Girls Will Be Girls Emer O'Toole 2015-02-26 'Part autobiography, part heartfelt plea to change the way we look at gender, Girls will be Girls is an excellent primer on feminist theory. Every teenage girl should be given a copy' HOT PRESS Being a woman is, largely, about performance - how we dress and modify our bodies, what we say, the roles we play, and how we conform to expectations. Gender stereotypes are still deeply embedded in our society, but Emer O'Toole is on a mission to re-write the old script and bend the rules of gender - and she shows how and why we should all be joining in. Exploring what it means to 'act like a girl', Emer takes us on a hilarious and thought-provoking journey through her life (including singing 'Get Your Pits Out for the Lads' on national TV after growing out her body hair). Cross-dressing, booty-shaking, sexual disasters, family dinners and full-body waxing are all lovingly dissected in search of wisdom. With game-changing ideas, academic intelligence and laugh-out-loud humour, this book will open your mind and revolutionise the way that you think about gender.

Girls, Autobiography, Media Emma Maguire 2018-04-05 This book investigates how girls' automedial selves are constituted and consumed as literary or media products in a digital landscape dominated by intimate, though quite public, modes of self-disclosure and pervaded by broader practices of self-branding. In thinking about how girlhood as a potentially vulnerable subject position

circulates as a commodity, *Girls, Autobiography, Media* argues that by using digital technologies to write themselves into culture, girls and young women are staking a claim on public space and asserting the right to create and distribute their own representations of girlhood. Their texts—in the form of blogs, vlogs, photo-sharing platforms, online diaries and fangirl identities—show how they navigate the sometimes hostile conditions of online spaces in order to become narrators of their own lives and stories. By examining case studies across different digital forms of self-presentation by girls and young women, this book considers how mediation and autobiographical practices are deeply interlinked, and it highlights the significant contribution girls and young women have made to contemporary digital forms of life narrative.

Aesthetic Labour Ana Sofia Elias 2017-01-18 This volume approaches questions about gender and the politics of appearance from a new perspective by developing the notion of aesthetic labour. Bringing together feminist writing regarding the 'beauty myth' with recent scholarship about new forms of work, the book suggests that in this moment of ubiquitous photography, social media, and 360 degree surveillance, women are increasingly required to be 'aesthetic entrepreneurs', maintaining a constant state of vigilance about their appearance. The collection shows that this work is not just on the surface of bodies, but requires a transformation of subjectivity itself, characterised by notions of personal choice, risk-taking, self-management, and individual responsibility. The book includes analyses of online media, beauty service work, female genital cosmetic surgery, academic fashion, self-help literature and the seduction community, from a range of countries. Discussing beauty politics, postfeminism, neoliberalism, labour and subjectivity, the book will be of interest to scholars and students with an interest in Gender, Media Studies, Cultural Studies, Sociology, Social Psychology and Management Studies. "This highly engaging, smart, and wide-ranging collection analyzes how, under the self-governing mandates of neoliberalism, the demands that girls and women regulate and control their bodies and appearance have escalated to new, unforgiving levels. A special strength of the book is its emphasis on the rise of 'aesthetic labour' as a global, transnational and ever-colonizing phenomenon that seeks to sweep up women of all races, ages and locales into its disciplinary grip. Highly recommended." -Susan J Douglas, University of Michigan, USA the inherited responsibility that remains women's particular burden to manage." -Melissa Gregg, Intel Corporation, USA "This book incisively conceptualizes how neo-liberalist and postfeminist tendencies are ramping up pressures for glamour, aesthetic, fashion, and body work in the general public. In a moment when YouTube 'makeup how to' videos receive millions of hits; what to wear and how to wear it blogs clock massive followings; and staying 'on brand' is sold to us as the key to personal and financial success, 'aesthetic entrepreneurship' is bound to become a go-to concept for anyone seeking to understand the profound shifts shaping labor and life in the 21st century." -Elizabeth Wissinger, City University of New York, USA
