Combating Trafficking in Persons - 2009

Trafficking in persons is a form of modern-day slavery, a human rights violation that constitutes a crime against the individual and the State. It must be recognized and punished by legislative means. Parliamentarians have an essential role to play in the fight against human trafficking. The Handbook for Parliamentarians suggests some practical ways in which they can develop and promote the comprehensive frameworks needed to do so.

Human Trafficking in Thailand - Siroj Sorajjakool 2013-10-15

Few subjects elicit greater moral outrage than human trafficking. Media reports of dehumanizing practices such as slavery, abduction, child prostitution, and torture, along with shocking statistics, form the basis of public knowledge. Those who work closely with victims acknowledge the complexity of the issue, and it is this complexity, rather than loose

statistics and conjecture, that deserves our attention. With sensitivity and candor, this book addresses the reality of human trafficking in Thailand, dissecting studies, presenting facts, and dismissing stereotypes. It focuses on the areas of fishing, agriculture, domestic work, sex work, and the trafficking of children, weaving individual narratives and official studies into the wider history of Thailand's changing economy and labor situation. It also details how the Thai government has addressed the issue, reflects on the roots of human exploitation, and suggests a way forward. This book raises much-needed awareness of commonly held misconceptions and clarifies what we know and what we have yet to discover about the trafficking of persons to and from Thailand. Highlights • Concise and accessible study of the reality of human trafficking in Thailand • Thorough critical analysis of current policies and public discourse on trafficking • Details relevant Thai and international laws • Discusses the relationship between the modern economic system and exploitation • Analyzes the changing face of the Thai labor market and the impact of industrialization on the Thai population

The Legacy of Racism for Children - Margaret C. Stevenson 2020
 "The Legacy of Racism for Children: Psychology, Law, and Public Policy is the first volume to review the intersecting implications of psychology, public policy, and law with the goal of understanding and ending the challenges facing racial minority youth in America today. Proceeding roughly from causes to consequences - from early life experiences to adolescent and teen experiences - each chapter focuses on a different domain, explains the laws and policies that create or exacerbate racial disparity in that domain, reviews relevant psychological research and its implications for those laws or policies, and calls for next steps. Chapter authors examine how race and ethnicity intersect with child maltreatment (including child sex trafficking, corporal punishment, and memory for and disclosures of abuse), child dependency court decisions, custody and adoption, familial incarceration, the "school to prison pipeline," police/youth interactions, jurors' perceptions of child and adolescent victims and defendants, and U.S. immigration law and policy"-

The Slave Across the Street - Theresa L. Flores 2019-08-17

*** Wall Street Journal and USA Today best seller! *** While more and more people each day become aware of the dangerous world of human trafficking, most people in the U.S. still believe this is something that happens to foreign women, men, and children--not something that happens to their own. In this powerful true story, Theresa L. Flores shares how her life as an All-American, blonde-haired 15-year-old teenager who could have been your neighbor was enslaved into the dangerous world of sex trafficking while living in an upper-middle class suburb of Detroit. Her story peels the cover off of this horrific criminal activity and gives dedicated activists as well as casual bystanders a glimpse into the underbelly of trafficking. And it all happened while living at home without her parents ever knowing about it. Involuntarily involved in a large underground criminal ring, Ms. Flores endured more as a child than most adults will ever face their entire lives. In this book, Ms. Flores discusses how she healed the wounds of sexual servitude and offers advice to parents and professionals on preventing this from occurring again, educating and presenting significant facts on human

trafficking in modern day America.

Human Trafficking - Noël Bridget Busch-Armendariz 2017-03-31

This practical, interdisciplinary text draws from empirically grounded scholarship, survivor-centered practices, and an ecological perspective to help readers develop an understanding of the meaning and scope of human trafficking. Throughout the book, the authors address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

Vulnerable - Raleigh Sadler 2019-02-01

There are more than 40 million enslaved people in the world today. This is overwhelming. A number so large leaves us asking, What could I even do to help? In his book *Vulnerable: Rethinking Human Trafficking*, Raleigh Sadler, president and founder of Let My People Go, makes the case that anyone can fight human trafficking by focusing on those who are most often targeted. This book invites the reader to understand their role in the problem of human trafficking, but more importantly, their role in the solution. Human trafficking can be defined as the exploitation of vulnerability for commercial gain. Using the power of story and candid interviews, Sadler seeks to discover how ordinary people can fight human trafficking by recognizing vulnerability and entering in. As vulnerable people, we can empower other vulnerable people, because Christ was made vulnerable for us.

Commercial Sexual Exploitation of Children - Brandy Bang 2013-10-14

The commercial exploitation of children is a global crisis (Rahman, 2011; Svensson, 2006). However, media outlets and sociological researchers

have successfully situated the problem as a primarily Asian, South American, or Eastern European concern. In the process, the exploitation of children in the United States has largely been ignored. The continued trafficking of international youth into this country, coupled with the growing rate at which American born children are targeted by interstate sex traffickers, speaks to the urgency with which the domestic exploitation of children must be addressed (Walker-Rodriguez & Hill, 2011). In fact, research suggests that an average of 250,000 American children and adolescents are at risk of commercial exploitation each year (Estes & Weiner, 2001). Further, there are indications that current data vastly underestimate the actual numbers of vulnerable and victimized youth (Chase & Statham, 2005). According to the U.S. Department of Justice (2007), no systematic efforts have been made to examine the commercial exploitation of children in this country. The low visibilities of the crime, combined with the inherent vulnerability of the victims, have facilitated the continued victimization of these children. The purpose of this book is to provide a critical analysis of the domestic, commercial exploitation of children. A careful explanation of the differing forms of commercial exploitation of children, victim and offender characteristics, and the mechanisms which maintain the problem will assist health care providers, researchers, and law enforcement in their efforts with this marginalized and understudied population. The authors begin with a comprehensive review of extant literature in this area. Additionally, case studies of child sexual exploitation are included to further illustrate the severity, complexity, and depravity of commercial exploitation in real life cases.

