**Sex Positions for Couples** Eva Harmon 2023-01-17 Do you want to spice up your sex life and improve your relationship? Are you tired of the same old positions night after night? Have you always been a little intrigued by the idea of kama sutra? If you answered yes to any of these questions, then you are going to want to continue reading. Sex has always been a hush-hush subject because of outdated beliefs and such. This has led to couples getting stuck in a rut when it comes to their sex life. They don't feel that it is "right" to talk to people about their sex life. Times are changing, and more and more people are comfortable talking about their sex life, and that is a good thing. This makes sex less taboo and enables couples to expand their sex repertoire. This new awakening doesn't necessarily mean that couples will find the answer they want or need from people they talk to, though, and that's what this book is here to do. This book has been brought together to provide information about sex to help couples who are tired of the same old thing every night. Foreplay, that's is the one word most couples dread. For some reason, this is the area where couples end up failing, yet we all know that it is extremely important, especially for women. It helps to place people in the right state of mind and gets things warmed up, so to speak. This isn't the only problem some couples have in their sex life. Sometimes it's simply that things have turned monotonous. This is understandable, especially when you and your partner have been together for a while. It is very easy to stick with the same things because you know what one another likes, or because it is easy. But you both likely feel bored and can easily pass on sex due to the boredom. But things don't have to stay that way, though. You can easily bring the spark back into your life, whether through foreplay or new positions. This book is here to teach you how you can improve your sex life. In this book, you will learn: Why you should bring kama sutra and tantra into your bedroom The best sex positions for men and women The best sex positions to bring the two of you together Sex tips for the beginner Foreplay games to get things heated up How to practice couples massages The best way to start using dirty talk without feeling weird ... And much more. I get that you might still be skeptical that this book can help improve your sex life. Even if you have tried new things to try and spice up your sex life without success, this book can teach you things that you may not have thought about. The information in this book can be applied to anybody's sex life. You'll even find that within the descriptions of various sex positions, there will be warnings, so you are guided throughout the entire process. I'm certain that if you buy this book today, you won't regret it. Now is the time to make the decision. If you are serious about changing your sex life, scroll up now, and click "buy now."

Aphrodite Stig öberg 2013-05-22 This book is solely devoted to natural methods to increase sex drive, sexual arousal and libido, both in males and females, using natural substances, which are generally called by the name Aphrodisiac. Sexual dysfunction is extremely common among both males and females. According to World famous sex researchers, Masters and Johnson, during sexual intercourse men took around 4 minutes to reach orgasm with their partners, but women took about 10-20 minutes to reach orgasm with their partners, but only about 4 minutes to reach orgasm, when they masturbated. So it is not very difficult to guess from these figures, why anorgasmia is much more common among women than among males. Some 10% of women have never got orgasm, over 15% report difficulties of getting orgasm, and 40-50% of women have complaints about sexual dissatisfaction or becoming sexually aroused. At least 70-80% of women can get orgasm only through clitoris stimulation, but possibly at least 90% of their male partners do not know this fact or do not care about it. As is well known, clitoris stimulation is almost impossible with the most common sexual intercourse position, the Missionary position. Because women reach orgasm less often during sexual intercourse than males, they are more likely than men to have and show a fake orgasm. At least 150 million men in the World suffer from erectile dysfunction. The figure is between 10-20% in younger males but can reach over 50% at ages over 60. But premature ejaculation is much more common than erectile dysfunction. According to Masters and Johnson, up to 20% of men suffer from premature ejaculation, so they get orgasm within a very short time period during sexual intercourse and their female partner does not have any possibility of getting sexual pleasure or orgasm. Sexual dysfunction increases rapidly during aging, both among males and females, mostly due to hormonal reasons. Menopause in females decreases strongly sexual activity, due to

decreasing Estrogen, DHEA and Testosterone. In males Testosterone and DHEA decrease steadily during aging, but the catabolic, "Anti-sex" hormones Cortisol and Prolactin tend to increase. There exists astonishing number of simple and very common natural products, which increase sex drive, sexual arousal, libido, erection, Testosterone, sperm count and sperm motility. This book shows over 300 plants, food items, nutrients and methods, which by research have been shown to increase sexual performance, libido, sexual arousal, Testosterone, erection, orgasm, sperm count and sperm motility, and to decrease high Cortisol and Prolactin. Together with Ethnobotanical research studies, this book shows over 600 plants and products, which are used as aphrodisiacs all over the World. This book is based strictly on scientific experiments with humans and animals, and there are totally several hundreds of research study references, which can be seen on the Reference pages at the end of the book.

