**Women in the Military** Connie Goldsmith 2019-02-01 In December 2015, the Pentagon changed a rule to allow American women to serve for the first time ever in front-line ground combat troops. Women have fulfilled many military roles throughout history, including nursing; driving ambulances; handling administrative duties; working as mechanics; and serving in the WASPs, WACs, WAVES, and SPARS. More recently women are flying jets, conducting surveillance, commanding naval ships, and now fighting on the front lines. Yet no matter their official title, they have faced devastating discrimination—from lack of advancement, economic inequity, and inadequate veteran support, to sexual harassment and rape. Meet the women who have served their country courageously and who are standing up for fairness in the US military.

**The Dragon Lady Gets Her Due** Barbara Barrett 2020-11-10 When the dragon lady down the street invites Sydney Bonner's husband to join the block's holiday lighting extravaganza, Syd figures the venture will distract him while she manages Sheriff Rick Formero's election campaign. But Trip's merry mission ends abruptly when the diva suffers a dramatic demise. Syd and her mah jongg friends Marianne, Micki and Kat see a chance to make their amateur sleuthing official with their contributions to Sheriff Rick's campaign platform. But they're just as interested in why the skipper of the spectacular light show met her shocking end. Putting their political proposal into action, Syd rides shotgun with Rick as they interview a stocking full of suspects. Serendipity Springs' secrets come to light as they unravel the mystery against the backdrop of a contentious campaign. From the standoffish widower to the resentful volunteers, it seems everyone on the committee had a problem

with the queen of Christmas. As the naughty list grows and the neighbors string the investigators along, can Syd and her friends nail the evil elf before a deadly decorator turns out their lights for good?

*Detour* Michael Brodsky 1977 *Detour* charts the struggle of a film-crazed young man to shape his identity; it is also about his resistance to doing so at every turn. Owning an identity can mean being straitjacketed, condemned to a living death; language becomes both an escape from the straitjacket and its vilest genius. *Detour* is also a story of first love, as it concerns the intense, transient sexual relationship between the young man, who is very reluctant about to enter medical school in the Midwest, and a rootless former heroin addict named Anne. The hero of *Detour* experiences movies the way Don Quixote responds to the romances of chivalry—as being infinitely more real than anything else in the world. Hence the connections relentlessly made between his own often Bresson, Welles, Fellini, Ophüls, Sternberg, Sirk, Karlson and Godard. Camera movements, cuts, dissolves, tension between sound and image—these torment, fascinate, liberate and exalt, because they seem to lie just beyond the vampire clutch of words, thoughts, analysis. It is within such contexts that one begins to understand the “detours”—social, psychological, familial, erotic, existential—that frustrate and enrich the protagonist’s quest for love, for connectedness, for the satisfactions of a calling. As well as the artistic detours that are crucial to depicting his complex, lacerated, maturation. It is by means of a technique that has truly absorbed the formal lessons of the novel and through an extraordinary command of language—and of the many different languages inside language: colloquial, technical, abstract—that Brodsky makes this account of the growth of the self so unnervingly new and unpredictable. In sentence after sentence, he manages to discharge the shock of the unknown, the unspeakable, the never before said. *Detour* is a vastly expanded version of the

**Lady Bag** Liza Cody 2013-11-21 Don't judge a book by its cover, or a bag lady by her appearance. 'I didn't always look like this,' she says. 'Being barmy doesn't mean I'm stupid.' Lady Bag does have her problems - her close relationship with cheap red wine, for example. When she gets hammered she talks to her dog. When she's extra-hammered her dog talks to her. Guess who makes better sense. She and her rescue greyhound, Electra, wander through the streets of London, seeing a Dickensian side of the capital city that's visible only to the homeless. Together they accept the kindness and unkindness of strangers with the same wry patience. Until, on one dreadful day, they meet the Devil outside the National Portrait Gallery... About Anna Lee "Electric with suspense, fast and funny..." Publisher's Weekly "Loud hurrahs... story wonderfully alive, truly tense, dialogue sharp and accurate!" HRF Keating, The Times About Eva Wylie "A staggering achievement... A breath-taking tour de force." Sara Paretsky "... Eva is a wondrous creation - an incorrigible innocent in a story that crackles with energy. Super Cody." Kirkus Reviews About Gimme More "Give me more books like Gimme More." Laura Lippman "Probably the greatest rock'n'roll novel ever." Nick Johnstone, uncut About *Ballad of a Dead Nobody* "I was gripped... [told] beautifully, touchingly, sometimes brutally..." Peter Lovesey "Adventurous in form, sparkingly written and with every page more gripping than the last, this bluesy novel may well be the already garlanded Cody's best yet." Mat Coward, Morning Star About *Miss Terry* "Compelling... warm and amusing, written with the characteristic Cody honesty... a terrific read." Peter Lovesey

Who's in the Game? Terri Toles Patkin 2020-11-20 Some board games--like Candy Land, Chutes & Ladders, Clue, Guess Who, The Game of Life, Monopoly, Operation and Payday--have popularity spanning generations. But over time, updates to games have created significantly different messages about personal identity and evolving social values. Games offer representations of gender, sexuality, race, ethnicity, religion, age, ability and social class that reflect the status quo and respond to social change. Using popular mass-market games, this rhetorical assessment explores board design, game implements (tokens, markers, 3-D elements) and playing instructions. This book argues the existence of board games as markers of an ever-changing sociocultural framework, exploring the nature of play and how games embody and extend societal themes and values.

**Higher Education and Working-Class Academics** Teresa Crew 2020-12-09 This book examines how a working-class habitus interacts with the elite culture of academia in higher education.