HARLOT Feminist Magazine . Truth Is Stranger Than Fiction - Mia White 2009-07-01

Sex Trafficking - Siddharth Kara 2017-08-29

“The best book ever written on human trafficking for sexual exploitation”—the basis for the feature film, *Trafficked*, starring Ashley Judd (Kevin Bales, president of Free the Slaves). Every year, hundreds of thousands of women and children are abducted, deceived, seduced, or

sold into forced prostitution. These trafficked sex slaves form the backbone of one of the world's most profitable illicit enterprises and generate huge profits for their exploiters, for unlike narcotics, which must be grown, harvested, refined, and packaged, sex slaves require no such "processing," and can be repeatedly "consumed." In this book, Kara provides a riveting account of his four-continent journey into this unconscionable industry, sharing the moving stories of its victims and revealing the shocking conditions of their exploitation. He draws on his background in finance, economics, and law to provide the first ever business analysis of contemporary slavery worldwide, focusing on its most profitable and barbaric form: sex trafficking. Kara describes the local factors and global economic forces that gave rise to this and other forms of modern slavery over the past two decades and quantifies, for the first time, the size, growth, and profitability of each industry. Finally, he identifies the sectors of the sex trafficking industry that would be hardest hit by specifically designed interventions and recommends the specific legal, tactical, and policy measures that would target these vulnerable sectors and help to abolish this form of slavery, once and for all. The author will donate a portion of the proceeds of this book to the anti-slavery organization, Free the Slaves. "Sex trafficking is more of a problem than most people realize. Read this well-written book and find out."—Kirk Douglas

Global Report on Trafficking in Persons 2016 - United Nations Office on Drugs and Crime 2017-01-11

The UNODC Global Report on Trafficking in Persons 2016 is the third of its kind mandated by the United Nations General Assembly. In July 2010, the UNGA adopted the Global Plan of Action to Combat Trafficking in Persons. The Report covers and provides an overview of patterns and flows of trafficking in persons at the global, regional and national levels, based on trafficking cases detected mainly between 2012 and 2014. It looks at links between trafficking in persons, migration and conflict, and how refugees may be particularly vulnerable to being trafficked. The worldwide response to trafficking in persons, particularly in terms of criminalization and prosecution of trafficking crimes, is also a focus of

this edition of the Global Report. Also included are the Country Profiles. **Human Trafficking Around the World** - Stephanie Hepburn 2013-06-04

This unprecedented study of sex trafficking, forced labor, organ trafficking, and sex tourism across twenty-four nations highlights the experiences of the victims, perpetrators, and anti-traffickers involved in this brutal trade. Combining statistical data with intimate accounts and interviews, journalist Stephanie Hepburn and justice scholar Rita J. Simon create a dynamic volume sure to educate and spur action. Hepburn and Simon recount the lives of victims during and after their experience with trafficking, and they follow the activities of traffickers before capture and their outcomes after sentencing. Each chapter centers on the trafficking practices and anti-trafficking measures of a single country: Australia, Brazil, Canada, Chile, China, Colombia, France, Germany, India, Iran, Iraq, Israel, Italy, Japan, Mexico, Niger, Poland, Russia, South Africa, Syria, Thailand, the United Arab Emirates, the United Kingdom, and the United States. Examining these nations' laws, Hepburn and Simon reveal gaps in legislation and enforcement and outline the cultural norms and biases, societal assumptions, and conflicting policies that make trafficking scenarios so pervasive and resilient. This study points out those most vulnerable in each nation and the specific cultural, economic, environmental, and geopolitical factors that contribute to each nation's trafficking issues. Furthermore, the study also highlights common phenomena that governments and international anti-traffickers should consider in their fight against this illicit trade.

Human Trafficking - Kathryn Cullen-DuPont 2009

"Despite the United Nations having officially abolished slavery and the slave trade more than 60 years ago, millions of human beings continue to be enslaved. Human trafficking - the official term for the modern-day slave trade - consists of buying and selling people with the intent of exploiting them through forced labor or sexual acts. Human Trafficking provides a thorough examination of this issue. It describes the suffering caused by human trafficking as well as the financial and cultural

conditions that make modern slavery possible, both within and beyond national borders. The efforts of the United Nations, national governments, and nongovernmental organizations to combat human trafficking are thoroughly discussed, as are those to provide direct aid to the individual victims. Human Trafficking is an eye-opening account that examines how the trade is conducted in the United States, the Netherlands, Nigeria, India, and Belize. Each case study analyzes the patterns of trade, the types of exploitation, why countries have failed to halt the practice, and the unrelenting efforts to eradicate human trafficking"--Provided by publisher.
