Ready Player One - Ernest Cline 2011-08-18

THE BOOK BEHIND THE MAJOR MOTION PICTURE DIRECTED BY STEVEN SPIELBERG 'Wildly original and stuffed with irresistible nostalgia, Ready Player One is a spectacularly genre-busting, ambitious, and charming debut' Independent 'Part intergalactic scavenger hunt, part romance, and all heart' CNN 'Ernest Cline's novel deserves to be a modern classic' SciFiNow 'Gorgeously geeky, superbly entertaining, this really is a spectacularly successful debut' Daily Mail _____ A world at stake. A quest for the ultimate prize. Are you ready? It's the year 2044, and the real world has become an ugly place. We're out of oil. We've wrecked the climate. Famine, poverty, and disease are widespread. Like most of humanity, Wade Watts escapes this depressing reality by spending his waking hours jacked into the OASIS, a sprawling virtual utopia where you can be anything you want to be, where you can live and play and fall in love on any of ten thousand planets. And like most of humanity, Wade is obsessed by the ultimate lottery ticket that lies concealed within this alternate reality: OASIS founder James Halliday, who dies with no heir, has promised that control of the OASIS - and his massive fortune - will go to the person who can solve the riddles he has left scattered throughout his creation. For years, millions have struggled fruitlessly to attain this prize, knowing only that the riddles are based in the culture of the late twentieth century. And then Wade stumbles onto the key to the first puzzle. Suddenly, he finds himself pitted against thousands of competitors in a desperate race to claim the ultimate prize, a chase that soon takes on terrifying real-world dimensions - and that will leave both Wade and his world profoundly changed. _____ Readers can't get enough of Ready Player One . . . ***** 'THAT WAS SO TOTALLY AWESOME, WOW!' ***** 'This is an exciting story, especially for geeks, and the key word is FUN.' ***** 'Ladies and gentlemen, from this day this book is my life and I will obsess over it constantly.' ***** 'I just kinda wanna cry right now. I'll have a proper review at some point, but I gotta let myself recover.' ***** 'I had the feeling while reading this book that it was written expressly for me. This is my childhood captured.'

Come from Away - Genevieve Graham 2018-04-24

From the bestselling author of Tides of Honour and Promises to Keep comes a poignant novel about a young couple caught on opposite sides of the Second World War. In the fall of 1939, Grace Baker's three brothers, sharp and proud in their uniforms, board Canadian ships headed for a faraway war. Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about "wolf packs" of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone's throw from Grace's window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else entirely—someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. Come from Away is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.

Rip it Up and Start Again - Simon Reynolds 2009-04-02

'A fantastic tribute to an amazingly creative musical period . . . An instant pop classic, worthy of a place on your shelves beside the handful of music books that really matter.' John McTernan, Scotland on Sunday Punk revitalized rock in the mid-seventies, but the movement soon degenerated into self-parody. Rip It Up and Start Again is the first book-length celebration of what happened next: post-punk bands who dedicated themselves to fulfilling punk's unfinished musical revolution. 1978 - 1984 rivals the sixties for the sheer amount of fabulous music created, the spirit of adventure and possibility that infused it, and the way the sounds felt inextricably connected to the political and social turbulence of the day. Simon Reynolds, acclaimed author of Energy Flash, recreates a time of tremendous urgency and idealism in pop music. Packed with anecdote and insight, populated by charismatic and maverick characters, Rip It Up and Start Again stands as one of the most inspired and inspiring books on popular music ever written. 'I had never expected there to be a book on this subject; had I done so, I would never have dared to hope it could be as good as this.' Nicholas Lezard, Guardian Book of the Week 'This remarkable and perfectly timed cultural history is required reading.' Q Magazine

Life as Politics - Asef Bayat 2013-05-01

Prior to 2011, popular imagination perceived the Muslim Middle East as unchanging and unchangeable, frozen in its own traditions and history. In *Life as Politics*, Asef Bayat argues that such presumptions fail to recognize the routine, yet important, ways in which ordinary people make meaningful change through everyday actions. First published just months before the Arab Spring swept across the region, this timely and prophetic book sheds light on the ongoing acts of protest, practice, and direct daily action. The second edition includes three new chapters on the Arab Spring and Iran's Green Movement and is fully updated to reflect recent events. At heart, the book remains a study of agency in times of constraint. In addition to ongoing protests, millions of people across the Middle East are effecting transformation through the discovery and creation of new social spaces within which to make their claims heard. This eye-opening book makes an important contribution to global debates over the meaning of social movements and the dynamics of social change.

The Selfish Gene - Richard Dawkins 1989

Science need not be dull and bogged down by jargon, as Richard Dawkins proves in this entertaining look at evolution. The themes he takes up are the concepts of altruistic and selfish behaviour; the genetical definition of selfish interest; the evolution of aggressive behaviour; kinship theory; sex ratio theory; reciprocal altruism; deceit; and the natural selection of sex differences. 'Should be read, can be read by almost anyone. It describes with great skill a new face of the theory of evolution.' W.D. Hamilton, *Science*

MacAddict Guide to Living the iLife - Shelly Brisbin 2005

Every new, or relatively new, Mac comes loaded with powerful "digital lifestyle" applications, collectively known as iLife. Problem is, Apple provides little if any documentation. Sure, these iApps are easy-to-use, but each of them also has tons of undocumented features and shortcuts. We'll visually explain each app's basic features, then go beyond the basics to show hidden features and time-saving shortcuts. In addition, each section that focuses on the creative iApps will include off-the-wall and entertaining, yet useful, projects that'll show readers how to have fun with the easy-but-powerful software that came with their Macs. Finally, we'll take a look inside the Utilities folder to explore all its geeky goodness, and teach the reader which of these apps can help them, and which are better left alone and which one is the gateway to a host of old-school games that we bet you didn't even know were there. Apps covered in this one-of-a-kind book include: 650_table.seel AddXMLRootTags.pl amazon-info.seel amazonls_marc.seel archivearchivein archivecontntdmin archivein archiveinarchive archiveinarchivehtmlfooter archiveinarchivehtmlheader archiveinarchivemonthlyreport archiveinarchive-service autoconfig balancereport balancereport.template

Shri Mataji writes that "India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it." This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. "The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form."
