innovative research process in which the practitioner is assisted by a mentor (or 'guide') in a process of self-enquiry, development, and learning through reflection, in order to become fully effective. Guided reflection is grounded in individual practice, and can provide deeply meaningful insights into self-development and professional care. The process results in a reflexive narrative, which highlights key issues for enhancing health care practice and professional care. This book uses a collection of such narratives from everyday clinical practice in nursing, health visiting and midwifery to demonstrate the theory and practicalities of guided reflection and narrative construction. These narratives portray the values inherent in caring, highlight key issues in clinical practice, reveal the factors that constrain the quest to realise practice, and examine the ways practitioners work towards overcoming these constraints.
