Why a Black Man Should Marry a White Women - Artimus Quick
2019-05-29

Why should a black man marry a white woman? This question is truly a reflection of the state of disfunction each black person experiences in the

American social landscape. It defines why we hate ourselves so much. Who we are as a people, what our group behaviors display, and how we perceive one another are all affected by our own self perceptions. Do you look at yourself through the critical lens of a white person? Can you ever really love anyone if you don't love yourself? How can we find acceptance from within and add value to our relationships? This book seeks to define the scenarios where blacks fail each other daily and how each interaction can leave lasting detrimental effects which repeatedly cycle throughout the community. Should interracial relationships even happen? Does this question even matter if both the men and women of color don't wholeheartedly find value in themselves? Frankly put, if there is any hope for the future in the African American community, black men must learn a new level of accountability, commitment, and strength. If not, the answer is simple, A Black Man MUST Marry A White Women... Topics Include: Single mother homes Young black men in America, Aspiring single women, Light skin vs Dark skin women of color, Black men in the workplace, Interracial relationships, Black on Black crime
Why Black Men Choose White Women - Rosie Milligan 1998

Black Men on Race, Gender, and Sexuality - Devon Carbado 1999-07
 A groundbreaking anthology of essays providing commentary on gender and sexuality inclusion in the antiracist movement. In late 1995, the Million Man March drew hundreds of thousands of black men to Washington, DC, and seemed even to skeptics a powerful sign not only of black male solidarity, but also of black racial solidarity. Yet while generating a sense of community and common purpose, the Million Man March, with its deliberate exclusion of women and implicit rejection of black gay men, also highlighted one of the central faultlines in African American politics: the role of gender and sexuality in antiracist agenda. In this groundbreaking anthology, a companion to the highly successful *Critical Race Feminism*, Devon Carbado changes the terms of the debate over racism, gender, and sexuality in black America. The essays cover such topics as the legal construction of black male identity, domestic abuse in the black community, the enduring power of black machismo,

the politics of black male/white female relationships, racial essentialism, the role of black men in black women's quest for racial equality, and the heterosexist nature of black political engagement. "Featuring work by Cornel West, Huey Newton, Henry Louis Gates, Jr., A. Leon Higginbotham, Jr., Houston Baker, Marlon T. Riggs, Dwight McBride, Michael Awkward, Ishmael Reed, Derrick Bell, and many others, Devon Carbado's anthology stakes out new territory in the American racial landscape."—*Critical America*, A series edited by Richard Delgado and Jean Stephancic

Race Mixing - Renee Christine Romano 2009-06-30

Marriage between blacks and whites is a longstanding and deeply ingrained taboo in American culture. On the eve of World War II, mixed-race marriage was illegal in most states. Yet, sixty years later, black-white marriage is no longer illegal or a divisive political issue, and the number of such couples and their mixed-race children has risen dramatically. Renee Romano explains how and why such marriages have gained acceptance, and what this tells us about race relations in contemporary America. The history of interracial marriage helps us understand the extent to which America has overcome its racist past, and how much further we must go to achieve meaningful racial equality.

Interracial Marriages Between Black Women and White Men - Cheryl Yvette Judice 2008

Interracial marriages between African Americans and Caucasian Americans in the United States are the least common of all interracial marriages, with marriages between black women and white men being the less frequent of the two combinations. Since the 1990s, however, increasing numbers of black women have been marrying white men. This book examines the dynamics of race, social class and marriage in contemporary American society specifically with respect to marriages between African Americans and Caucasian Americans, comparing and contrasting the experiences of couples in both intermarriage patterns. Despite being the focus of extensive sociological and psychological research during the latter half of the twentieth century, most research on black-white intermarriage focused on African American men who

married white women. Sociological research focused on the deviant nature of these marriages while psychological research focused on various pathologies attributed to couples who crossed the color line to marry. Little research was directed towards marriages between African American women and white men with even less attention given to delineating differences in the two black-white marital pairings. As marriages between African American women and white men have become more common, it is important to understand why this trend has emerged and how this marriage type differs from the more prevalent African American man, white woman marriage combination. This book is one of the first published on interracial marriages which focuses specifically on marriages between African American women and Caucasian American men in contemporary America. The author examines the historical, social, and legal contexts from which these marriages emerged while demonstrating how the race and sex of each partner is important to understanding how the marriage is socially experienced. *Interracial Marriages Between Black women and White Men* is an important book for collections in African American studies, sociology, and racial studies.

