

Exclusion Homosexuals And The Right To Serve

Military Review - 1993

Exclusion - Melissa Wells-Petry 1993-04-01

In 1991 the U.S. Army sent Major Melissa Wells-Petry to the University Of Virginia Law School to research and write an in-depth report on the legal and social implications of admitting homosexuals into the armed forces. But the report was never released--it contradicted "politically correct" opinion. Now comes the release of the report the Army doesn't want you to read.

Professional Journal of the United States Army - 1993

To Promote the General Welfare - David E. Carney 1999

The essays collected in *To Promote the General Welfare* explore communitarianism, which examines the balance between rights and responsibilities, the need for a common good, and the need for diversity within unity. In the book ten preeminent scholars explore nine areas of the law-civil, criminal, constitutional-to explicate how a communitarian worldview might change or interpret the existing law. For example, Philip Selznick sketches a picture of communitarian justice in its broad terms. Robert Ackerman argues that tort liability needs to be expanded in some areas and contracted in others to effectuate a more communitarian tort regime. Akhil Reed Amar and Alan Hirsch offer a communitarian reading of the Second Amendment and related parts of the Constitution, challenging Supreme Court precedent on issues that spring from the Second Amendment. Milton Regan challenges recent law-and-economics approach to marriage and divorce, and counters with the need to assess relationships as shared experiences, not merely consumerist interactions. And Gordon Bazemore breathes new life into the crime-control debate by suggesting a communitarian approach to American criminal justice, an approach that emphasizes community justice and restorative justice. These thoughtful analyses along with the others included in *To Promote the General Welfare* comprise a must-read for anyone interested in the law and social policy.

Do Ask, Do Tell - Bill Boushka 2000

The original Bill of Rights, sponsored largely by James Madison, is now about 210 years old. Reinforced by the Fourteenth Amendment, which eventually applied many of its provisions to the states, it has served us well. It is time to re-evaluate our fundamental constitutional rights and to seriously consider their major renovation. This is my central proposal. Are we ready to trust ourselves as individuals with the personal responsibilities that go with rights? When government defines personal moral values, we tend to take less account for not only our own actions but also our own underlying values, for those spiritual yearnings that make us, all unique people, who we are. We tend to lose interest in speaking for ourselves and tend to leave moral judgments to "experts" who get paid to pass judgment on all of us. I discuss a philosophy, often called libertarianism, of extremely restricted government. I present it from the personal perspective of a gay man who grew up in a period of enormous change and migration toward cultural individualism. My argument is intended for everyone, but I provide my own detailed perspectives on many issues. The parallel between draft deferments during the Vietnam era and the gays-in-the-military battle today How close the gay community, as we know it, came to total catastrophe during the early days of AIDS crisis What the "family values" debate is really all about Volunteerism and social obligations, and how both military service and parenting fit into these What "discrimination" is really all about How the "Don't Tell" mentality interferes with political and social debate in many areas Why equal rights for gays is important for everybody A science of personal growth and why libertarianism is good for personal growth

The End of Don't Ask, Don't Tell: The Impact in Studies and Personal Essays by Service Members and Veterans - J Ford Huffman 2012-12-03

Featuring 4 reports and 25 personal essays from diverse voices—both straight and gay—representing U.S. Marine Corps, Army, Navy, and Air Force veterans and service members, this anthology examines the impact of "Don't Ask, Don't Tell" and its repeal on 20 September 2011 in order to benefit policy makers, historians, researchers, and general readers. Topics include lessons from foreign militaries, serving while openly gay,

women at war, returning to duty, marching forward after repeal, and support for the committed same-sex partners and families of gay service members.

Life Course Perspectives on Military Service - Janet M. Wilmoth 2013-01-04

This edited volume provides a comprehensive and critical review of what we know about military service and the life course, what we don't know, and what we need to do to better understand the role of military service in shaping people's lives. It demonstrates that the military, like colleges and prisons, is a key social institution that engages individuals in early adulthood and shapes processes of cumulative (dis)advantage over the life course. The chapters provide topical syntheses of the vast but diffuse research literatures on military service and the life course, while the volume as a whole helps to set the agenda for the next generation of data collection and scholarship. Chapter authors pay particular attention to how the military has changed over time; how experiences of military service vary across cohorts and persons with different characteristics; how military service affects the lives of service members' spouses, children, and families; and the linkages between research and policy. Proceedings of the United States Naval Institute - United States Naval Institute 1993

Don't Ask, Don't Tell - Aaron Belkin 2003

Conservatives and liberals agree that President Bill Clinton's effort to lift the military's gay ban was perhaps one of the greatest blunders of his tenure in office. In this text, experts of both persuasions come together to debate the critical aspects of the gays-in-the-military issue.

