[Women of the Midan - Sherine Hafez 2019-04-03](#)

In *Women of the Midan*, Sherine Hafez demonstrates how women were a central part of revolutionary process of the Arab Spring. Women not only protested in the streets of Cairo, they demanded democracy, social justice, and renegotiation of a variety of sociocultural structures that repressed and disciplined them. Women's resistance to state control, Islamism, neoliberal market changes, the military establishment, and patriarchal systems forged new paths of dissent and transformation. Through firsthand accounts of women

who participated in the revolution, Hafez illustrates how the gendered body signifies collective action and the revolutionary narrative. Using the concept of rememory, Hafez shows how the body is inseparably linked to the trauma of the revolutionary struggle. While delving into the complex weave of public space, government control, masculinity, and religious and cultural norms, Hafez sheds light on women's relationship to the state in the Arab world today and how the state, in turn, shapes individuals and marks gendered bodies.

*Embrace Me* - Lisa Samson 2008-03-04

Biting and gentle, hard-edged and hopeful . . . a beautiful fable of love and power, hiding and seeking, woundedness and redemption. When a "lizard woman," a self-mutilating preacher, a tattooed monk, and a sleazy lobbyist find themselves in the same North Carolina town one winter, their lives are edging precariously close to disaster . . . and improbably close to grace.

*Would Jesus Date A Woman Like Me?* - Brian Bolden 2015-02-11

Throughout the centuries, frustration, disappointment, and despair on both sides has created a great divide between black women and black men. In the world of relationships, it has become increasingly difficult for black women to make an emotional, spiritual, and psychological connection with black men. For many women, they don't even know how to begin to put on a different "hat" and often find themselves saying, "Why can't I find a good black man?" The truth of the matter is, many black women are sinking and drowning, according to many black men. On the other side of the spectrum there are black men who also have a considerable amount of scar tissue to deal with, not the least of which has been black women who are deceitful, disrespectful, high maintenance, materialistic gold diggers with "get paid" mentalities. The end result is that many black men have become frustrated with black women and have also chosen to cross color lines in unbelievably large numbers. For those black men, having a strong Nubian queen by their side has become nothing more than a pipe dream they used to have. For them, dating outside their race is no longer taboo and no longer creates the innate feeling of betraying black women. Sadly, a lot of black men all over the country have lost love and respect for many black women. A lot of black men feel many black women have no idea how to love them, care for them, or nurture their men. They no longer believe that black women are good homemakers nor can they keep a peaceful home. This is an epidemic that has spread all over America. It is my sincere belief that the thoughts and ideas outlined in my book will help answer numerous questions with which black women continue to struggle regarding their relationships with men—particularly black American men, such as: Why will he bed me but not wed me? Why have many black women lost the love and respect of black men? Why are black men continuing to cross the fence in alarming numbers? Why are black men becoming more hesitant to approach black women? Are black men really intimidated by successful black women? Why are so many black men disappointed, discouraged, and frustrated with many black women? Why do many black men see black women as too difficult and too complicated to deal with? Why are some black men making a vow to never date or marry another black woman ever again? Why are many black women hitting home runs in their careers but striking out in their relationships and marriages? These are some of the questions that are answered in this book. This is why it was so important for me to write this book. I want to inform black women in America what they need to do to help restore the faith of good-quality black men. I want black women to understand that I am writing this book as a wake-up call. If I do my job well, perhaps these words will sufficiently energize the mind, heart, and soul of the amazing creation God called woman to stimulate positive behavioral change in her—or at least provoke a little thought. Now, I know I'm treading on thin ice here, but trust me when I say this book

is not about bashing black women in America. It's a book about reality and truth. More often than not, most of us do not like to hear the truth because it forces us to take a good look at ourselves, blemishes and all. The old adage, "The truth hurts," could certainly apply here. However, another old adage is also applicable: "The truth shall set you free." By writing this book, I truly hope to make it easier for black men and woman to come together as one. I want black women to understand that just because many black men have lost faith doesn't mean that we have given up on you. The reality is that sometimes we need to be challenged, and this book will definitely challenge many black women in America to take an introspective look at themselves. *A Woman Like Me* - Bettye LaVette 2012-09-27

