Deconstructing the Stereotype: Reconsidering Indian Culture, Literature and Cinema

Kaustav Chakraborty 2014-04 Stereotypes are mere 'pictures in our heads'. Prejudice and suspicion against all that is perceived of as 'different' give rise to cultural stereotypes. Creating stereotypes also involves connecting the created categories with values, equipping the categories with an ideational label. Thus, stereotypes often contain the presupposition that one's own group represents the normal, or even universal and that one's own culture and its socially construed concepts of reality is superior and normative in relation to other cultures and world-views. The stereotypes are not just one person's private attitude but are always shared with a larger socio-cultural group. Stereotypes result in simplifications that prevent people from seeing the 'otherized' individuals as they truly are. This book, aims at transgressing the boundaries of the strategically generated

stereotyped image of a homogenous Indian culture. Rather, by highlighting the marginalised issues related to class, caste and gender, this book, by citing examples of select Indian literary and cinematic representations, argues that the stigma related to the non-conformist /alternative/minority identities, is baseless and fraudulent.

A Global History of Sexual Science, 1880–1960 Veronika Fuechtner 2017-11-14 Sex has no history, but sexual science does. Starting in the late nineteenth century, scholars and activists all over the world suddenly began to insist that understandings of sex be based on science. As Japanese and Indian sexologists influenced their German, British and American counterparts, and vice versa, sexuality, modernity, and imaginings of exotified “Others” became intimately linked. The first anthology to provide a worldwide perspective on the birth and development of the field, A Global History of Sexual Science contends that actors outside of Europe—in Asia, Latin America, and Africa—became important interlocutors in debates on prostitution, birth control or transvestitism. Ideas circulated through intellectual exchange, travel, and internationally produced and disseminated publications. Twenty scholars tackle specific issues, including the female orgasm and the criminalization of male homosexuality, to demonstrate how concepts and ideas introduced by sexual scientists gained currency throughout the modern world.

Routledge Handbook of Indian Cinemas K. Moti Gokulsing 2013-04-17 India is the largest film producing country in the world and its output has a global reach. After years of marginalisation by academics in the Western world, Indian cinemas have moved from the periphery to the centre of the world cinema in a comparatively short space of time. Bringing together contributions from leading scholars in the field, this Handbook looks at the complex reasons for this remarkable journey. Combining a historical and thematic approach, the Handbook discusses how Indian cinemas need to be understood in their historical unfolding as well as their complex relationships to social, economic, cultural, political, ideological, aesthetic, technical and institutional discourses. The thematic section provides an up-to-date critical narrative on diverse topics such as audience, censorship, film distribution, film industry, diaspora, sexuality, film music and nationalism. The Handbook provides a comprehensive and cutting edge survey of Indian cinemas, discussing Popular, Parallel/New Wave and Regional cinemas as well as the spectacular rise of Bollywood. It is an invaluable resource for students and academics of South Asian Studies, Film Studies and Cultural Studies.

Hindi Cinema Nandini Bhattacharya 2013-05-07 Hindi Cinema is full of instances of repetition of themes, narratives, plots and characters. By looking at 60 years of Hindi cinema, this book focuses on the phenomenon as a crucial thematic and formal code that is problematic when representing the national and cinematic subject. It reflects on the cinema as motivated by an ongoing crisis of self-formation in modern India. The book looks at how cinema presents liminal and counter-modern identities emerging within repeated modern attempts to re-enact traumatic national events so as to redeem the past and restore a normative structure to happenings. Establishing structure and event as paradigmatic poles of a historical and anthropological spectrum for the individual in society, the book goes on to discuss cinematic portrayals of violence, gender embodiment, religion, economic transformations and new globalised Indianness as events and sites of liminality disrupting structural aspirations. After revealing the impossibility of accurate representation of incommensurable and liminal subjects within the historiography of the nation-state, the book highlights how Hindi cinema as an ongoing engagement with the nation-state as a site of eventfulness draws attention to the problematic nature of the thematic of nation. It is a useful study for academics of Film Studies and South Asian Culture.