I Want What Most White Women Got - Veronica Blakely 2006-12

This book of poetry looks at relationships in the African American community and how some black males choose women who are light-skinned or white over their dark-skinned female counterparts.

Is Marriage for White People? - Ralph Richard Banks 2011-09-01

A distinguished Stanford law professor examines the steep decline in marriage rates among the African American middle class, and offers a paradoxical-nearly incendiary-solution. Black women are three times as likely as white women to never marry. That sobering statistic reflects a broader reality: African Americans are the most unmarried people in our nation, and contrary to public perception the racial gap in marriage is not confined to women or the poor. Black men, particularly the most successful and affluent, are less likely to marry than their white counterparts. College educated black women are twice as likely as their white peers never to marry. *Is Marriage for White People?* is the first

book to illuminate the many facets of the African American marriage decline and its implications for American society. The book explains the social and economic forces that have undermined marriage for African Americans and that shape everyone's lives. It distills the best available research to trace the black marriage decline's far reaching consequences, including the disproportionate likelihood of abortion, sexually transmitted diseases, single parenthood, same sex relationships, polygamous relationships, and celibacy among black women. This book centers on the experiences not of men or of the poor but of those black women who have surged ahead, even as black men have fallen behind. There is a story that has not been told. Empirical evidence documents its social significance, but its meaning emerges through stories drawn from the lives of women across the nation. *Is Marriage for White People?* frames the stark predicament that millions of black women now face: marry down or marry out. At the core of the inquiry is a paradox substantiated by evidence and experience alike: If more black women married white men, then more black men and women would marry each other. This book not only sits at the intersection of two large and well-established markets-race and marriage-it responds to yearnings that are widespread and deep in American society. The African American marriage decline is a secret in plain view about which people want to know more, intertwining as it does two of the most vexing issues in contemporary society. The fact that the most prominent family in our nation is now an African American couple only intensifies the interest, and the market. A book that entertains as it informs, *Is Marriage for White People?* will be the definitive guide to one of the most monumental social developments of the past half century.

Fat White Women and the Black Men That Love Them Vol 2 - Gareth Mayers 2016-12-03

When considering the issue of interracial relationships there still seems to exist a lot of negative opinions. After careful consideration of the outpouring of hate and vitriol found on youtube and other social media websites, there seems to be various arguments that keep coming up to explain interracial relationships in a negative light. These various

arguments usually have their main support groups. For example a number of white males say that "black men are only taking out white man's trash," or black females will say "he can't handle a real woman so he is going for these highly domesticated easy white women." (I've heard this one uttered in person) and while this may seem like just the ravings of a mindless racist troll, or an idiot ratchet chick, look closer at what they are saying and you begin to realize that a lot of people share some of the same strong deep seated belief in both white and black communities. We only need to think a little to see what belief in this theory can lead to; black women who internalize this would in effect be believing that black men view them as worse than trash, black men who share this view may look over potential partners out of fear, or shame. White women that have this view may settle for substandard men; thinking that they can't get a man of quality, and well, white men may suffer most of all in many an unforeseen way. In the first book we will discuss these issues mainly as they pertain to the white male then in the second we move on to the black female, finishing off in the third by addressing black men and white women. In doing this we are trying to give a different perspective to each viewpoint held, to offer a different perspective on the subject. But not in some boring scholarly talk with stats and graphs or hifalutin words but in a very simple down to earth way with a fresh comedic and entertaining story, that weaves all the points and counterpoints throughout leaving you, the reader to come to your own conclusions at the end. These books, while meant for you to have a great conversation piece or heavy thinking material are first and foremost supposed to be funny and entertaining, so take a load off - don't get stressed, we just going to have a good laugh at ourselves. So to the PC police leave the guns at the door or don't come in because we are definitely going to offend a lot of people here today but we don't care. This series of books was created hoping to answer questions posed by many people regarding interracial relationship between white women and black men. It focuses on women that are a little heavier than the average. This first book of the series addresses the assertion put out by a lot of white males, that say black men are taking our left-over trash. It

hopes to shine a light on this statement with a story that may be considered offensive by some, but I'll let you be the judge of that. What is certain is that it is an entertaining, light, fun, and easy read. If you found that it did not offend you and you enjoyed it, then you should check out the rest of the series. This story shines a light on the statement black women make when they say, that "black men can't handle a real woman, so they pick up docile white women". Again, this series may be offensive to some so please be warned! This story shines a light on the reality of interracial relationships, trying to show that when it comes to love skin color alone is not everything.