Straightforward - Ian Ayres 2005-05-08

Two noted legal experts introduce a series of practical strategies for helping straight men and women advocate for and with the gay community, covering such issues as marriage rights, employment discrimination, gays in the military, exclusion from the Boy Scouts, and religious controversies over homosexuality.

The Lavender Scare - David K. Johnson 2023-03-22

A new edition of a classic work of history, revealing the anti-homosexual purges of midcentury Washington. In *The Lavender Scare*, David K. Johnson tells the frightening story of how, during the Cold War, homosexuals were considered as dangerous a threat to national security as Communists. Charges that the Roosevelt and Truman administrations were havens for homosexuals proved a potent political weapon, sparking a "Lavender Scare" more vehement and long-lasting than Joseph McCarthy's Red Scare. Drawing on declassified documents, years of research in the records of the National Archives and the FBI, and interviews with former civil servants, Johnson recreates the vibrant gay subculture that flourished in midcentury Washington and takes us inside the security interrogation rooms where anti-homosexual purges ruined the lives and careers of thousands of Americans. This enlarged edition of Johnson's classic work of history—the winner of numerous awards and the basis for an acclaimed documentary broadcast on PBS—features a new epilogue, bringing the still-relevant story into the twenty-first century.

Gay Rights, Military Wrongs - Craig A. Rimmerman 2013-10-15

First Published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

Paradigms of International Human Rights Law - Aaron Xavier Fellmeth 2016

"This book explores the legal, ethical, and other policy consequences of three core structural features of international human rights law: the focus on individual rights instead of duties; the division of rights into substantive and nondiscrimination categories; and the use of positive and negative right paradigms."--Book jacket.

Airpower Journal - 1994

International Labour Law Reports - Alan Gladstone 2001-03-01

The "International Labour Law Reports" is a series of annual publications of labour law judgements by the highest courts in a number of jurisdictions. "ILLR" is intended primarily for the use of judges, labour law practitioners, industrial relations specialists and students who need or desire ready access to authoritative information of a comparative

nature on problems arising in the field of labour law and industrial relations. Each judgement reprinted in "ILLR" is accompanied by Headnotes and in practically all cases by an Annotation which sets forth, among other things, the legal issues involved, the basic facts of the case (if not included in the judgement itself), the relevant statutory provisions and judicial precedents, the labour law and industrial relations context in which the case arose and the significance of the judgement in the development of the law. As a rule, judgements are printed "in extenso"; editorial discretion has been relied upon to delete or to summarize portions of judgements that are purely technical or only of marginal interest. "Volume 19" covers the period 1 October 1998 to 30 September 1999.

The Gay 90s - Paul Cameron 1993

Gays and Lesbians in the Military - Wilbur J. Scott

Despite the amply documented presence of significant numbers of undeclared homosexual soldiers, sailors, and Air Force personnel, the official position of the American military since the Second World War has been to ban gay men and lesbian women from serving in the United States military. Enlistment of openly gay or lesbian military personnel has not been permitted; those already in the military service who have subsequently "come out" as gays and lesbians have been mustered out of the service, with no prospect of appeal.

Us Against Them - Donald R. Kinder 2010-04-15

Ethnocentrism—our tendency to partition the human world into in-groups and out-groups—pervades societies around the world. Surprisingly, though, few scholars have explored its role in political life. Donald Kinder and Cindy Kam fill this gap with *Us Against Them*, their

definitive explanation of how ethnocentrism shapes American public opinion. Arguing that humans are broadly predisposed to ethnocentrism, Kinder and Kam explore its impact on our attitudes toward an array of issues, including the war on terror, humanitarian assistance, immigration, the sanctity of marriage, and the reform of social programs. The authors ground their study in previous theories from a wide range of disciplines, establishing a new framework for understanding what ethnocentrism is and how it becomes politically consequential. They also marshal a vast trove of survey evidence to identify the conditions under which ethnocentrism shapes public opinion. While ethnocentrism is widespread in the United States, the authors demonstrate that its political relevance depends on circumstance. Exploring the implications of these findings for political knowledge, cosmopolitanism, and societies outside the United States, Kinder and Kam add a new dimension to our understanding of how democracy functions.

Policy Concerning Homosexuality in the Armed Forces - United States. Congress. Senate. Committee on Armed Services 1994

The End of Don't Ask, Don't Tell - J Ford Huffman 2012-04-18

Featuring 4 reports and 25 personal essays from diverse voices—both straight and gay—representing U.S. Marine Corps, Army, Navy, and Air Force veterans and service members, this anthology examines the impact of "Don't Ask, Don't Tell" and its repeal on 20 September 2011 in order to benefit policy makers, historians, researchers, and general readers.