This book talks about: >Erectile dysfunction for men: >Female sexual dysfunction: >How a man can last longer in bed >How to enhance and boost libido for men and women naturally >How you can continue sex even after ejaculating >Sex toys >Best sex positions guaranteed to get the job done >Natural ways to heal sex life Short story... It all started two years ago when my wife Courtney and I went for a vacation in the Bahamas with the aim of boosting our sex life (don't get me wrong, sex twice a week is good but at least four times a week does it) due to my work and all. On arriving at the hotel, we told the receptionist that we are looking to boost our sex life and she said "I have just the room for you" then handed us a key with the number 1-1. Well, after getting to the third floor, we noticed all the doors painted red all through and a sweet aroma of vanilla and a hint of peach in the air. On reaching the door, the baggage carrier stopped and said he is not allowed to go further and handed our luggage to us. The first noticeable thing was the big soft bed shaped as a love and a mirror above it. The next

thing I noticed was a big brown cupboard with the words "pleasure locker written on it." We later that night noticed that it was filled with adult sex toys, massage oils, restraints, handcuffs, blindfold, sex pimps, sprays, sex chocolate and lots of herbs. As exciting as it may seem, we never did anything on the first day. I guess it was because of the stress of traveling. Needless to know is that all those sex toys were explored by yours truly and his woman. The second day, however, was a different case. I woke up with my handcuffed to the bed railings. Before realizing what was happening, Courtney hopped on me and told me she had a confession to make. She said she has been in the pleasure locker and had already tried the sex cream. Well to cut long story short, it was the first time I ever knew that so much liquid can come from a woman who is experiencing an O. For the next few days, we did some role-playing and acted like children around each other. I got to try out sex positions I never knew was fun and later on explored some advanced sex positions. This book holds a summary of all you need to please your woman.

Give Her Multiple Orgasm As Often As You Want Natalie Robinson 2015-06-01 The Female Orgasm is indeed the new age version of the Holy Grail, a mysterious event that seems to boggle our imagination, challenge a man's ego, and sometimes elude us in much the way as a secret cave. But wait! How about all that stuff I see in erotica books and Internet porn? Those guys make it look easy. So it should be just that easy, right? And that's why we have so many real world sex problems. Because we all sort of think, yeah orgasms should be like that. So why isn't it working just like that? Probably because studying erotica in place of education is sort of like getting your history lesson from, well, a Hentai cartoon. - Real sex is not exaggerated. - Real orgasms are not mechanical. - Really good, awesome and out of this world sex takes practice, patience and strategizing rather than just wishing it to be. It's like the old expression goes - if you build it they will come. Or in this case, if you really work at it, she will come. This book is not going to tell you how it "should" happen, or how you wish it could happen—but rather how realistically you're going to either give a woman an orgasm, if you're a man, or bring yourself to orgasm with a lover, if you're a woman. We're going to analyze the anatomy, the emotional complexity and the "social obligation" of all things orgasm over the course of 87 tips and 12 chapters. You will know what to say to your lover to get her in the mood. You will discover foreplay techniques to put your woman on her toes and ready for the big-O. You will know the truth about female ejaculation, the G-spot, the U-spot, the A-spot, the P-spot and Deep Spot, and how to stimulate them to give her multiple full-body, over-the-top, mind-blowing orgasms in one night. By the end of the book, you're going to have your PhD in Orgasmology, or at least the equivalent of it. And the proof will be in those authentic moans of ecstasy, never more unrestrained, raw and amazing.