White Women, Black Men - Martha Hodes 2014-07-01

This book is the first to explore the history of a powerful category of illicit sex in America's past: liaisons between Southern white women and black men. Martha Hodes tells a series of stories about such liaisons in the years before the Civil War, explores the complex ways in which white Southerners tolerated them in the slave South, and shows how and why these responses changed with emancipation. Hodes provides details of the wedding of a white servant-woman and a slave man in 1681, an antebellum rape accusation that uncovered a relationship between an unmarried white woman and a slave, and a divorce plea from a white farmer based on an adulterous affair between his wife and a neighborhood slave. Drawing on sources that include courtroom testimony, legislative petitions, pardon pleas, and congressional testimony, she presents the voices of the authorities, eyewitnesses, and the transgressors themselves—and these voices seem to say that in the slave South, whites were not overwhelmingly concerned about such liaisons, beyond the racial and legal status of the children that were produced. Only with the advent of black freedom did the issue move beyond neighborhood dramas and into the arena of politics, becoming a much more serious taboo than it had ever been before. Hodes gives vivid examples of the violence that followed the upheaval of war, when black men and white women were targeted by the Ku Klux Klan and unprecedented white rage and terrorism against such liaisons began to erupt. An era of terror and lynchings was inaugurated, and the legacy of

these sexual politics lingered well into the twentieth century.

Why Black Men Love White Women - Rajen Persaud 2009-03-03

A provocative, candid study of the romantic relationships between white women and black men offers a psychological explanation for the phenomenon, as well as analyzing the influence of the entertainment industry, exposing stereotypes, and assessing the global implications of black and white relationships.

The Dating Divide - Celeste Vaughan Curington 2021-02-09

The data behind a distinct form of racism in online dating The Dating Divide is the first comprehensive look at "digital-sexual racism," a distinct form of racism that is mediated and amplified through the impersonal and anonymous context of online dating. Drawing on large-scale behavioral data from a mainstream dating website, extensive archival research, and more than seventy-five in-depth interviews with

daters of diverse racial backgrounds and sexual identities, Curington, Lundquist, and Lin illustrate how the seemingly open space of the internet interacts with the loss of social inhibition in cyberspace contexts, fostering openly expressed forms of sexual racism that are rarely exposed in face-to-face encounters. The Dating Divide is a fascinating look at how a contemporary conflux of individualization, consumerism, and the proliferation of digital technologies has given rise to a unique form of gendered racism in the era of swiping right—or left. The internet is often heralded as an equalizer, a seemingly level playing field, but the digital world also acts as an extension of and platform for the insidious prejudices and divisive impulses that affect social politics in the "real" world. Shedding light on how every click, swipe, or message can be linked to the history of racism and courtship in the United States, this compelling study uses data to show the racial biases at play in digital dating spaces.

Black Men in Interracial Relationships - Kellina Craig-Henderson
2017-07-28

Why is it that successful black men--black men who are "at the top of their game" in the arts, entertainment, politics and athletics--are four times as apt to be married to or dating a woman who is not an African American than they were only thirty years ago? And why are twice as many black men involved in interracial relationships as black women? In addition to their celebrity status, which includes widespread popularity and wealth, black men from Charles Barkley to James Earl Jones to Russell Simmons to Bryant Gumbel share something else in common; something that also characterizes the experiences of more than 250,000 less well-known black men in the United States. They happen to be involved in interracial intimate relationships. Less than fifty years ago such relationships were next to impossible, leading to severe social sanctions. The fact that this is no longer the case is concrete evidence of changes in the quality and character of contemporary race relations. Drawing on her own observations, and her examination of the responses of a small, diverse group of black men who date (in some cases exclusively), have sexual relations with, and marry women who are not of

African descent, the book provides insight into the continuing ways that race and ethnic status affect the choices people make in their lives. Until this book, though, these types of relationships have received scant serious attention. Craig-Henderson forthrightly addresses the taboo, interspersing analysis with verbatim accounts from black men involved in such relationships. Grounded in serious research, interviews, and analysis of census data, *Black Men in Interracial Relationships* examines why such relationships appear to be so popular among black male elites. In the process, the author unravels the mystery behind the apparent absence of black women in black men's lives. It will be of interest to specialists in race, gender, family, and sexual issues, and appropriate for courses in these areas. It is also highly readable and thought-provoking for the general public, who will find its observations and findings fascinating.