Drawing on extensive qualitative data and informed by the work of Pierre Bourdieu, the author presents new ways of examining impostor syndrome, alienation and microaggressions: all common to the working-class experience of academia. The book demonstrates that the term 'working-class academic' is not homogenous, and instead illuminates the entanglements of class and academia.

Through an examination of such intersections as ethnicity, gender, dis/ability, and place, the author demonstrates the complexity of class and academia in the UK and asks how we can move forward so

**Breaking Out** Laura Fairchild Brodie 2010-02-24 On July 26, 1996, the United States Supreme Court nullified the single-sex admissions policy of the Virginia Military Institute, the last all-male military college in America. Capturing the voices of female and male cadets, administrators, faculty, and alumni, Laura Brodie tells the story of the Institute's intense planning for the inclusion of women and the problems and triumphs of the first year of coeducation. Brodie takes us into the meetings where every aspect of life at VMI was analyzed from the per-spective of a woman's presence: housing, clothing, haircuts, dating, and the infamous "Ratline"—the months of physical exertion, minimal sleep, and verbal harassment to which entering cadets are subjected. Throughout the process the administration's aim was to integrate women successfully without making adjustments to VMI's physical standards or giving up its tradition of education under extreme stress. No other military college had done so much to prepare. But would it work? With everyone on the Post, we hold our breath as Brodie takes us through Hell Night, the unrelenting months of the Ratline, the fraternization, hazing, and authority issues that arose, the furtive sexual encounters, the resentments and, for the women, the daily difficulties of maintaining a feminine identity in a predominantly male world. Despite the challenges, we see the women ultimately making a place for

themselves. Though new problems continue to arise, Brodie's lively and inspiring account makes it clear that VMI's story is an important and timely one of institutional transformation.

I'll Get by Harry Marlin 2011-09 Author Harry Marlin met everything in life head on. This collection of his writing explores a lifetime's experiences-growing up in tiny Blanket, Texas, during the Great Depression; flying combat missions over Germany during World War II; and managing life's perplexities. Called the "Will Rogers of Central Texas," Marlin wrote a weekly column for the Brownwood Bulletin for eleven years. I'll Get By presents the first volume of compilations of his best stories taking a humorous look at a plethora of topics. "The Barbecue Smokes, but the Customers Can't" explores the ins and outs of the Texas tradition of barbecuing. In "Where Summer's Lovely Roses Still Bloom," Marlin reminisces about the dreadful summers spent picking cotton. "The Place They Didn't Catch Clyde Barrow" describes how the news of Bonnie and Clyde running rampant in 1934 took the edge off of an otherwise depressing existence. Colorful and witty, I'll Get By provides insights into life in rural Texas during the Great Depression and shows that humor can provide relief in many challenging situations.

**Women Faculty of Color in the White Classroom** Lucila Vargas 2002 What is it like for women of color to teach in predominantly white college classrooms? This anthology is about the pedagogical implications of diversifying the faculty of higher education. It compiles narratives by women professors of color who interrogate their classroom experiences in predominantly white U.S. campuses to examine the impact of their social positions upon their classroom practices and their teaching-learning selves. The authors reflect upon their unique classroom challenges and talk about the teaching-learning strategies they use to find rewards in their interactions with students. This anthology explores the larger question of how social distinctions shape classroom social life and will be a resource for those concerned with enabling the diversification of the faculty of institutions of higher learning.

The other, to answer a mother's anguish as she tries to understand her daughter's suicide. Micky sees no happy ending to either case; the dusty pages of history aren't going to give up their secrets after holding them for so long. *Women in the Barracks* Philippa Strum 2002 In June 2001, there was a decidedly new look to the graduating class at Virginia Military Institute. For the first time ever, the line of graduates who received their degrees at the "West Point of the South" included women who had spent four years at VMI. For 150 years, VMI had operated as a revered, state-funded institution—an amalgam of Southern history, military tradition, and male bonding rituals—and throughout that long history, no one had ever questioned the fact that only males were admitted. Then in 1989 a female applicant complained of discrimination to the Justice Department, which brought suit the following year to integrate women into VMI. In a book that poses serious questions about equal rights in America, Philippa Strum traces the origins of this landmark case back to VMI's founding, its evolution over fifteen decades, and through competing notions about women's proper place. Unlike most works on

women in military institutions, this one also provides a complete legal history—from the initial complaint to final resolution in *United States v. Virginia*—and shows how the Supreme Court's ruling against VMI reflected changing societal ideas about gender roles. At the heart of the VMI case was the "rat line": a ritualized form of hazing geared toward instilling male solidarity. VMI claimed that its system of toughening individuals for leadership was even more stringent than military service and that the system would be destroyed if the Institute were forced to accommodate women. Strum interviewed lawyers from Justice and VMI, heads of concerned women's groups, and VMI administrators, faculty, and cadets to reconstruct the arguments in this important case. She was granted interviews with both Justice Ginsburg, author of the majority opinion, and Justice Scalia, the lone dissenter on the bench, and meticulously analyzes both viewpoints. She shows how Ginsburg's opinion not only articulated a new constitutional standard for institutions accused of gender discrimination but also represented the culmination of gender equality litigation in the twentieth century. *Women in the Barracks* is a case study that combines both legal and cultural history, reviewing the long history of male elitism in the military as it explores how new ideas about gender equality have developed in the United States. It is an engrossing story of change versus tradition, clear and accessible for general readers yet highly instructive and valuable for students and scholars. Now as questions continue to loom concerning the role of state funding for single-sex education, Strum's book squarely addresses competing notions of women's place and capabilities in American society.