Acclaimed R&B singer Bettye LaVette celebrates her storied career in show business with her stunning memoir, *A Woman Like Me*, and her new album, *Thankful N' Thoughtful*. As a teenager in Detroit, Bettye LaVette had a hit single with "My Man—He's a Lovin' Man." By the time she was twenty, she had faded back into obscurity and was barely surviving in New York City. For the next forty years, despite being associated with legends such as Aretha Franklin, Otis Redding, Marvin Gaye, and James Brown, she remained relatively unknown outside a circle of devoted fans. Every time it seemed that her dream of stepping into the spotlight was finally coming true, bad luck smashed her hopes, again and again. Then, after a lifetime of singing in clubs and lounges, her unforgettable televised performances at the 2008 Kennedy Center Honors and at President Obama's pre-Inaugural Concert at the Lincoln Memorial in 2009 won her the recognition she had sought for her entire life. Bettye LaVette's career has been a one-of-a-kind roller-coaster ride through the world of music; it has taken her from the peaks to the pits and back. In this unflinchingly honest memoir, she boldly recounts her freewheeling childhood—her parents ran an illegal liquor business out of their living room, which was frequented by some of the top acts of the forties and fifties—her short-lived conquest of the R&B world in the 1960s, her decline into poverty and despair, and her recent comeback and career revival, with two Grammy-nominated CDs and numerous appearances on major television talk shows. Poignant, brazen, and fearless, *A Woman Like Me* is a tour de force from one of the most outspoken female performers singing today—and she's a force to be reckoned with.

*The Red Riviera* - Kristen Ghodsee 2005-10-12

This compelling ethnography of women working in Bulgaria's popular sea and ski resorts challenges the idea that women have consistently fared worse than men in Eastern Europe's transition from socialism to a market economy. For decades western European tourists have flocked to Bulgaria's beautiful beaches and mountains; tourism is today one of the few successful—and expanding—sectors of the country's economy. Even at the highest levels of management, employment in the tourism industry has long been dominated by women. Kristen Ghodsee explains why this is and how women working in the industry have successfully

negotiated their way through Bulgaria's capitalist transformation while the fortunes of most of the population have plummeted. She highlights how, prior to 1989, the communist planners sought to create full employment for all at the same time that they steered women into the service sector. The women given jobs in tourism obtained higher educations, foreign language skills, and experiences working with Westerners, all of which positioned them to take advantage of the institutional changes eventually brought about by privatization. Interspersed throughout *The Red Riviera* are vivid examinations of the lives of Bulgarian women, including a waitress, a tour operator, a chef, a maid, a receptionist, and a travel agent. Through these women's stories, Ghodsee describes their employment prior to 1989 and after. She considers the postsocialist forces that have shaped the tourist industry over the past fifteen years: the emergence of a new democratic state, the small but increasing interest of foreign investors and transnational corporations, and the proliferation of ngos. Ghodsee suggests that many of the ngos, by insisting that Bulgarian women are necessarily disenfranchised, ignore their significant professional successes.

**WOMEN THINK LOVE DOESN'T EXIST** - Quezzy The CEO

Men, let's be honest for a second. You love women, I love women, but we have these women thinking that love doesn't exist. Have you ever taken the time to listen to what women are really going through? What happens when thousands of women around the world keep complaining about the same basic things over and over? Women of all ages, races, nationalities, cultures, and skin tones are all upset about the same things. This cannot be a coincidence. Something is truly wrong with the way we as men conduct ourselves in relationships. This book contains just a few of the experiences from women that I have interviewed. My hope is that these interviews will give men a better idea of what we are doing to our beautiful women.

**Too Few Women at the Top** - Kumiko Nemoto 2016-08-03

The number of women in positions of power and authority in Japanese companies has remained small despite the increase in the number of educated women and the passage of legislation on gender equality. In *Too Few Women at the Top*, Kumiko Nemoto draws on theoretical insights regarding Japan's coordinated capitalism and institutional stasis to challenge claims that the surge in women's education and employment will logically lead to the decline of gender inequality and eventually improve women's status in the Japanese workplace. Nemoto's interviews with diverse groups of workers at three Japanese financial companies and two cosmetics companies in Tokyo reveal the persistence of vertical sex segregation as a cost-saving measure by Japanese companies. Women's advancement is impeded by customs including seniority pay and promotion, track-based hiring of women, long working hours, and the absence of women leaders. Nemoto contends that an improvement in gender equality in the corporate system will require that Japan fundamentally depart from its postwar methods of business management. Only when the static labor market is revitalized through adoption of new systems of cost savings, employee hiring, and rewards will Japanese women advance in their chosen professions. Comparison with the situation in the United States makes the author's analysis of the Japanese case relevant for understanding the dynamics of the glass ceiling in U.S. workplaces as well.