Why Black Men Jump the Fence? - Gabriel Woodhouse 2018-01-03

Seventy percent of black women are unmarried and are twice as likely as white women to remain unwed. Of those who do marry, black women more likely to marry down as black women in college outnumber black men to 2:1. Black women are also impacted by the resurgence of interracial marriages. In 2015, for instance, newlywed intermarriages for black men were 24 percent compared to 12 percent for black women. Through interviews, this book explores the reasons African American men chose to date or marry white women and other women outside of their race. With some advice from a matchmaker, minister, and African American men, the book will benefit women who are seeking to improve their relationships with their mates and find their happiness in life. It is my hope that the book will inspire black women and women of all races and nationalities to date whomever they choose without compromising their lifestyles or standards to do so.

Don't Bring Home a White Boy - Karyn Langhorne Folan 2010-02-02

Folan encourages readers to look beyond common generalizations and stereotypes about race and gender in interracial relationships. In *Don't Bring Home a White Boy*, writer Karyn Langhorne Folan debunks the myths and common preconceptions about interracial relationships: Is a black woman who dates white men a traitor to her race? And is America's history of black oppression a factor? Drawing on real-life testimonials, she boldly tackles this difficult subject with warmth, humor, and understanding, as she explores stereotypes of black female sexuality and white male perspectives on black female beauty. Folan goes beyond statistics and offers firsthand insights on her own interracial relationship and attempts to tap into a woman's desire to have all that they deserve instead of restricting themselves, simply because they want a "good black man." Frank, authoritative, and universally relevant, her message to women is to look beyond skin color, accept themselves for who they are, and seek a man who truly loves them, regardless of race.

Female White Racial Identity in Interracial Relationships with Black Men - Heidi Wright 2006

There is an escalating trend of interracial marriages in the US, specifically marriages that include Black men and White women. In 1997, there were 311,000 interracial (Black-White) married couples. Of those, 201,000 were comprised of Black men and White women and 110,000 were comprised of White men and Black women. Five years later, in 2002, there were 395,000 interracial (Black-White) married couples, 279,000 comprised of Black men and White women (US Census Bureau, 2003). This dramatic rise in the number of interracial relationships raises the question of why this trend is present, and what impact it is having on society and the people directly involved in these interracial relationships. Although many researchers note the increase in numbers of interracial

(Black-White) relationships, minimal research has given attention to the motivating factors behind these relationships or the impact these relationships may have on the participants. This hermeneutic phenomenological study examined the White racial identity (WRI) of White women in interracial relationships with Black men. Six White women in interracial relationships with Black men were interviewed about the impact of their interracial relationship on their White racial identity, female identity, and worldview. All women who were interviewed had prior experience in interracial relationships. Participants' levels of WRI were lower than expected, and the presence of a biracial child or a long history of interracial relationships was not related to the level of participants' interracial relationship development or WRI. Themes related to: an increase in awareness of White privilege and racism, a deepening of the connection with the Black community and culture, an awareness of stereotypes and racial tension, change in female and White racial identity, as well as an increased excitement and awareness of other interracial couples, families, and bi-racial children are explored. Clinical implications of the study are discussed.

It Ain't All Good - John Johnson 2004

Exploring the controversial subject and attraction of interracial relationships, this balanced analysis studies the historical, cultural, and societal mores that influence these unions. Factors such as slavery and the perception of white women as "forbidden fruit," the preponderance of women with lighter complexions in segments airing on BET and MTV, and the self-image and agenda of the African American male are explored in the context of how these issues may inadvertently influence the choice of a spouse from outside of the African American race. The reasons why a greater number of African American women marry within their race and the subtle and overt implications these marriages have on their immediate circle and the community at large are also examined.

What's Love Got to Do With It? - Donna Franklin 2001-09-11

Relationships between black men and women in America are in crisis—it's time to figure out what's gone wrong and start the healing process. The current divorce rates for black couples have quadrupled

since 1960 and is now double that of the general population; rates of domestic violence in black marriages are skyrocketing; and nearly half of married black men admit to having been unfaithful. In *What's Love Got to Do with It?* Donna Franklin, one of the country's leading African American sociologists, speaks out on these painful, complex issues, providing an incisive and riveting analysis of the gender tensions that are the legacy of slavery and its aftermath. Franklin breaks new ground in explaining why black men and women have trouble relating to each

other, and examines their profoundly different starting points, which are influenced by generations of racism and injustice. She shows how black women's strength and self-sufficiency can be used to nurture relationships. Likewise, she teaches black men how to support one another and their relationships with women without excluding women, as has happened with the Million Man March. The challenge of mending the rift between black men and women is formidable but can be made easier. Understanding is the first step on the path to healing.
