Making a Virtue of Necessity L. Ayo Banjo,1996 The author is a prominent linguistics scholar The study of sociolinguistics of the English language in Nigeria has assumed great importance in Nigerian universities Against the background of key works from 1971 to 1991 and the growing debate over an optimal language policy for Nigeria he looks at the perspectives of an individual writer to provide an overview of the language since its earliest contacts with what is now known as Nigeria One important gap which he identifies is the paucity of illustrative data even from the three main Nigerian languages

The Sociology and Politics of English in Nigeria Femi Akindele,1992

Glocal English Farooq A. Kperogi,2015-06-22 Glocal English compares the usage patterns and stylistic conventions of the world s two dominant native varieties of English British and American English with Nigerian English which ranks as the English world s fastest growing non native variety courtesy of the unrelenting ubiquity of the Nigerian English language movie industry in Africa and the Black Atlantic Diaspora Using contemporary examples from the mass media and the author s rich experiential data the book isolates the peculiar structural grammatical and stylistic characteristics of Nigerian English and shows its similarities as well as its often humorous differences with British and American English Although Nigerian English forms the backdrop of the book it will benefit teachers of English as a second or foreign language across the world Similarly because it presents complex grammatical concepts in a lucid personal narrative style it is useful both to a general and a specialist audience including people who study anthropology and globalization The true life experiential encounters that the book uses to instantiate the differences and similarities between Nigerian English and native varieties of English will make it valuable as an empirical data mine for disciplines that investigate the movement and diffusion of linguistic codes across the bounds of nations and states in the age of globalization

Migration, Human Smuggling, and Trafficking from Nigeria to Europe Jørgen Carling,International Organization for Migration,2006 Migration from Nigeria to Europe has attracted considerable attention from both governments and the media This is partly because some elements of this migration flow are related to trafficking in persons and other criminal activities and also because Nigerians have become prominent among sub Saharan African asylum seekers in Europe Publisher s description

Nigerian English David Jowitt, 2018-11-05 Although the past few decades have witnessed growing interest in varieties of English around the world no study of the Nigerian variety intended for the international market has yet been published Making use of well known paradigms the book will relate Nigerian English as a Second Language variety to other World Englishes Its chief overall concern however is to provide a detailed descriptive account of the variety seeking to show what is distinctive about it and also in this perspective distinguishing between more educated and less educated usage After giving a sociolinguistic profile of Nigeria where English today enjoys a more prominent role than ever before it will examine in turn the phonology morpho syntax and lexico semantics of Nigerian English with samples of written texts from the eighteenth century to the present It will also give a comprehensive summary of academic research carried out in the field over the past fifty years In this way the book will provide an introduction to the subject for the benefit of scholars and students in universities in many countries and will serve as a useful companion to other books in De Gruyter Mouton s Dialects of English series