Censorship and Sexuality in Bombay Cinema Monika Mehta 2012-08-24 India produces an impressive number of films each year in a variety of languages. female sexuality pivotal in constructing national identity, not just through the films themselves but also through the heated debates that occur in newspapers and other periodicals. The standard claim is that the state dictates censorship and various prohibitions, but Mehta explores how relationships among the state, the film industry, and the public illuminate censorship's role in identity formation, while also examining how desire, profits, and corruption are generated through the act of censoring. Committed to extending a feminist critique of mass culture in the global south, Mehta situates the story of censorship in a broad social context and traces the intriguing ways in which the heated debates on sexuality in Bombay cinema actually produce the very forms of sexuality they claim to regulate. She imagines afresh the theoretical field of censorship by combining textual analysis, archival research, and qualitative fieldwork. Her analysis reveals how central concepts of film studies, such as stardom, spectacle, genre, and sound, are employed and (re)configured within the ambit of state censorship, thereby expanding the scope of their application and impact.

in the work of several influential playwrights. The book explores questions related to the ways in which seven representative playwrights imagine India and its identity and the ways, in which this concept is revealed in the "narratives of the nation", its postcolonial contentions and the politics of identity, as revealed in the production of various cultural discourses. The chapters explore various aspects of the ongoing process of constructing and narrating culture, gender, the nation and identity. There has been no monograph on the questions of cultural identity in Hindi drama. This is a pioneering project and a desideratum in the field of Hindi literature, South Asian Studies, and broadly, in the study of theatre of India and of South Asian cultures and literatures.

With Respect to Sex Gayatri Reddy 2010-05-15 With Respect to Sex is an intimate ethnography that offers a provocative account of sexual and social difference in India. The subjects of this study are hijras or the "third sex" of India—individuals who occupy a unique, liminal space between male and female, sacred and profane. Hijras are men who sacrifice their genitalia to a goddess in return for the power to confer fertility on newlyweds and newborn children, a ritual role they are respected

for, at the same time as they are stigmatized for their ambiguous sexuality. By focusing on the hijra community, Gayatri Reddy sheds new light on Indian society and the intricate negotiations of identity across various domains of everyday life. Further, by reframing hijra identity through the local economy of respect, this ethnography highlights the complex relationships among local and global, sexual and moral, economies. This book will be regarded as the definitive work on hijras, one that will be of enormous interest to anthropologists, students of South Asian culture, and specialists in the study of gender and sexuality.

Postmodern Traces and Recent Hindi Novels Veronica Ghirardi 2021-07-06 Postmodernism is a notoriously elusive concept and still the object of critical debates among scholars across a range of different disciplines. In literature, in particular, these debates are complicated by “postmodern” styles emanating from outside the concept’s Western origins. By analyzing contemporary Hindi novels, and drawing on both Western and Hindi literary criticism, "Postmodern Traces and Recent Hindi Novels" aims to understand some of the manifestations of postmodernism in contemporary Hindi fiction, including ways the latter might challenge the traditional parameters of postmodern literature. This book is essential reading for scholars and students specializing in South Asian studies and both postcolonial and comparative literature. It will also interest the general reader curious to know more about one of the less explored areas of world literature.

India in Translation Through Hindi Literature Maya Burger 2010 What role have translations from Hindi literary works played in shaping and transforming our knowledge about India? In this book, renowned scholars, translators and Hindi writers from India, Europe, and the United States offer their approaches to this question. Their articles deal with the political, cultural, and linguistic criteria germane to the selection and translation of Hindi works, the nature of the enduring links between India and Europe, and the reception of translated texts, particularly through the perspective of book history. More personal essays, both on the writing process itself or on the practice of translation, complete the volume and highlight the plurality of voices that are inherent to any translation. As the outcome of an international symposium held at the University of Lausanne, Switzerland, in 2008, *India in Translation through Hindi Literature* engages in the building of critical histories of the encounter between India and the «West», the use and impact of translations in this context, and Hindi literature and culture in connection to English (post)colonial power, literature and culture.
